## OUR GOAL

The goal of Seventh-day Adventist education is about more than quality teachers providing innovative instruction. Adventist education aims to provide student learning infused with Christian faith and an Adventist worldview. To achieve this goal Seventh-day Adventist standards for grades 9-12 subjects have been carefully developed to embody Seventh-day Adventist beliefs and to prepare students for life-long learning, equipping them for earthly service and heavenly citizenship. An education of this kind imparts strong academic knowledge and a clear picture of Christ and His love for mankind.

These standards focus on what students should know, understand and be able to do. They will be a useful tool for teachers in developing lessons and ensure a thorough preparation for college or university when fully implemented across the curriculum.

### Seventh-day Adventist Secondary Standards:

1. Provide clear expectations for student learning and accountability.
2. Provide an essential user-friendly tool for developing instruction.
3. Transform textbooks from curriculum guide to a resource for instruction.
4. Provide for a complete and uniform Adventist secondary curriculum.
5. Have been developed exclusively by Seventh-day Adventist educators.
6. Have been aligned with the goals of Journey to Excellence
7. Have been developed using national and state standards, Adventist curriculum guides, and standards compendiums from McRel and Ten Sigma.

## RATIONALE

*Secondary Religion Standards for Seventh-day Adventist Schools* seeks to ensure that the Bible courses lead students into a relationship with the loving God through Jesus Christ and to discover His plan for their lives. Instruction in Bible courses will incorporate the beliefs, values and mission of the Seventh-day Adventist Church through a variety of “head, heart, and hand experiences.” These standards should help students learn to see and reflect God’s image through understanding, applying and responding to the Holy Scriptures.

These carefully developed standards for Bible courses are a practical tool to assist teachers in focusing their instruction so that students will experience critical and creative thinking while exploring and incorporating biblical principles into a relevant Christian life. These standards should lead to more than strong academic knowledge of the Bible, they should guide the students to meaningful, life-changing experiences that mark the path of spiritual discipleship. The standards should help students develop a unique Christian worldview that enables them to make connections between the Creator God and the story of salvation in Jesus Christ. The intent is to focus on the essentials of the Bible courses which are integral to the development of the whole student equipping them for early service and heavenly citizenship.

The *Crossroads* religion textbook series prepared under the direction of the North American Division Office of Education serves as a primary resource for implementing the standards.

## CREDITS

The following resources were referenced in developing *Secondary Religion Standards for Seventh-day Adventist Schools*: NAD Curriculum Guide for Religion 9-12, the *Crossroads* religion textbook series, and Journey to Excellence.

## STANDARDS CODING

The standards and essential learnings have been coded so that educators can easily refer to them in their curriculum, instruction, assessment, and professional development activities. The coding system begins with the course abbreviation in letters, all are identified with BC—Bible Courses. The first of three numerals refers to the grade level (BC.9.2.1). The second numeral refers to the standard (BC.9.2.1) and the third numeral refers to the subcategory (BC.9.2.1) under the standard.

## JOURNEY TO EXCELLENCE

When the standards on the next page have been met the instruction in this course will have also met some of the Goals and Essential Core Elements for the curriculum in Seventh-day Adventist schools listed in *Journey to Excellence*. The number (1.A) refers to the Goal and the letter (1.A) refers to the Essential Core Element that is met.
