Encore will provide on-site liaison and assistance, coordination throughout the resort's many departments and they are able to fulfill any equipment requests and requirements.

You may ask to bring in a third-party (outside) vendor for your audio-visual equipment, technical services and other forms of outside support (i.e. décor, entertainment, etc.). However, the JW Marriott Marco Island Beach Resort and Encore will insist that the various Production Guidelines stipulated herein are followed.

These Guidelines are established and enforced to ensure proper operation and care for this facility, its systems and equipment. They also promote the safety of all guests and employees, and hold each event and program to the high standards maintained by JW Marriott Marco Island Beach Resort.

All outside vendors must sign a copy of these Guidelines as proof they will recognize and comply with each of the requirements and stipulations listed, without exception.

Should the supplier not wish to use the existing system, they must then provide the entire audio package, complete with external sound, amplification, microphones, and cables (see also insurance). **The outside vendor must also provide a list of all wireless frequencies to be used at the hotel during the event. It will be the sole responsibility of the outside vendor to ensure these frequencies do not interfere with any in-house AV components or resort systems (by changing if necessary).** Encore must approve the use of all RF and UHF frequencies to be used at JW Marriott Marco Island Beach Resort.

Outside Production Equipment Load-In / Out Requirements

Two Encore liaisons will be assigned to work with the outside supplier at prevailing labor rates, with a minimum of 5 hours.
