For every

5,000
people

**there is 1 EV
charger...**

It's ***scary*** not
knowing where your
next electric vehicle
charge will come
from on a long trip...

With access to public
charging in the U.S.
limited, families run the
risk of getting *stranded*
with *no charge*.

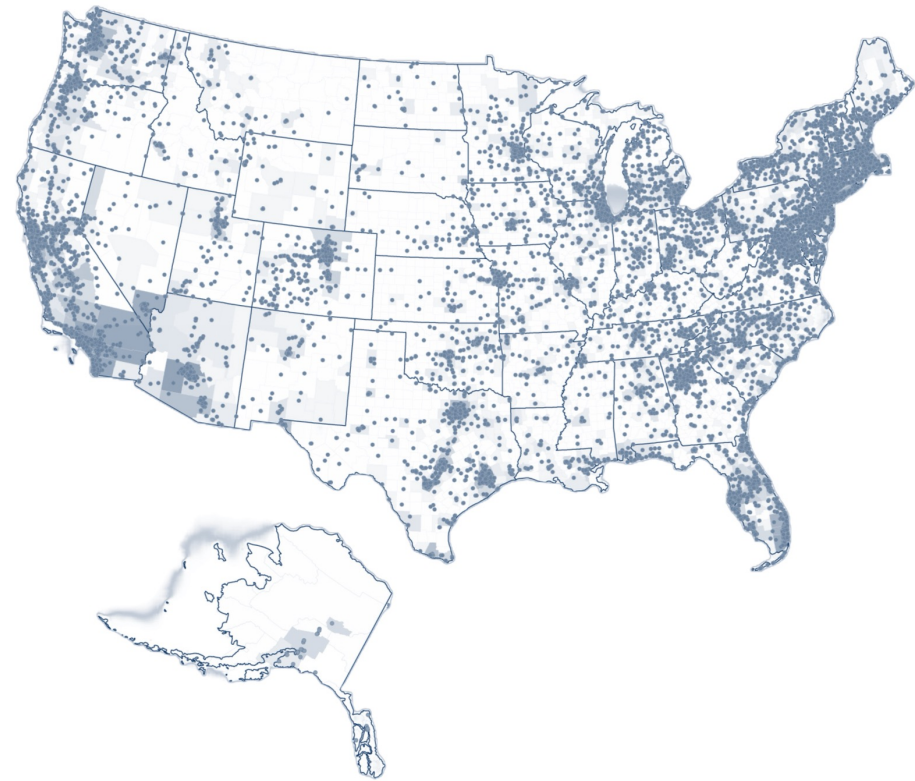

CURRENT EV CHARGER LOCATIONS

NATIONWIDE U.S.A.

AS OF Q4 2025

- There are currently **61,000** publicly accessible EV Charging locations
- Current USA Population is **346 million**
- For **every 5,674 American's**, there is 1 EV Charger
- The countries energy consumption also plays a factor
- The U.S. ranked 2nd behind China in total energy consumption, consuming **26,189 Tera-watt hours** (TWh) of power.
- China only used **47,428 TWh**.
- China has **a population of 1.4 billion people**,
 - The U.S. is currently made up of **346 million people or nearly 24% of the Chinese population**
 - While the. **U.S. still consumed nearly 55% of the total energy China did**
 - Leaving less energy for EV drivers

United States Department of Energy, 2025

OUR VALUED PARTNERS

ROADSIDE PROTECT & MCNAIR CONNECTION

ROADSIDE PROTECT

We're proud to partner with Roadside Protect, a leader in specialty roadside assistance, to bring EV owners RESCUE Roadside™—a comprehensive support program tailored for electric vehicles. Leveraging Roadside Protect's extensive service network and advanced Navigator Technology Platform, we offer reliable assistance, including towing, battery jump-starts, flat tire changes, and lockout services. Together, we aim to enhance the EV ownership experience with prompt, transparent, and responsive support, giving drivers peace of mind wherever the road takes them.

Additional support and consultation
provided by McNair Connection

WHY WE CARE

THE AMERICAN RENEWABLE ENERGY COMPANY™

RESCUE Roadside™ embodies our commitment to supporting EV drivers across the nation. As pioneers in renewable energy, we understand the unique needs of electric vehicle owners, especially when it comes to reliability on the road. RESCUE Roadside™ offers peace of mind with 24/7 roadside assistance, specialized EV charging, and comprehensive support tailored to modern EV lifestyles.

AMERICAN RENEWABLE

ENERGY CO.™

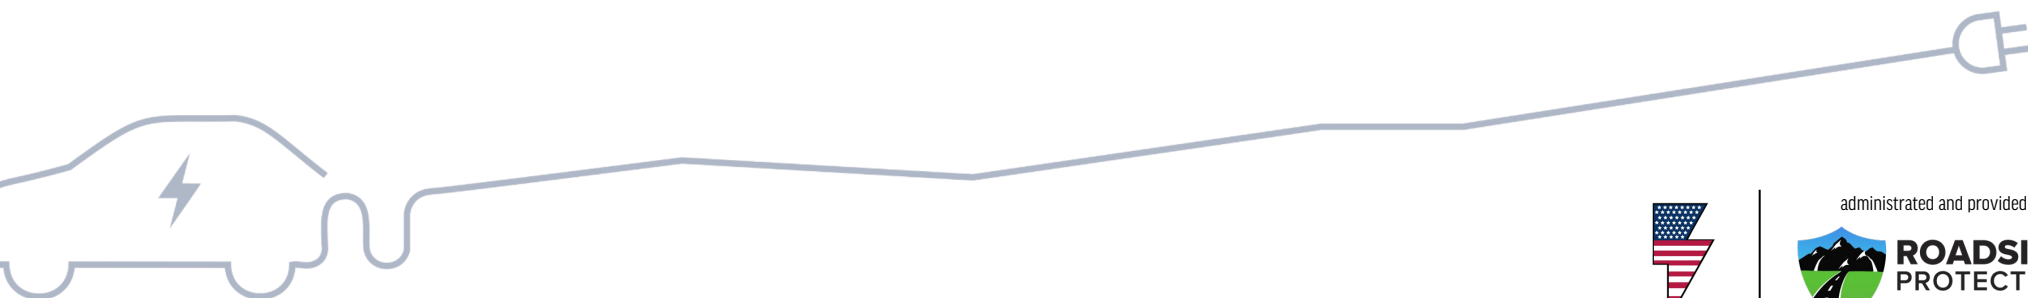

CHARGING AHEAD

REVOLUTIONIZING EV OWNERSHIP TOGETHER

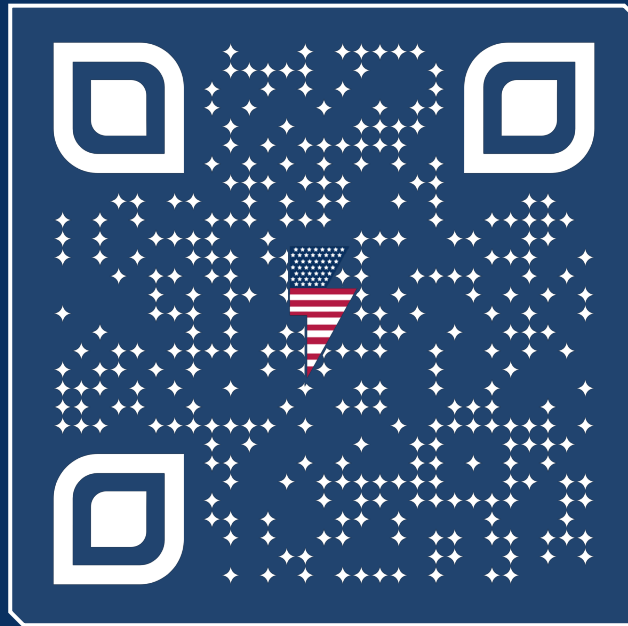

PARTNERING FOR PROGRESS

By partnering with automotive dealerships, we are creating an ecosystem where EV ownership is *seamless*, *convenient*, and *secure*. This program not only strengthens the trust between dealers and their customers but also aligns with our vision of an electrified future where drivers can venture confidently, knowing that help is always just a call away.

Together, through innovative solutions and unwavering support, we're *redefining the EV experience* and powering a sustainable future for America.
