United Human Services Firm Overview

Market Analysis

The market analysis of auditors' rates reveals a dynamic landscape influenced by factors such as location, expertise, engagement complexity, and industry focus. It is important to consider these factors to ensure quality service that aligns with budget and needs of an organization. Some of the factors that can influence the auditors' rates are:

- **Pricing Models:** Audit service rates are typically offered through two primary pricing models: fixed fees and hourly rates. Fixed fees are commonly used for well-defined audit engagements, while hourly rates are applied for projects with variable scope and complexity. In the case of this project, we will adopt the hourly rate because of the complexity of the project.
- **Geographic Variation:** Auditor rates can vary significantly based on the geographic location. Rates tend to be higher if there will be a need to relocate to an unfamiliar location. This will naturally necessitate more expenses.
- **Experience and Expertise:** Auditors with more experience and specialized expertise generally command higher rates. Senior auditors or firms with a strong reputation often charge a premium for their services due to their track record and industry knowledge.
- **Engagement Complexity:** The complexity of the engagement plays a crucial role in determining rates. More complex audits involving multiple entities, international operations, or intricate financial structures often command higher rates.

In the case of the billing for this project, it will require the service of two auditors for optimum effectiveness. To that effect, the below is the best rate for auditing services:

Auditors	Hourly (\$)	Quarterly (\$)	Annually (\$)
Senior Auditor	150	12,000	\$48,000
Auditor 1	100	8,000	\$32,000
Total (\$)	250	20,000	\$80,000

Letter of Recommendation

To Whom It May Concern:

United Human Services has worked with our team here at Global Health Services, Inc. over the past four years. Our collaborations on establishing a self service Learning Management System curriculum for Qualified Mental Health Professionals to our exploration on establishing a Virtual Charter School for at-risk students has proven to be a win-win for our organizations. We have always enjoyed working with United Human Services. Additionally, they communicate and interact well with our staff, making our event and programming planning very successful.

United Human Services, is a great candidate for the contract that you have open. Their current setup makes UHS well position to provide the services the contract requires.

If you need any additional information, please contact me.

Best regards,

Dr. Eric Wood
