

# WRITE the Word - Users Guide

Have you ever wondered how to deepen your understanding and relationship with the Bible? Have you ever struggled to retain the scriptures you've studied? The WRITE acronym is one method that has been designed to help you get more from your bible study. It's a step-by-step technique to enhance your spiritual learning and growth. Let's explore each step in detail:

## Write

Start by writing out your Bible study verse in your journal. This might seem like a simple step, but it's a powerful one. As you write, you are engaging more of your senses which aids in memory retention. In addition, writing allows you to slow down and really focus on the words you are penning down. This can help you gain a deeper understanding of the verse and its meaning.

## Read

Next, read the verses above and below the verse you wrote out. This will give you a better context of what the verse is about. It's also beneficial to read the verse in different translations. Different translations can provide new perspectives and insights into the verse. They can highlight different aspects of the verse and can help you understand the verse in a fresh, new way.

## Investigate

Investigate the words that stand out to you in the verse. Look up these words in a dictionary, bible dictionary, thesaurus, or concordance. This will help you understand the original meaning and intent of the words. It can bring clarity to the verse and can deepen your understanding of it. Don't be afraid to dig deep and research; you might be surprised at what you discover!

## Think

Now, think it over. What does this verse say about God, you, or others? Reflect on the verse and consider its implications. Is there a promise to claim? A lesson to learn? A command to obey? A sin to avoid? A new thought about God to grasp? This step requires you to internalize the verse and to apply it to your life.

## Examine

Finally, examine your heart. Ask the Lord to align your heart with His Word. This is a crucial step in the process. It's not enough to just read and understand the Word; you must let it transform you. Ask God to reveal any areas in your life that need to change. Let the Word convict, correct, and guide you. Allow it to shape you into the person God wants you to be.

The WRITE method is more than just a Bible study technique. It's a way to engage deeply with God's Word and to allow it to transform you from the inside out. So, the next time you sit down with your Bible, try the WRITE method. You might be surprised at how much more you get from your study time.
