LETTER FROM THE PRES.

Dear Resident,
Hoping this newsletter finds all Summerland Cove friends doing well. We are looking forward to seeing all those who have been away, back into the area. In the newsletter, you will see the upcoming events for this 2024-2025 season. Please come and participate in our various community activities and meet some of the new neighbors.

Let us know if you have any suggestions for other activities we can have in the community.

*Kind regards,
Marcy Matlosz
and the SCCA Board*

HURRICANES

EVACUATION ZONES AND SHELTERS

Hurricane season runs through Dec 1. Monroe County has a comprehensive plan that calls for phased evacuation with five zones established from MM 0 to Ocean Reef. The evacuation plan is intended to avoid unnecessary evacuation, if some zones are expected to be affected and others not. Here are the zones relevant to our neighborhood if local officials order evacuations.

Zone 1: MM 0 to MM 6

Zone 2: MM 6 to MM 40

Shelter locations for Category 1-2 Hurricanes

Key West High School

2100 Flagler Avenue

Sugarloaf School

MM 19, US 1

Marathon High School

MM 50 350 Sombrero Beach Road

RE-ENTRY STICKERS

Residents may obtain one sticker for each registered vehicle by providing proof of residency at a Monroe County Tax Collector's Office. Proof of residency includes a Florida Driver's License and vehicle registration, or a property bill with an out-of-county vehicle registration for out-of-county residents who own a home in Monroe County. The new system is barcoded with color-coded stickers for zone by zone reentry. (We're Dark Pink, #1). These stickers make reentry easier if checkpoints are required to assure safe entry into the Keys.

PLEASE NOTE: WE ARE IN EVACUATION ZONE 2 WE ARE IN RE-ENTRY ZONE 1

SCOOP THE POOP

Please pick up your dog's poop when they are not on your property. All of us thank you for helping keep our neighborhood clean.

VEGETATION PICK-UP

For the safety of the Waste Management Operators keep the following items in mind when filling your drums:

- Put holes in the bottom of the drums so rainwater drains out
- Watch the weight - do not overfill - max 50 pounds
- Do not allow vegetation to be over 12 inches beyond the top of the drum.
