PRIVACY SCREENS

# INSTALLATION INSTRUCTIONS

## RECOMMENDED INSTALLATION

Attach a post base to the bottom of each post using the 4 bolts provided with the base.

Place the posts 36" (91 cm) apart, measuring from the inside of the posts.

Mount an L-bracket to each post at the desired height using 5 self-tapping screws.

Attach a privacy screen to the L-brackets using 5 screws and bolts on either side.

Insert a post cap into the top of each post.

Place the two ends of a post skirt around the bottom of each post.

*Note: Holes are provided in the post bases so you can attach the base to the ground or other surface, if desired. Screws not included. Purchase screws appropriate to the surface material.*
