

# Glass Vacuum Lifters

## Hydraulica

### 1000A

The Hydraulica vacuum glass lifter is highly versatile dual circuit glass lifter with 10 pads as standard lifting 750kg. There are 2 extendable arms with 2 pads on each that can be fitted to further stabilise the load and will increase the lifting capacity up to 1000kg.

The Hydraulica vacuum glass lifter is supplied with a wheeled stand so it is quick and easy to move into position as and when required.

The Hydraulica vacuum glass lifter is fitted powered tilting so positioning has never been easier, this is controlled via a cable remote control system.

- Suitable for lifting gastight materials with a smooth surface for example: glass, plastic boards, ceramic plates, sheet metals, coated boards.
- Dual - independent vacuum circuits with two vacuum reserve tanks and two non-return valves.
- Vacuum gauge for each circuit.
- Manual 270° lockable rotation.
- Powered hydraulic tilting from vertical to horizontal.
- 4 on-board maintenance-free vacuum pumps.
- 12v battery with integral charger or 110v/240v mains and battery energy gauge.
- Audio-visual low vacuum alert.
- Cable remote control as standard.
- Individual pads can be isolated to accommodate irregular shapes.
- Wheeled Stand.

## Key Features

### Technical Specification

- ⌚ Lifting capacity: 1000kg
- ⌚ 14 suction cups
- ⌚ Suction pads 330mm diameter
- ⌚ Weight of unit 177kg
- ⌚ Depth of unit 300mm
- ⌚ Manual 135 degree left and right lockable rotation
- ⌚ Dual circuit vacuum system with reserve tank, non-return valve and vacuum gauge for each circuit
- ⌚ Powered hydraulic 90 degree tilt from vertical to horizontal
- ⌚ Two or four on-board maintenance-free vacuum pumps
