RFID SEAL

20 years of production experience,
support for taking samples

ABOUT RFID E-SEAL:

RFID anti tamper bolt type seal is a container bolt seal that combines the necessary high security required with the electronic security offered by RFID. As per Circular No.36/2017-Customs, the E-Seal conforms to ISO 17712.2013(H) and ISO/IEC 18000-6 Class 1 Gen 2 which is globally accepted in industrial applications and can be read with the use of UHF(i.e 860 MHz to 960 MHz) Reader / Scanners.

Government Rule:

CBEC has recently notified the use of E Seals for self sealing by exporters.

E Seals is a tool to ensure security of cargo and traceability. It is being frequently used World over to conform to WCO - AEO requirements

E Seal is an RFID solution – both passive and active variants are there

E Seal helps identify containers that have been tampered in a discreet manner, drastically reduces time taken currently for manual inspection procedures

It is used to secure cargo on Intermodal transport including containers, trailers, rail cars, air cargo and other containers.

WHY OUR E-SEAL

INDIA

PAN India Coverage

We cover 170 plus ICDs and Ports all across India and provide local technical support. eseal rfid solutions rfid tracking

24 hours

We provide guarantee dispatch within 2 hours of your payment And call centre service round the clock including Sundays. eseal rfid solutions rfid tracking

User Friendly

We provide web-Based and Mobile Application which is been appreciated by lot of our customers across INDIA. they are perfectly designed to create a user friendly experience for our cusomter across India.

BOLT SEAL

Brightly coloured ISO 17712: 2013 compliant bolt seal with serial numbers lasered onto body and bolt for higher protection.

Features:

- ISO 17712 and C-TPAT compliant.
- Plastic coating will show evidence of tampering and protects against corrosion.
- Patented locking mechanism provides easy locking and a high tensile strength.
- Laser marked serial numbering on both bolt and body for unique identification.
- Minimum hole size for bolt to pass through 10.5 mm diameter

Specification:

Colour: Yellow

Logo: DENLOB

Custom Logo: Available

Material: Bolt & Body: steel / Plastic coating: ABS

Minimum Order: 100 Quantity

Minimum Order Quantity for Custom Logo: 5,000 Quantity

Application Areas:

Sealing Containers, Sealing Tautliners, Sealing Trailers, Sealing Trucks.

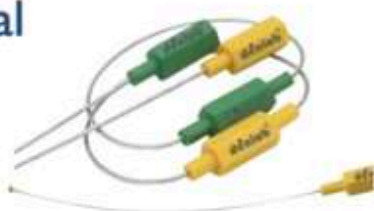

Bolt Seal

Plastic Strip Seal

Cable Seal

Padlock Seal

PLASTIC STRIP SEALS

This adjustable security seal is easy to use, versatile and strong. The extra large flag enables users to add details such as signatures using a marker or label.

Features

- Extra length adjustable seal.
- Large flag.
- Self-locking.
- Secure gripping prongs.
- Five seals per mat.
- Unique sequential serial numbering.

Features:

Colour: Yellow

Logo: DENLOB

Custom Logo: Available

Material: Tough Fibre Plastic

Minimum Order: 5000 Quantity

Minimum Order Quantity for Custom Logo: 5000 Quantity

Applications Area: Sealing Bags, Containers, Sealing Baggage's.

Plastic Padlock Seal

Pull tite Wire Seal

Drumcap Seal

Plastic Drum Seal

SINGLE USE PDF TEMPERATURE DATA LOGGER

T-SURE DIRECT PDF TEMPERATURE DATA LOGGER

The Tsure Single Temperature Data Logger 180 Days PDF Temp 180 is a state-of-the-art device that is designed to help you monitor and record temperature changes in your environment.

This device is perfect for use in a wide range of applications, including food storage, pharmaceuticals, and laboratory research.

ELITECH RC-17 DISPOSABLE SINGLE-USE TEMPERATURE DATA LOGGER

Elitech RC-17 handles the temperature monitoring for your food supply chain from processing, transportation to distribution. Store up to 16,000 temperature readings with LED status notice and super small&light design. This disposable temperature recorder is packed in a waterproof bag, monitoring data without taking it out of the bag.

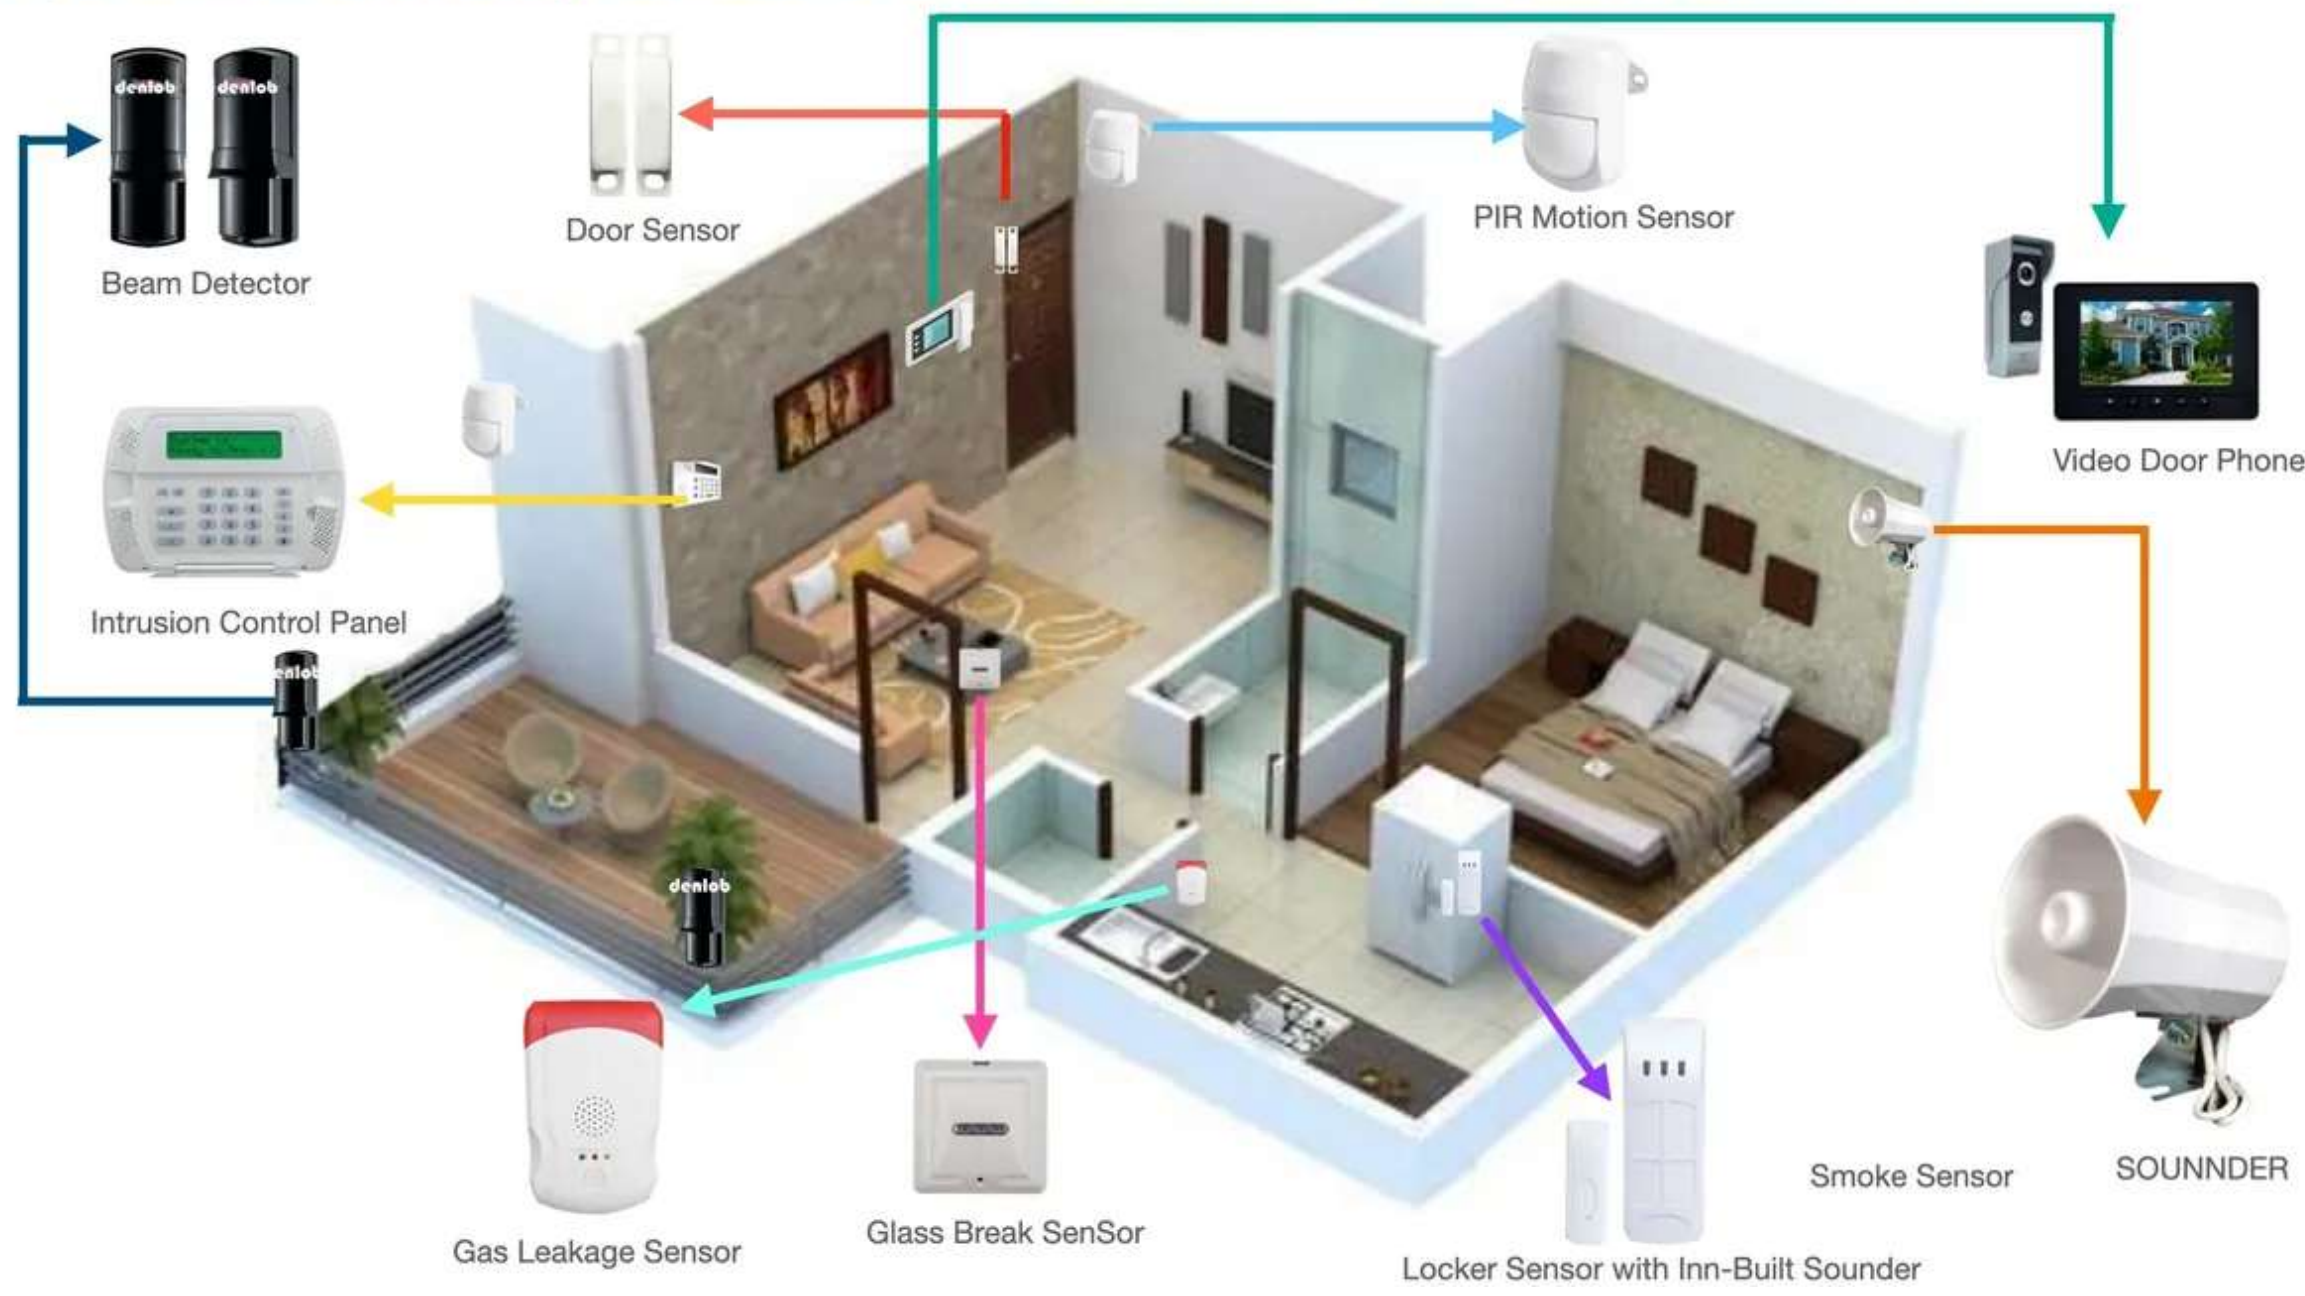

WHO APPROVED LOG ET1 DATA LOGGER WITH DISPLAY

The Loget 1 series is mainly used to record temperature and humidity data during transportation of pharmaceuticals, vaccines, reagents, etc; Configure parameters and export PDF data reports through USB interface. WHO Approved Data Logger | Large LCD screen with powerful indicators | Up to 5 alarm thresholds can be configured | USB Connector,

RESIDENTIAL SECURITY KIT

Apartment Security Solutions from DENLOB for Constructed or Old Apartment

Independent House Security Solutions from DENLOB

CRIB Lite

This CRIB Lite is Suitable for apartment with 2+BHK

This Lite Kit Includes:

INTRUSION ALARM PRODUCTS:

- 1+ Intrusion Control panel
- 2+ PIR Motion Sensor
- 3+ Door Sensor (Contact)
- 1+ Gas Leak Detectors
- 1+ Hooter (Siren)

VIDEO DOOR PHONE PRODUCTS:

Analogue Video Door Phone with

- 1+ Outdoor Camera
- 1+ 7" TFT Monitor

@ INR 28,612

CRIB PREMIUM

This CRIB Premium is Suitable for apartment with 3+BHK

This Premium Kit Includes:

INTRUSION ALARM PRODUCTS:

- 1+ Wireless Intrusion Control panel
- 4+ Wireless PIR Motion Sensor
- 4+ Wireless Door Sensor
- 1+ Standalone SMART SENSOR
- 1+ Standalone Gas Leak Detectors
- 1+ Hooter (Siren)

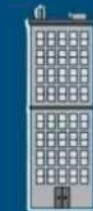

VIDEO DOOR PHONE PRODUCTS:

Analogue Video Door Phone with

- 1+ Outdoor Camera
- 2+ 7" TFT Monitor

@ INR 57,206

CRIB GOLD

This CRIB Gold is Suitable for apartment with 5+BHK

This Gold Kit Includes:

INTRUSION ALARM PRODUCTS:

- 1+ Wireless Intrusion Control panel
- 4+ Wireless PIR Motion Sensor
- 8+ Wireless Door Sensor
- 1+ Standalone SMART SENSOR
- 1+ Standalone Gas Leak Detectors
- 2+ Hooter (Siren)

VIDEO DOOR PHONE PRODUCTS:

Analogue Video Door Phone with

- 2+ Outdoor Camera
- 3+ 7" TFT Monitor

@ INR 83,780

VILLA Lite

This VILLA Lite is Suitable for Independent house with 3+BHK VILLA

This Lite Kit Includes:

INTRUSION ALARM PRODUCTS:

- 1+ Intrusion Control panel
- 2+ PIR Motion Sensor
- 3+ Door Sensor (Contact)
- 1+ Gas Leak Detectors
- 1+ Hooter (Siren)
- 2+ Glass Break Detector

VIDEO DOOR PHONE PRODUCTS:

• 1+ Outdoor Camera

• 1+ 7" TFT Monitor

@ INR 37,844

VILLA PREMIUM

This VILLA Premium is Suitable for Independent house with 5+BHK VILLA

This Premium Kit Includes:

INTRUSION ALARM PRODUCTS:

- 1+ SECURITY & AUTOMATION IoT HUB
- 1+ REMOTE KEY PAD
- 3+ PIR Motion Sensor
- 1+ Hooter (Siren)
- 5+ Magnetic Sensor-Contact
- 1+ Temperature Sensor
- 1+ GAS Leak Detectors
- 1+ Beam 40 Meter
- 3+ Glass Break Sensor
- 1+ Stand Alone Lock Sensor

VIDEO DOOR PHONE PRODUCTS:

• 1+ Outdoor Camera

• 2+ 7" TFT Monitor

@ INR 1,03,434

VILLA GOLD

This VILLA Gold is Suitable for Independent house with 7+BHK VILLA

This Gold Kit Includes:

INTRUSION ALARM PRODUCTS:

- 1+ SECURITY & AUTOMATION IoT HUB
- 2+ REMOTE KEY PAD
- 4+ PIR Motion Sensor
- 2+ Hooter (Siren)
- 7+ Magnetic Sensor-Contact
- 2+ Temperature Sensor
- 2+ GAS Leak Detectors
- 2+ Beam 40 Meter
- 5+ Glass Break Sensor
- 2+ Stand Alone Lock Sensor

VIDEO DOOR PHONE PRODUCTS:

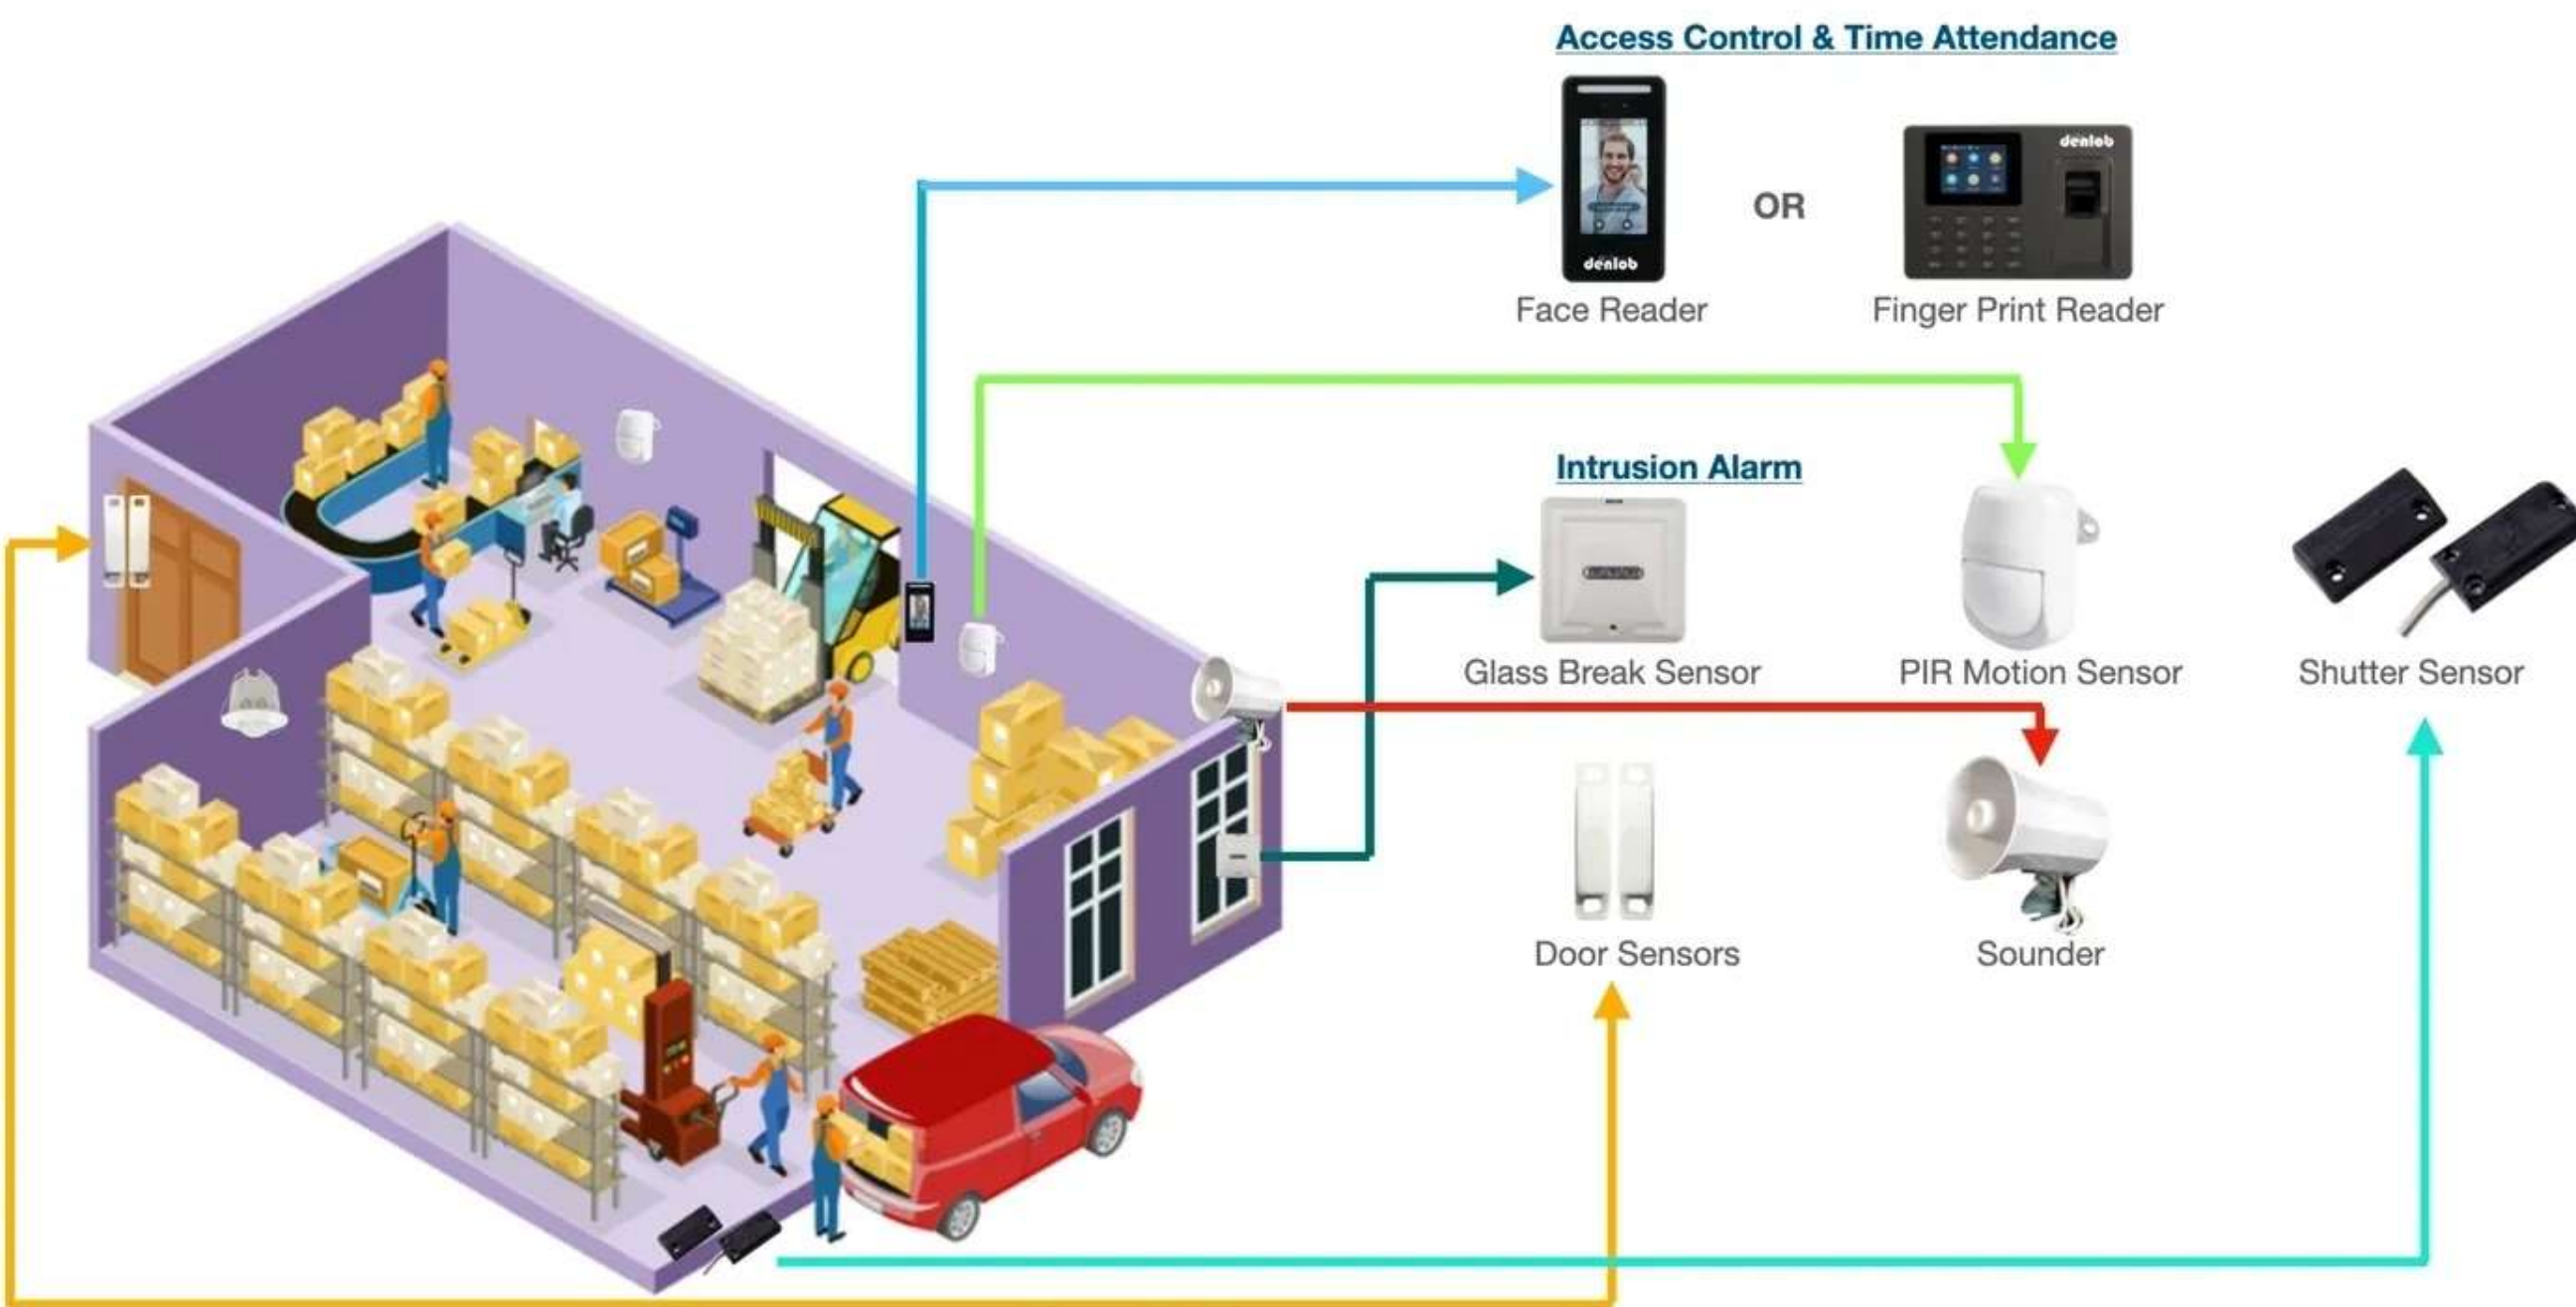

• 2+ Outdoor Camera

• 3+ 7" TFT Monitor

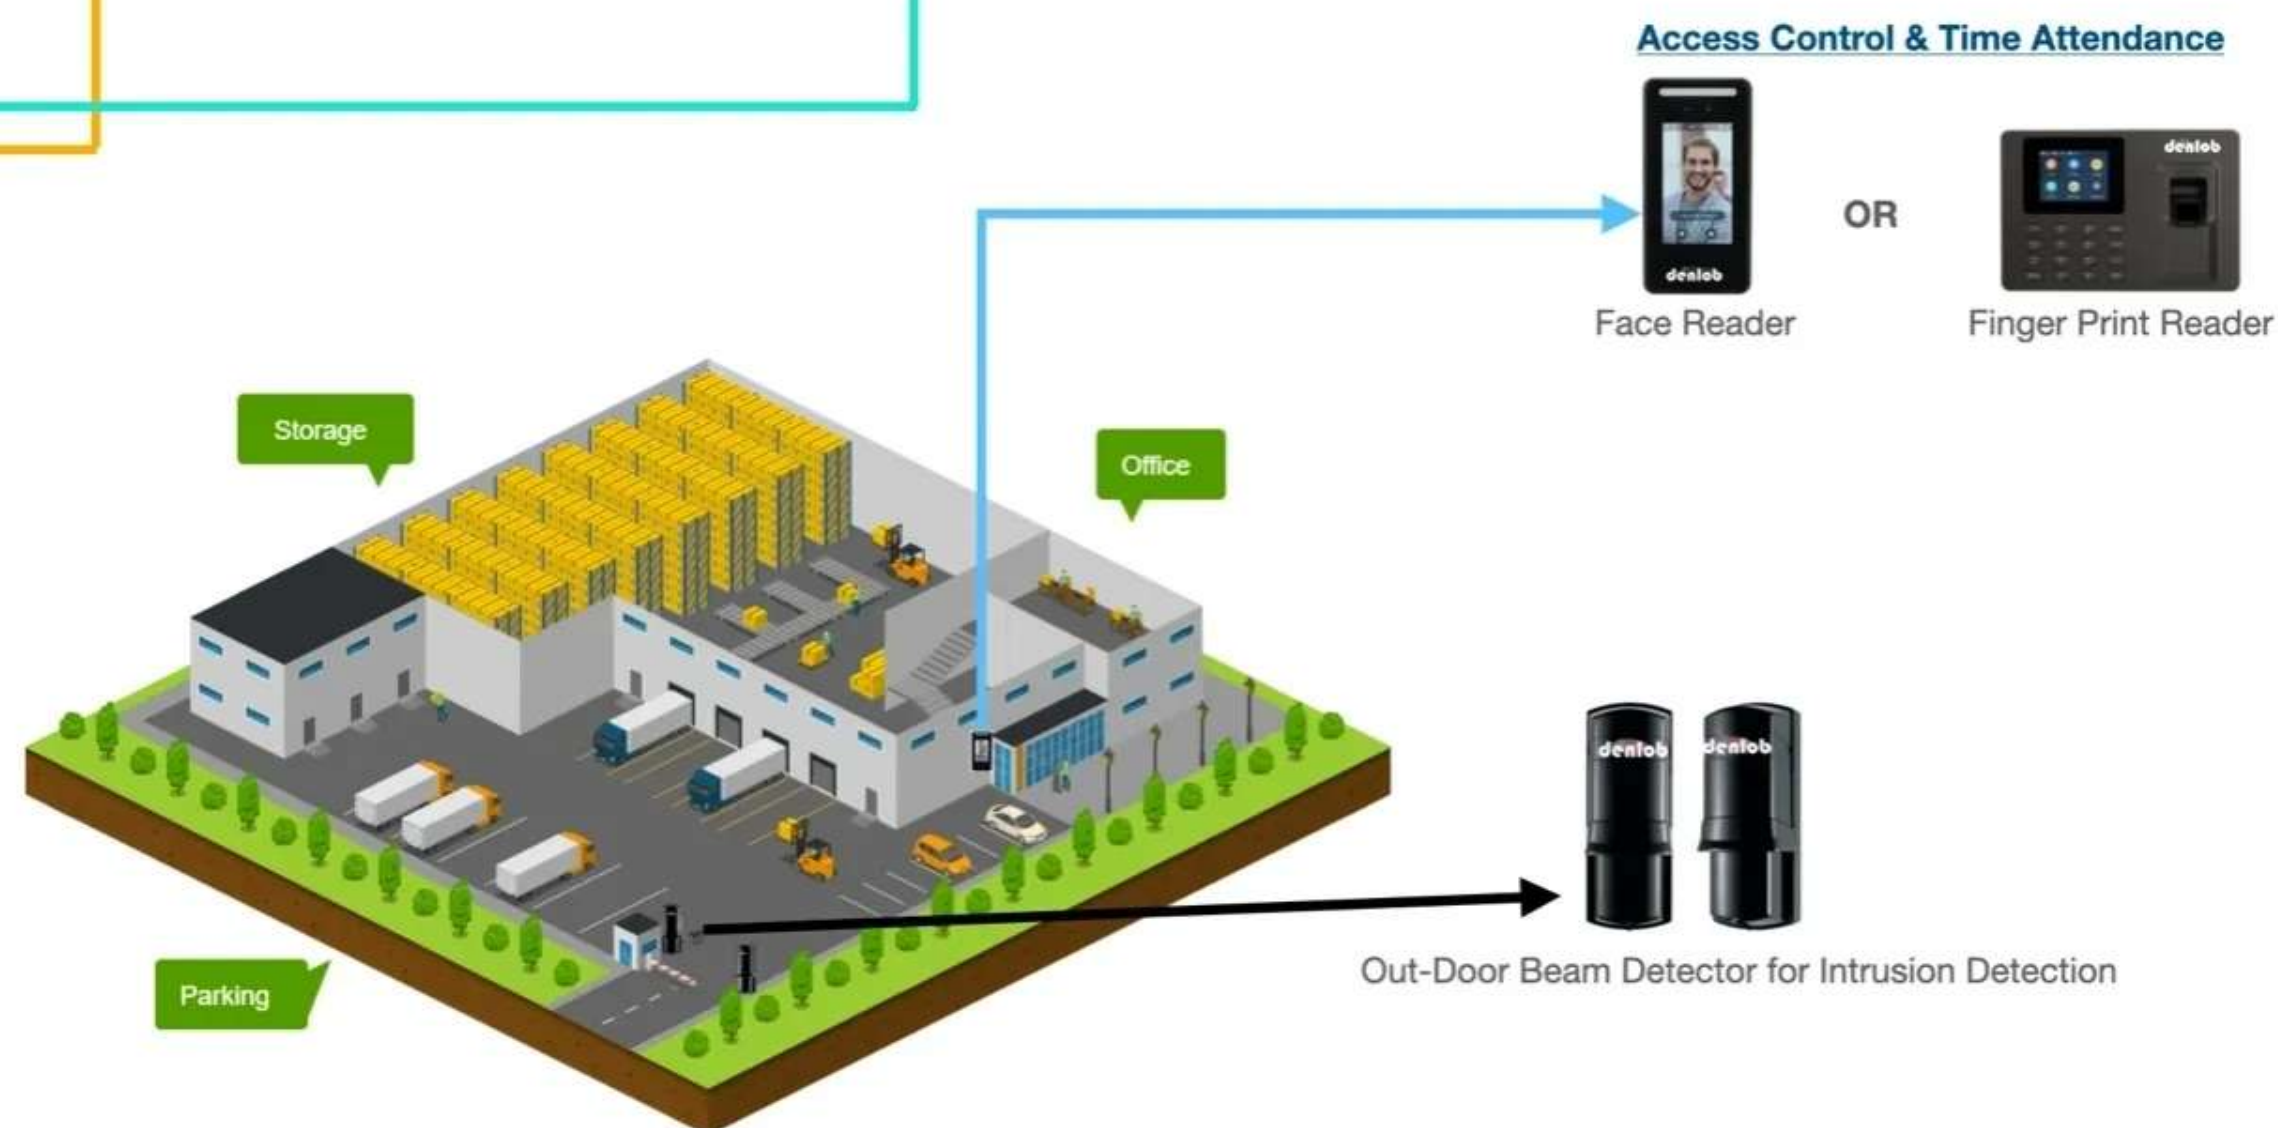

@ INR 1,53,248

WAREHOUSE SECURITY KITS

Indoor Security Solutions for Warehouse & Godowns from DENLOB

Outdoor Security Solutions for Warehouse & Godowns from DENLOB

STARTER KIT

This Starter Kit is Suitable for warehouse which holds 5000+ Square feet of Carpet Area.

This Starter Kit Includes:

ACCESS CONTROL PRODUCTS:

- ✓ 1+ Face + Card + PIN Entry Terminal
- ✓ 1+ Card Reader for Exit Terminal
- ✓ 20+ Proximity Cards

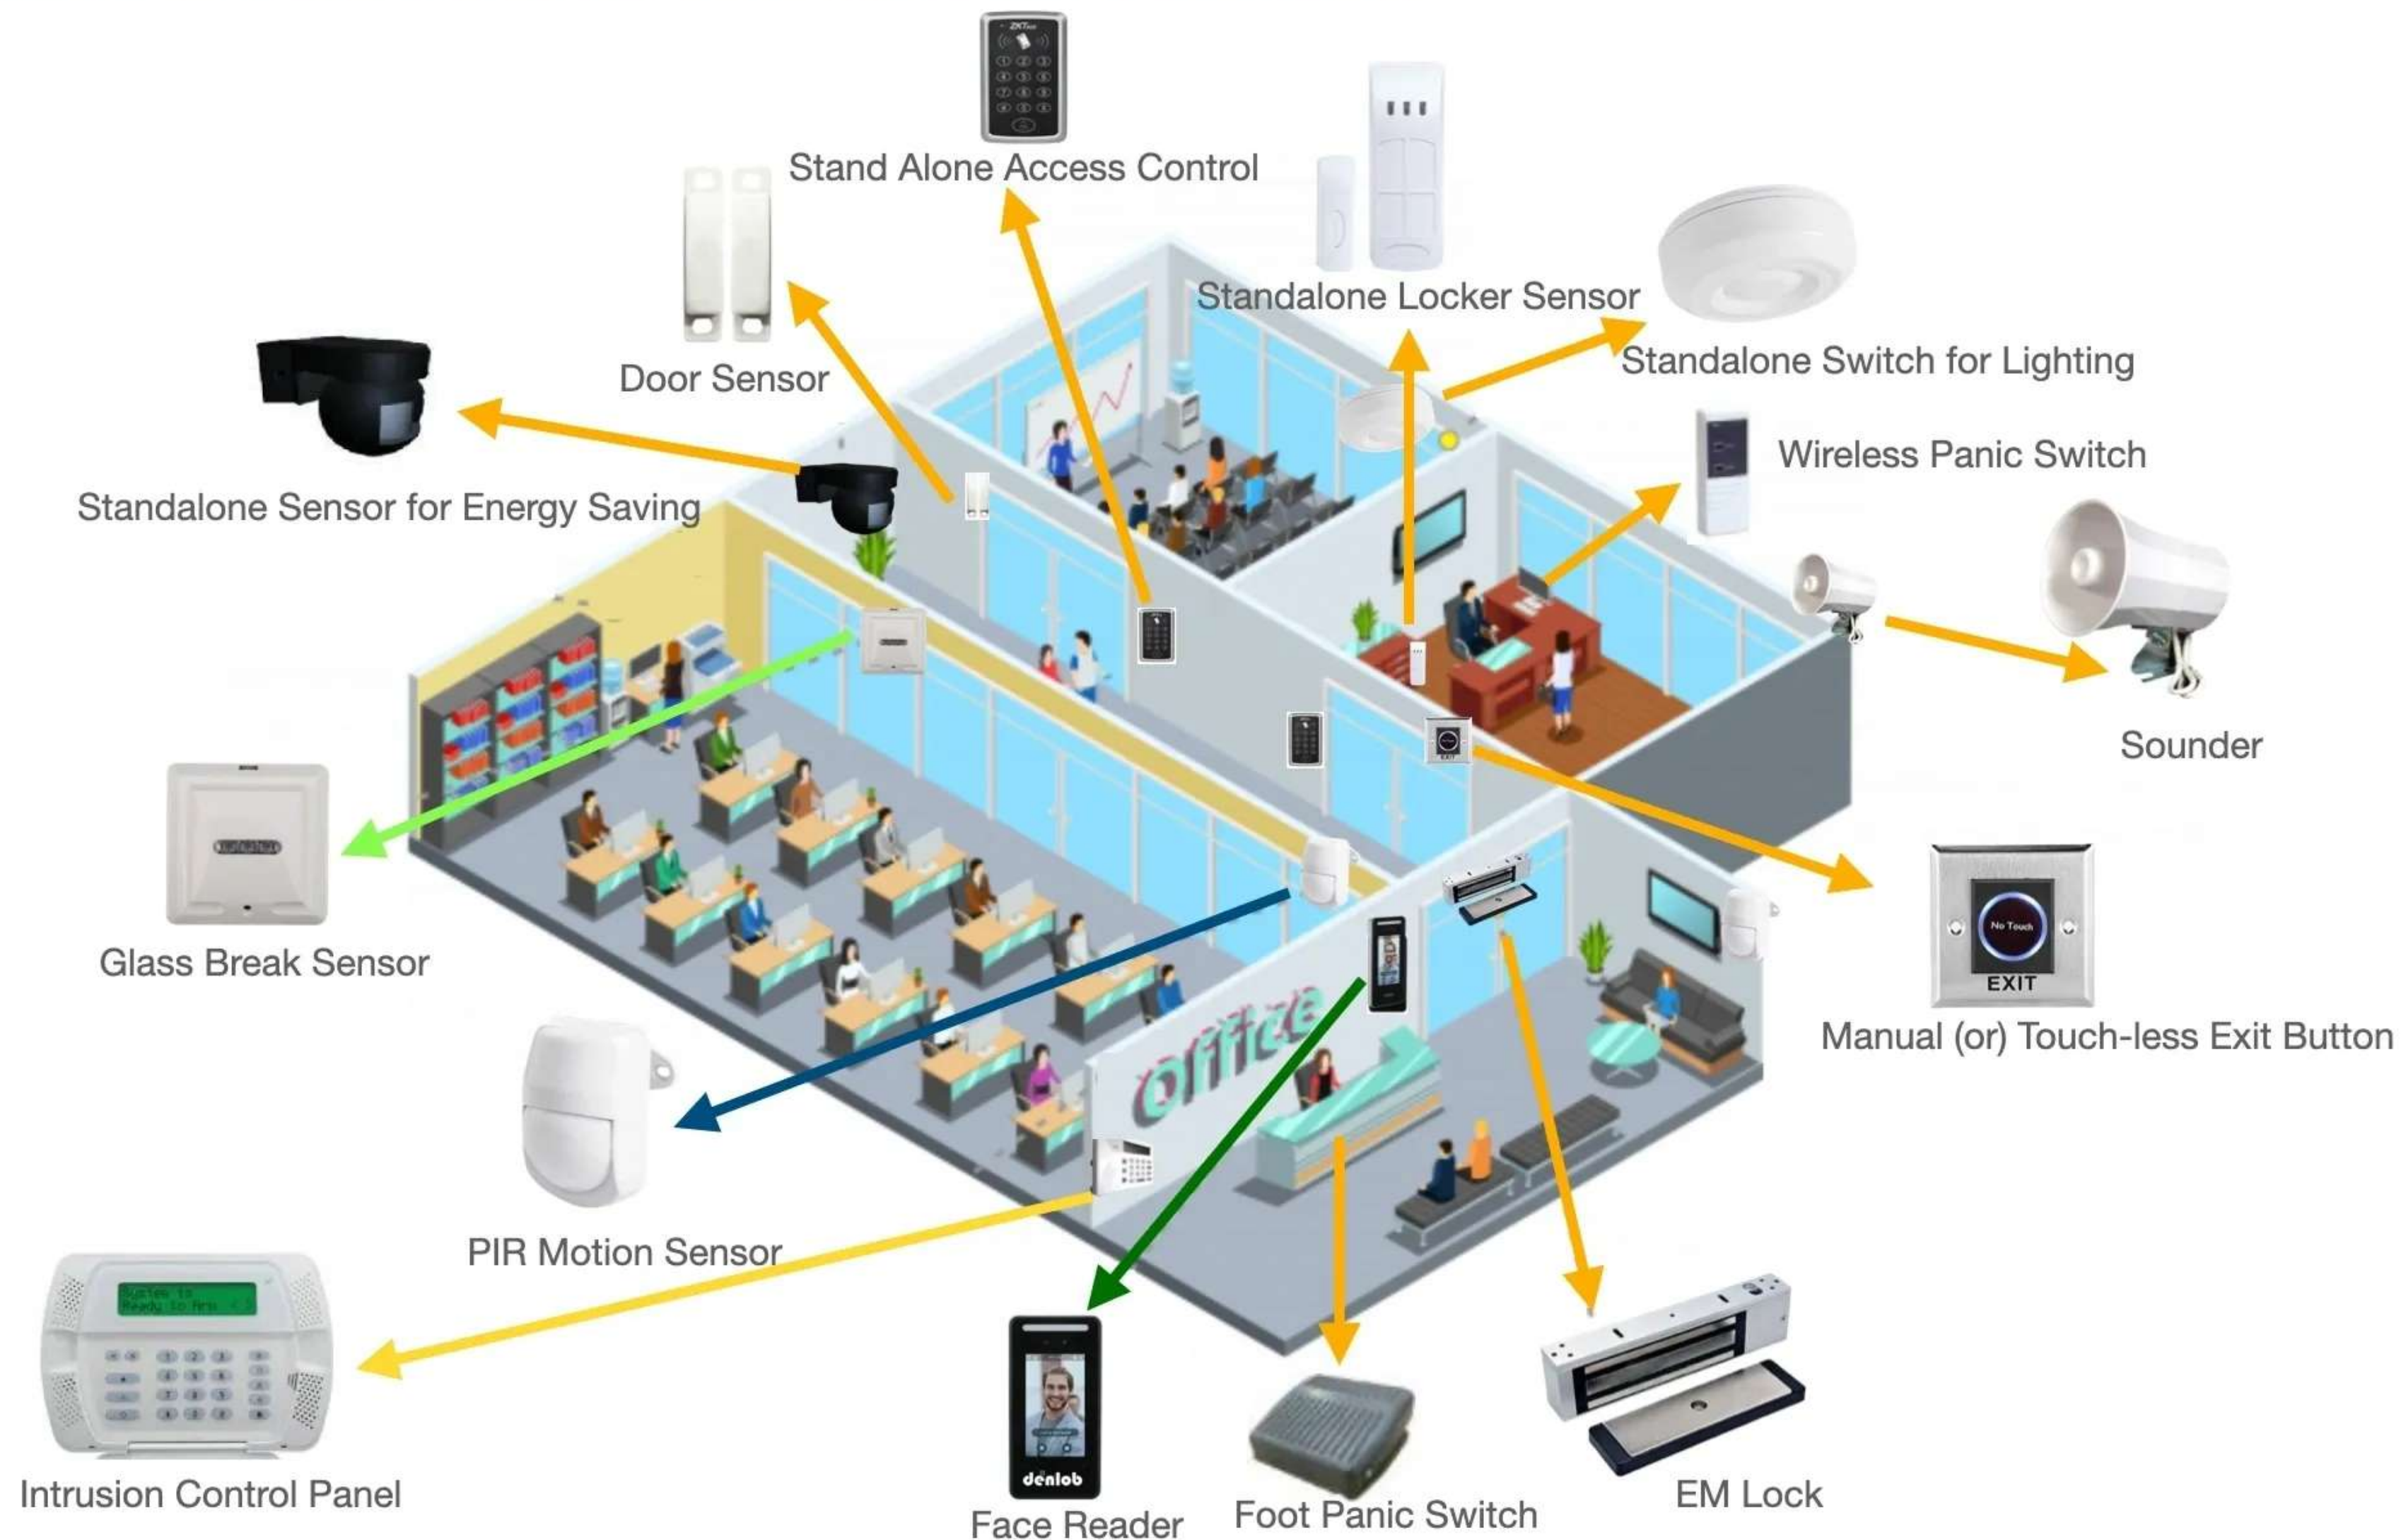

INTRUSION ALARM PRODUCTS:

- ✓ 1+ Intrusion Control panel
- ✓ 3+ PIR Motion Sensor
- ✓ 2+ Door Sensor
- ✓ 2+ Shutter Sensor
- ✓ 1+ Hooter (Siren)

INR **37,486/-**
~~INR 78,950~~

CORPORATE SECURITY KIT

Corporate Offices Security Solutions from DENLOB

OFFICE KIT

This Office Kit Includes:

ACCESS CONTROL PRODUCTS:

- 1+ Face + Card + PIN Entry Terminal
- 1+ Card Reader for Exit Terminal
- 30+ Proximity Cards
- 1+ Single Door Access Control
- 1+ Exit Button

INTRUSION ALARM PRODUCTS:

- 1+ Intrusion Control panel
- 3+ PIR Motion Sensor
- 2+ Door Sensor
- 2+ Shutter Sensor
- 1+ Hooter (Siren)
- 1+ Foot Panic Button
- 2+ Glass Break Sensor

Smart Home

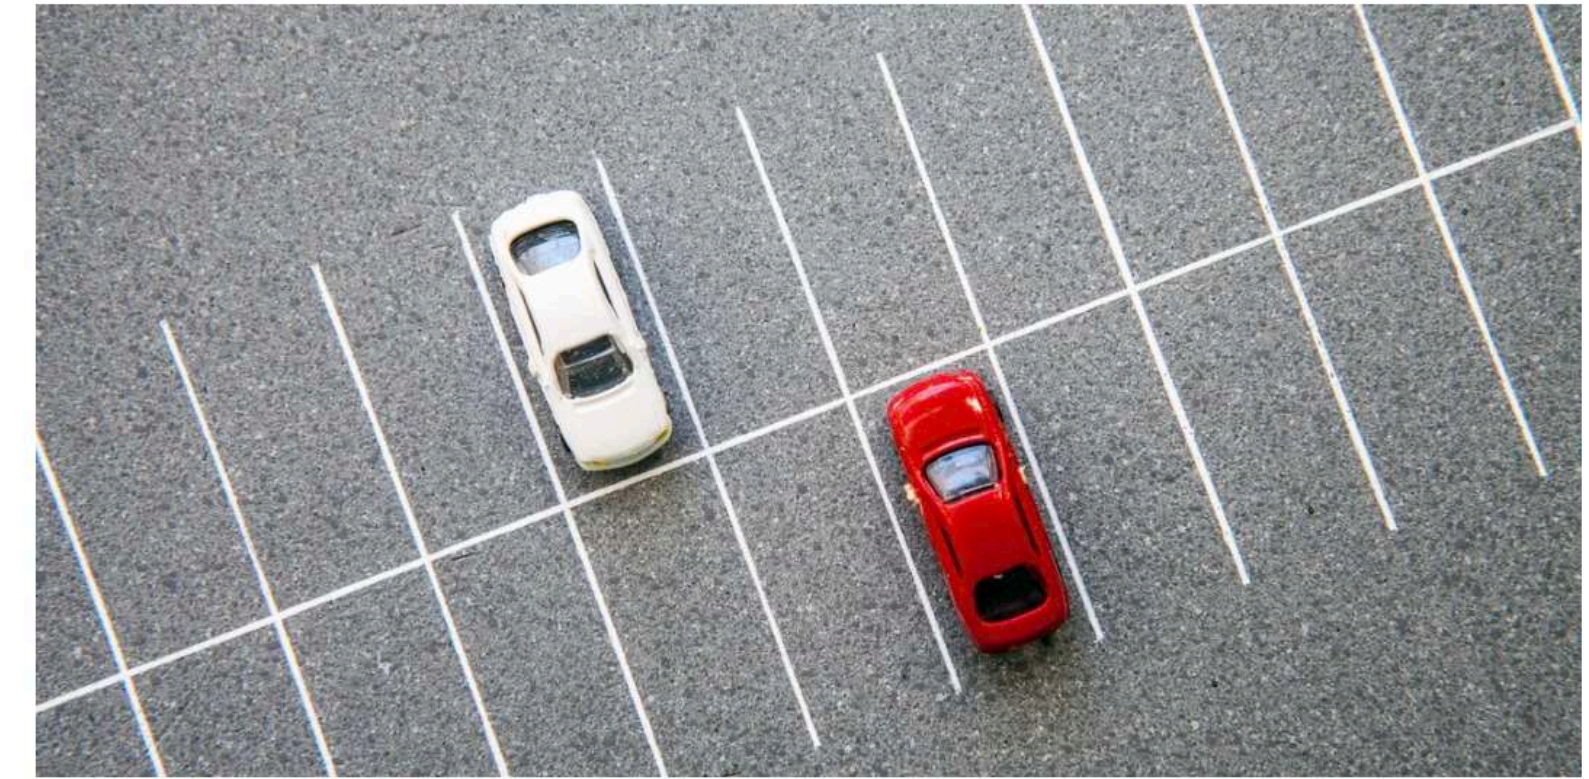

At A's Smart Home Solutions we collectively work with the best installers and brands to change & elevate your space to the next level.
A's Smart Design Integrated Home

Building Monitoring

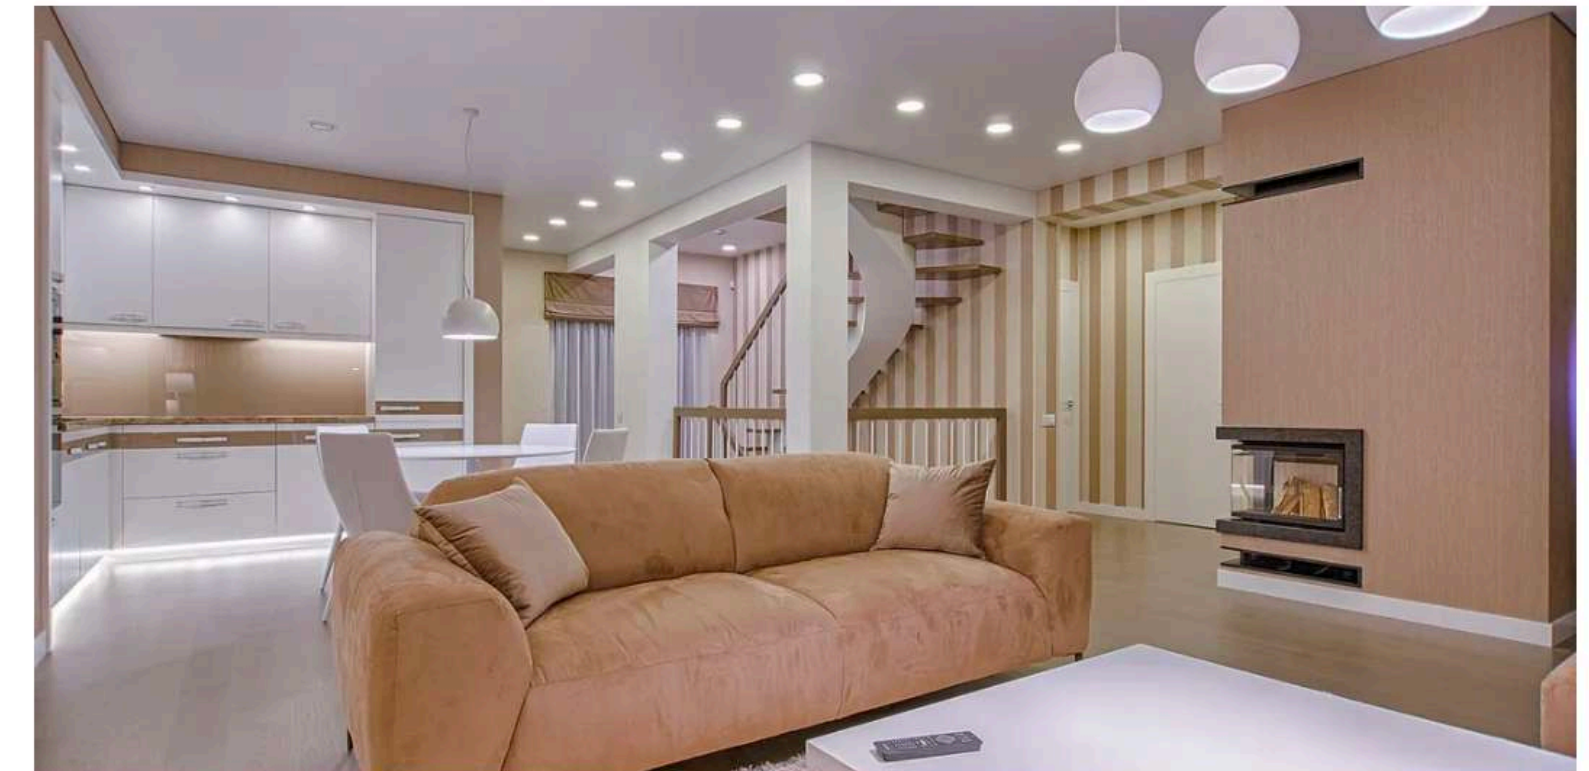

Denlob Energy and BMS Modules can be linked dynamically to any existing integration you have for security and fire control room equipment, as a single operating and reporting platform with just one database. Key features include :-

Smart Parking

When it comes to professional parking management, parking facility operators from North to South rely on DENLOBS's expertise. Because denlob guarantees profit-yielding parking facility management with its high-quality and long-lasting barriers and POS.

Lighting Automation

Smart lighting adds elegance, ambiance, convenience and energy efficiency to your home. Make your house appear occupied while you are away. Raise or dim any light in the room or the entire house with a single touch or using just your voice.

Access Control

A comprehensive Access Control solution that provides information and authority to help run businesses more efficiently can be as important to a bottom line as it is to security.

Integrating state-of-the-art video elements, denlob designs, installs, maintains and upgrades standalone systems, networked enterprise-wide systems or hosted systems to offer a complete of articulated integrated Access Control solutions.

Intercom Solutions

This includes the networking of visual and audible information. Commend has developed a digital system platform that meets the highest security and communication requirements – with a uniform operating interface, interactive, modular and adaptive.

For this reason, we continue each day to develop and work on iintercom solutions which are better and simpler but which at the same time open up new possibilities. Solutions which not only serve their purpose, but which also provide a feel-good factor. The feeling of security and trust.

Fire Safety

As the leading provider of Fire safety solutions, we are experts in local and international fire code standards. Our remote fire alarm diagnostics help customers better manage employee safety, and protect data and assets.

Denlob provides critical Fire safety solutions for a wide range of customers including local rail networks, national banks and financial institutions, universities and public school facilities, government organizations, hospitals and healthcare facilities, mining operations, malls and stadiums and more.

Video Surveillance

Denlob offers a wide portfolio of IP-based products and solutions for security and video surveillance. Our security cameras, video encoders, accessories and access control products are based on open industry standards.

Intelligent Video surveillance system what we call it, our surveillance system depends on each vertical requirement, We consider all the possible threats and safety measures before we arrive a solutions.

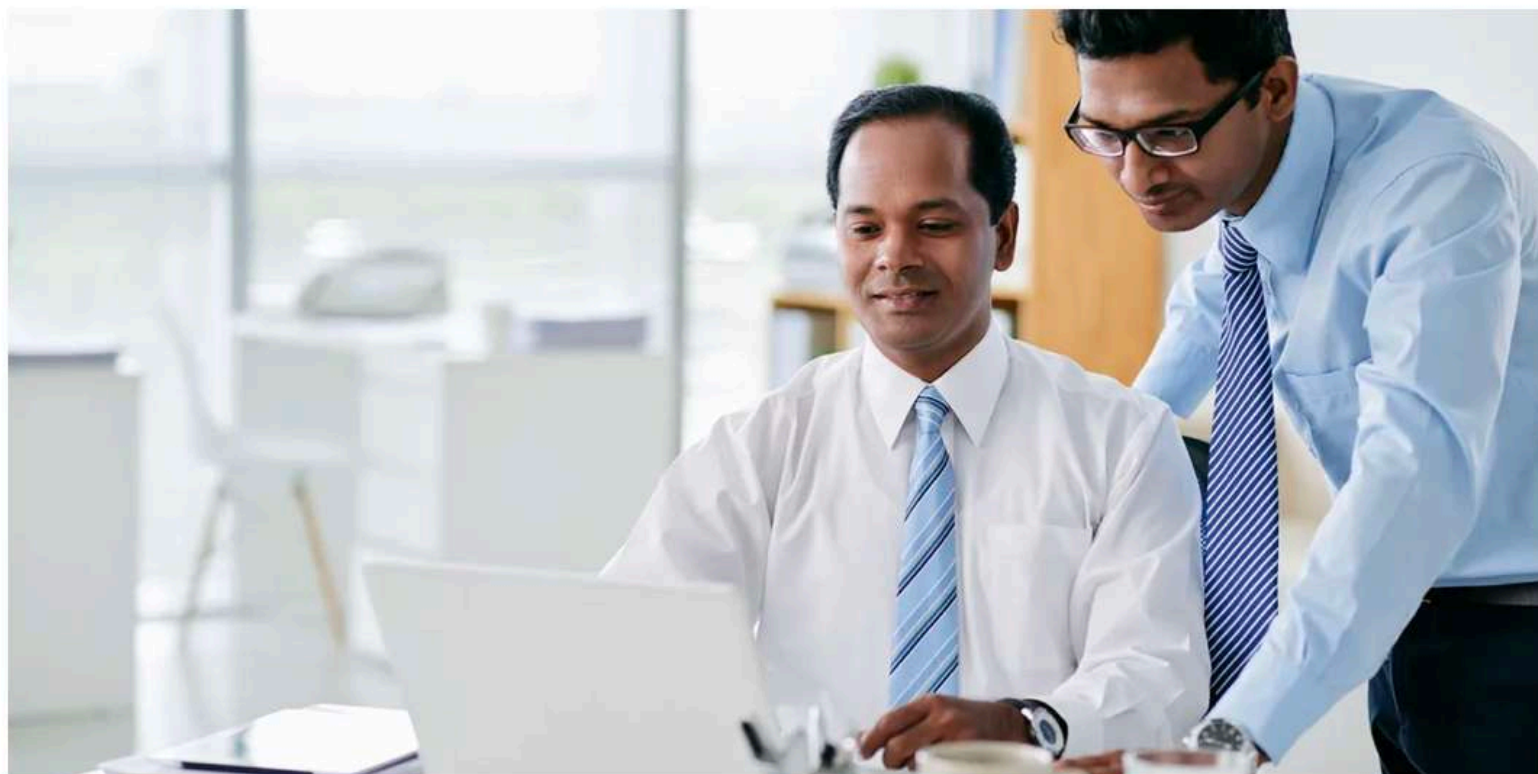

CONNECTED PRODUCTS

Enable products to do more than their primary functions, by providing access to real-time, accurate, ambient data and data about product's performance/ health.

CONNECTED OPERATIONS

Enable enterprises to smoothen its business/ industrial operational flow, minimize wastage, total cost of ownership, and make its operations lean.

CONNECTED USERS

Aligning IoT solutions with the real-time flow of user information, so that companies can offer new types of services based on innovative revenue models.

CONNECTED SECURITY SYSTEM

Enabling IoT applications in specified environments, organizations can significantly optimize costs and other metrics involved in running those premises.

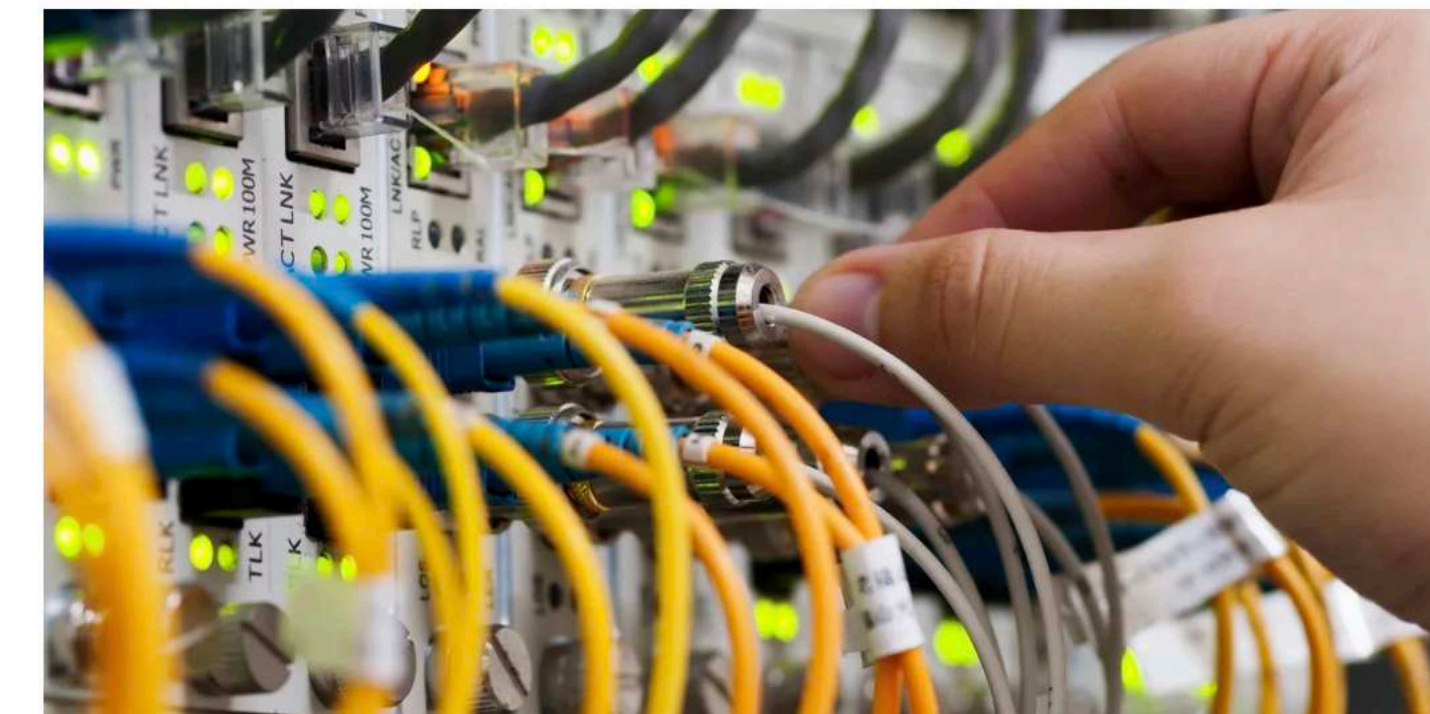

IT Infrastructure

We provide managed IT solutions to the businesses, which help them focus more on their core business instead of encountering day-to-day technology operations and management issues. Microsoft Azure, AWS, Google Cloud are few of our renowned technology partners, which aids us in providing effective infrastructure services on cloud to our associated enterprises

Wireless Connectivity

DENLOB's Exclusive Solutions combining data voice, firewall, routers, vpn, voice recording, NVR for IP cameras, all in one box with wireless access technology to extend the functionality and reach of existing IP networks and legacy technology. It's all part of how we deliver the promise of "Intelligence in the way we communicate".

Structured Cabling Solutions

One of the most important infrastructure investments for any business is a reliable and well-designed network cabling system. A good network cabling system is the foundation upon which all other network components are built. It is the nervous system of your business, connecting all the computers, phones, and other devices in your office. An well-designed network cabling system will save you time and money in the long run.

Network Gateway

Gateway links an organization's existing infrastructure to the new age communication networks ensuring right connectivity and least cost for each call. The gateway is an ideal solution for workplaces such as call centers, ISP, ITSP, wholesale terminators and organizations experiencing high call traffic on per day basis.

Secure Identity

There are a myriad of applications in which picture ID cards can provide security and convenience. And the functionality of these cards is evolving thanks to exciting technological advances.

Canteen Management

Canteen Management System is designed to create transparency between the employee, company and vendor. It reduces the worry of unauthorized usage whereas software helps to automate the complete process.

Queue Management

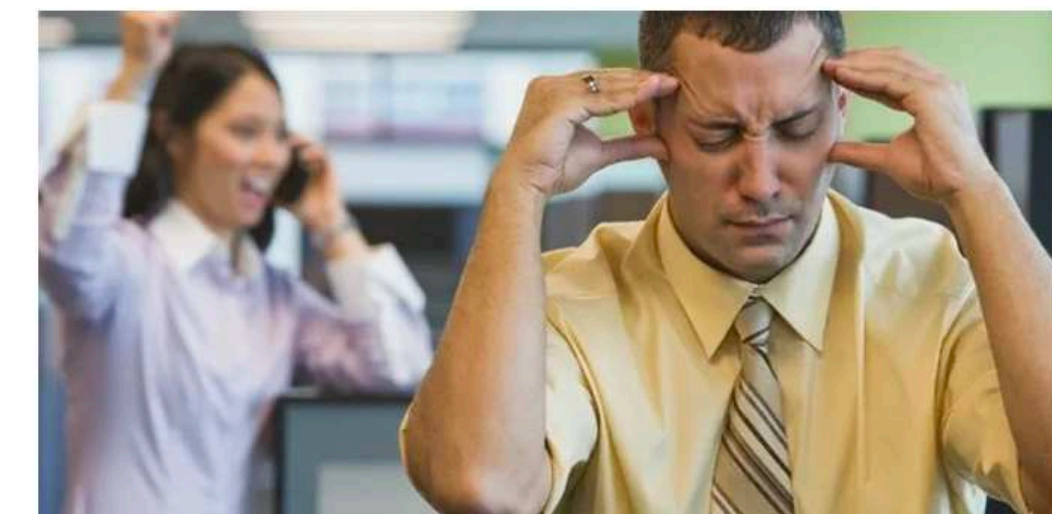

Denlob provides standard, and customized queuing solutions to cater to diverse queuing problems faced by organizations. Choose from Enterprise, Basic or Mobile Queuing systems to manage crowds and queues.

Visitor Management

Enterprises now-a-days have become more conscious of people mobility management as they are prone to threats and are concerned about the productivity of the employees. In addition, these tech-savvy companies have many visitors in a day.

Noise Monitoring System

Denlob's noise monitoring network enables the autonomous monitoring of noise levels in the city 24 hours a day, Based on sensor measurement, real-time information is provided on the monitored areas and alerts generated. When limits exceeds..

Tripod Turnstile

Recently, speed gates became rather demanded type of security gates. At DENLOB we call these series as Freeway. The range includes Swining gates, Sliding gates, and Optical gates. Due to its trendy appearance and wide functional capability, Freeway turnstiles are suitable for large variety of sites, including offices, banks, administrative facilities etc.. Elegant design, stainless steel housing in combination with availability of glass, stone, and wood surfaces make these half h turnstiles very stylish.

Metal Doors

A metal detector is an electronic instrument that detects the presence of metal. Metal detectors are useful for finding metal hidden within objects, or metal objects buried underground. A Door Frame Metal Detector (DFMD) as the name suggests is a metal detector fitted in a door to detect metal that may be hidden on the body of the person passing through this door. This is also known as a "walk-through" metal detector. These are used for security screening at access points in prisons, courthouses, and at airports to detect concealed metal weapons on a person's body.

Flap Barrier

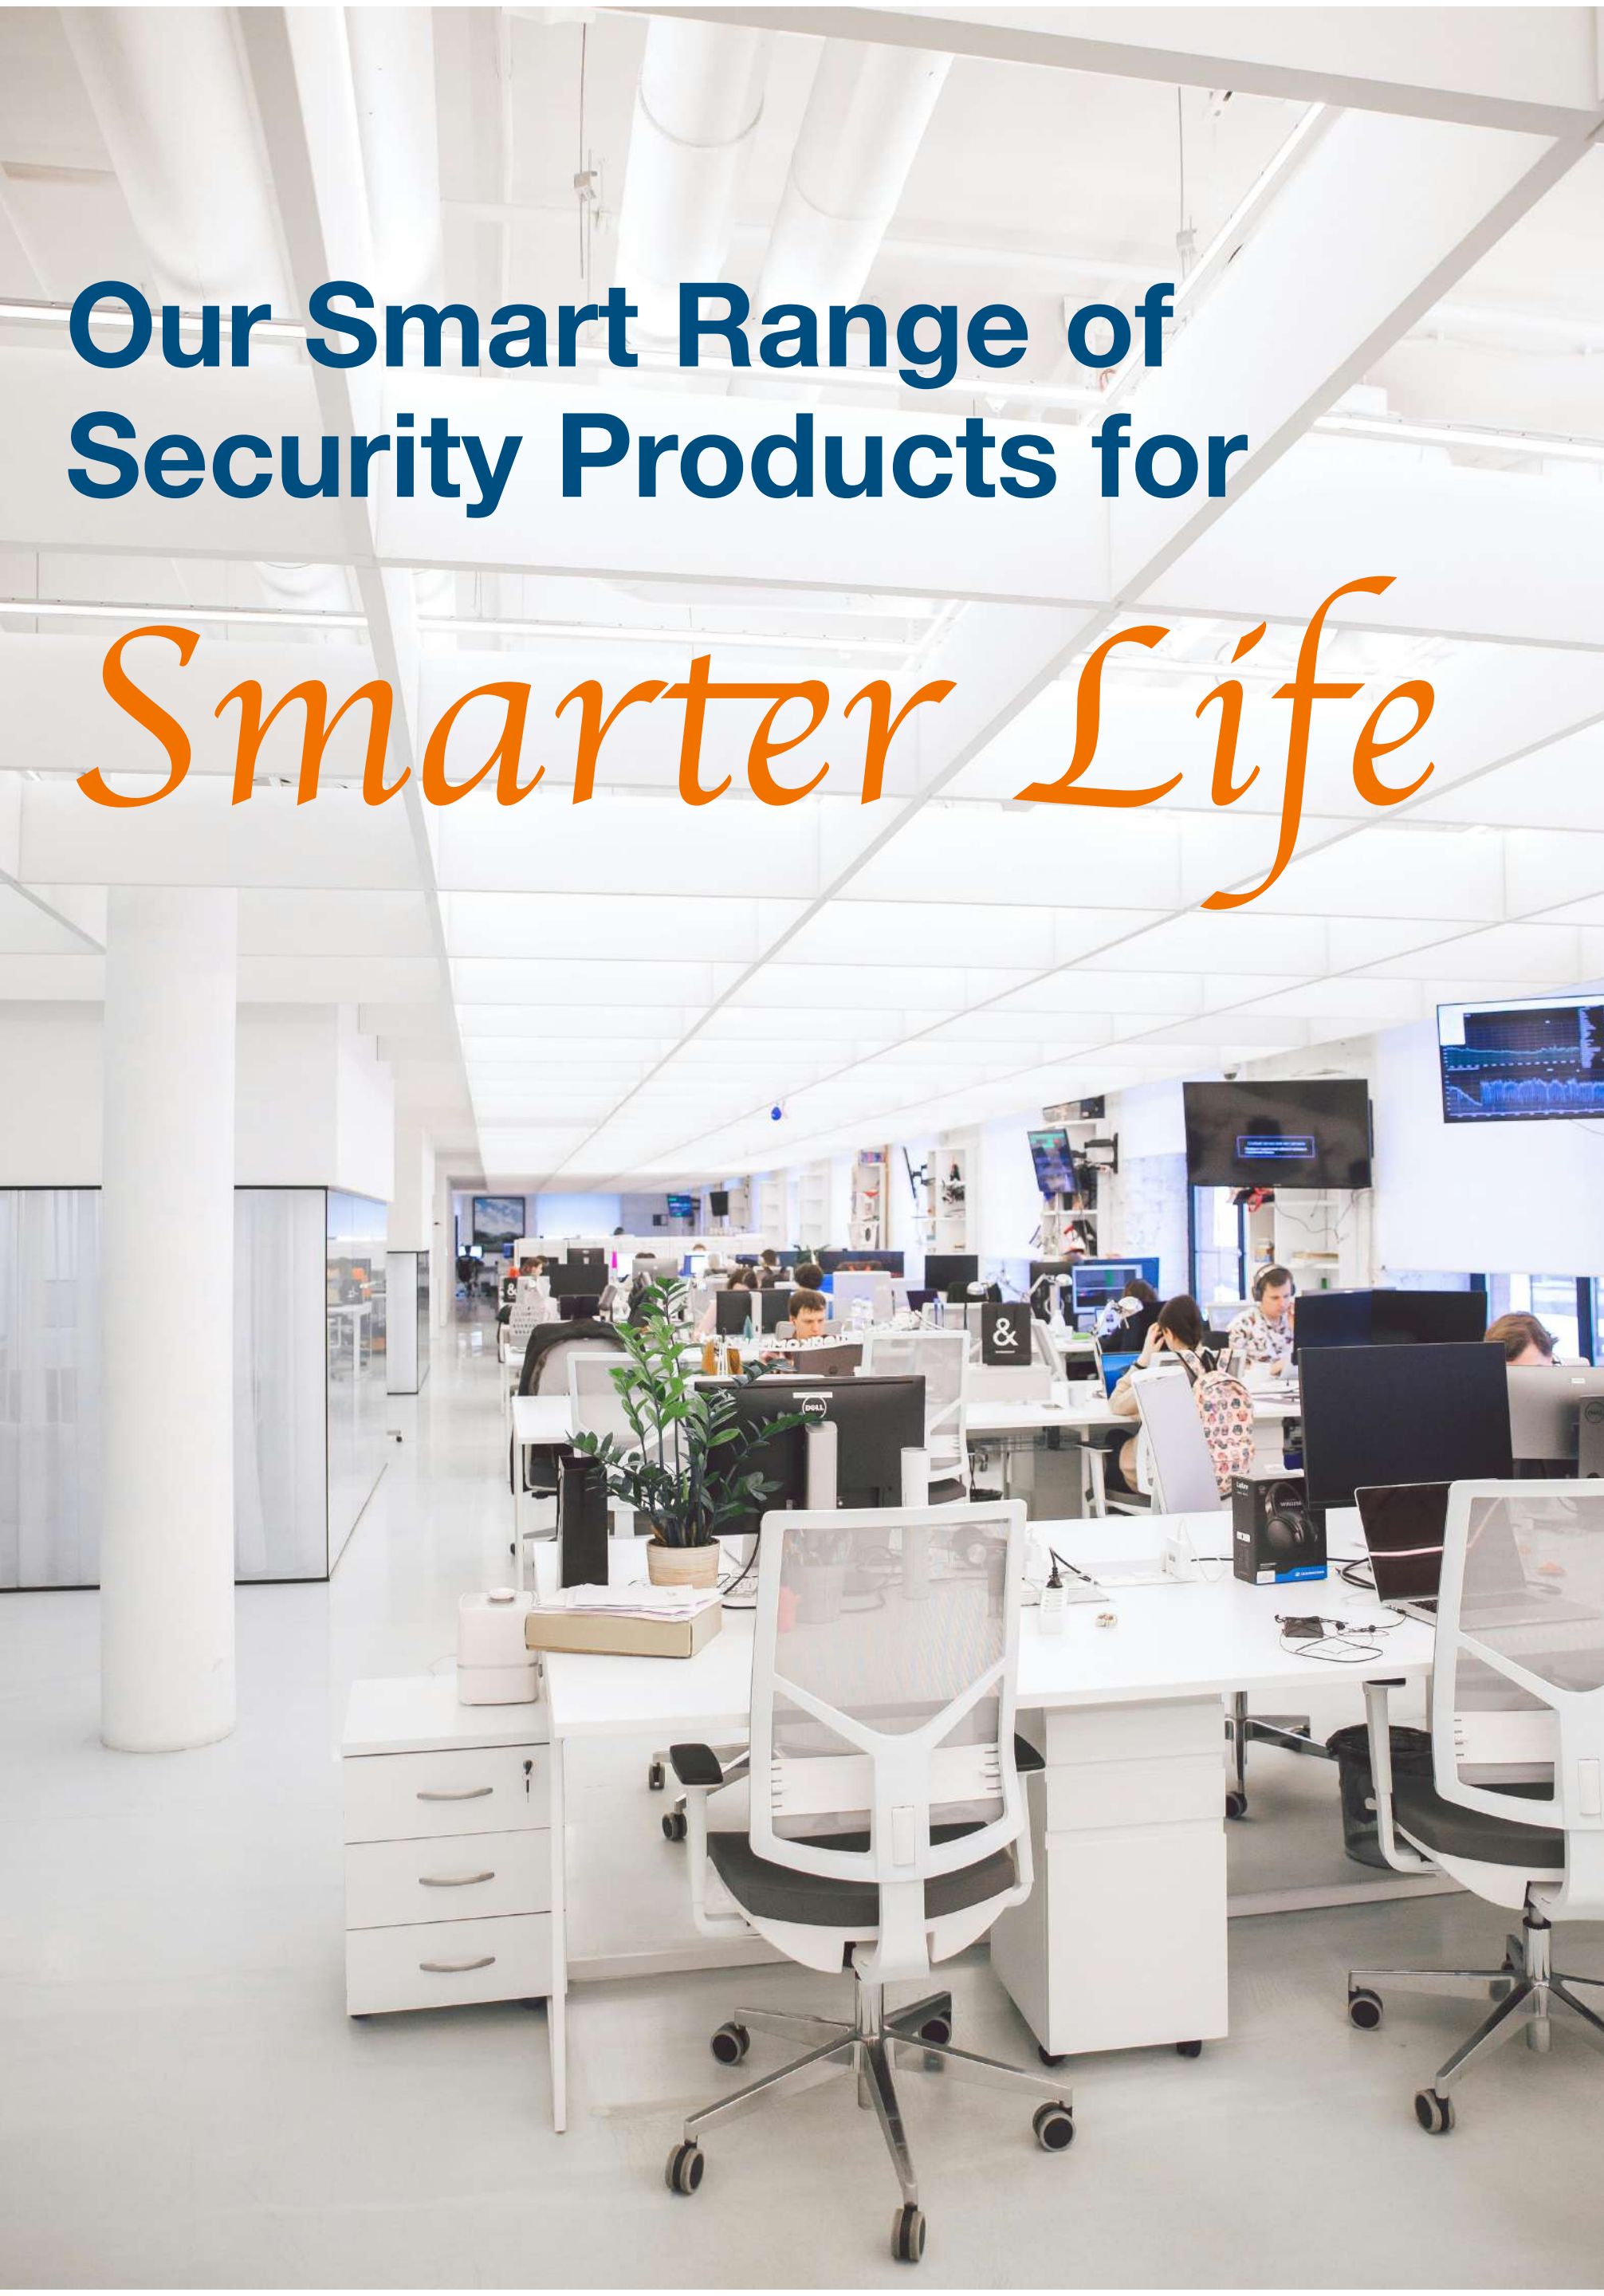

Combining cutting-edge technology and sleek design, these security turnstiles offer unparalleled performance, reliability, and aesthetics, making them ideal for a wide range of applications. With three cabinet designs - **Sculpt, Edge, and Contour** - you can choose from different sizes, materials, and finishes to create a security solution that is one of a kind.

Boom Barrier

Features of the boom barrier gate include an inbuilt anti-crush safety device, which suspends the motion of the boom, should it meet any obstruction. Optional beam sensor provides further protection to vehicles. Auto-close of the boom barrier can be programmed through the controller.
