

The W.R.I.T.E. Method

W

Write out your bible study verse in your journal. Use whatever translation you prefer.

R

Read the surrounding passage and also read the verse in a few different translations.

I

Investigate using tools like a dictionary, Bible commentary and/or cross references.

T

Think it over: What does this verse say about God? How does it impact my life? How does it impact others?

E

Examine your heart: Pray about what you learned and ask the Lord to align your heart with His Word.
