

Every child and every adolescent is unique. As we meet them in the classrooms, playgrounds, and hallways, we are continually inspired by the potential within each one of them. Our desire is for every student to feel **known, loved, and supported**.

At Irish International School Monterrey, we firmly believe that education is one of the most meaningful responsibilities in shaping the future. Inspired by our motto, Semper Altius—Always Higher—**we strive for excellence in everything we do, not as an end in itself, but as the best way to serve each student and their family**.

We are an educational community that aspires to do far more than impart knowledge. **Our mission is to form men and women of integrity, grounded in a strong human and academic formation, who are capable of inspiring others and transforming society**.

This mission can only be fulfilled through a close **partnership** with families. Through trust, open dialogue, and shared responsibility, we pursue a common purpose: **to foster the integral well-being and fullest development of our students**.

Our Catholic identity gives meaning and direction to this mission. In it, we find the inspiration to educate with hope, **serve with generosity**, and accompany each person along their journey, firmly convinced that in Christ we find the solid foundation upon which to build a fulfilling life.

To those who are already part of the Irish community, thank you for your trust and commitment. To those who wish to learn more about us, the doors of Irish International School are always open to families seeking an **integral education marked by excellence**.

I remain at your service as we continue building, together, this remarkable educational community, which for nearly **six decades** has accompanied families in the integral formation of their children.

May God bless you!

Fr. Ignacio Sarre, L.C.

Headmaster

Irish International School Monterrey
