

Wyoming Registered Nurse Report

2015

This report is a joint effort between the Wyoming State Board of Nursing and the Wyoming Center for Nursing and Health Care Partnerships.

This is a snapshot of the registered nurse population in Wyoming. The information comes from the nurse licensure data collected by the Wyoming State Board of Nursing in 2015.

Figure 1. RNs: Primary Employer

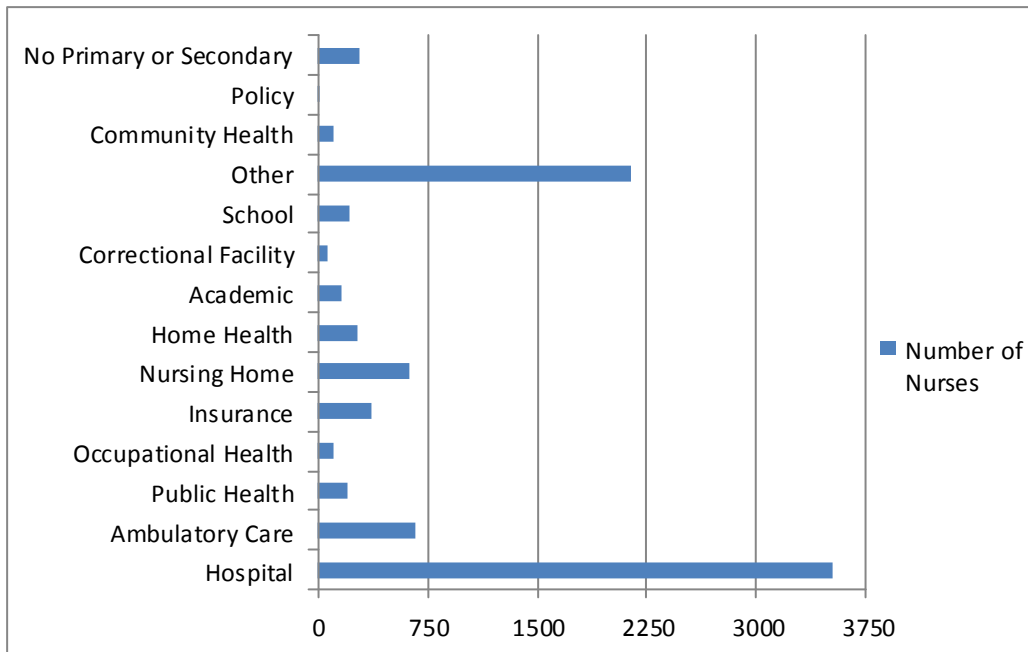

Figure 1:

The majority of RNs work in a hospital setting.

The second highest category is "other" which is not defined in this survey.

Figure 2. RNs: Highest Degree Earned

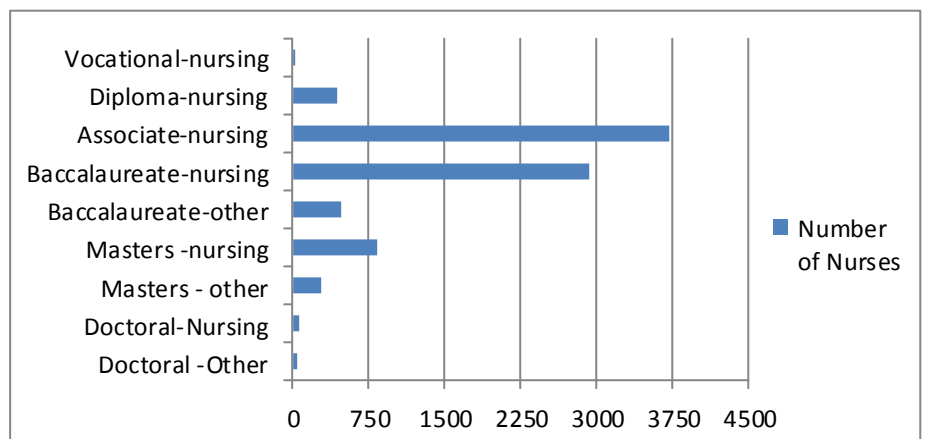

Figure 2:

The largest number of RNs in Wyoming have an associate degree in nursing as their highest degree earned. Forty-Two percent of RNs have an associate degree.

Figure 3. RNs: Primary Position Employed

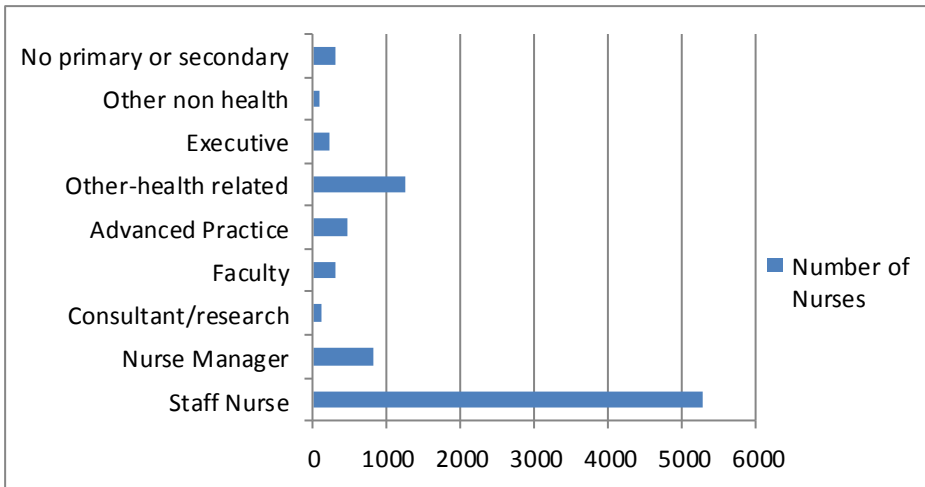

Figure 3:
Most RNs are employed as staff nurses.

Figure 4. RNs: Age

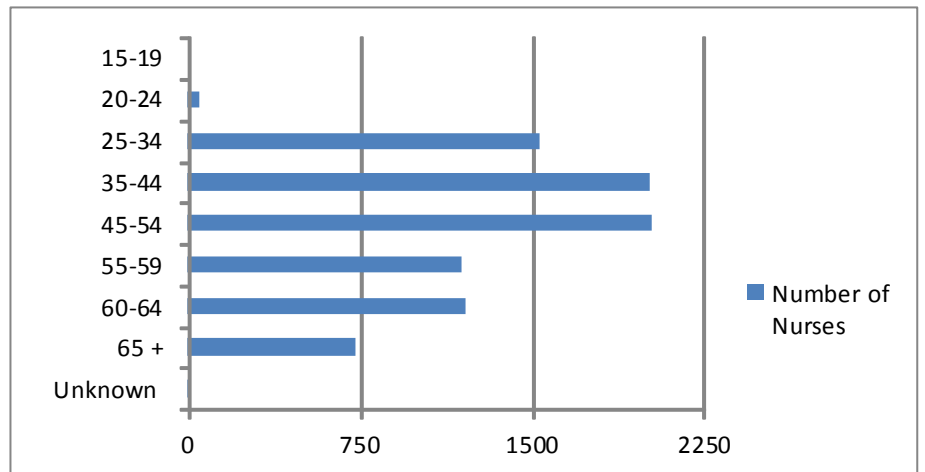

Figure 4:
The majority of RNs are between the age of 35 and 54 years of age.

Figure 5. RNs: Gender

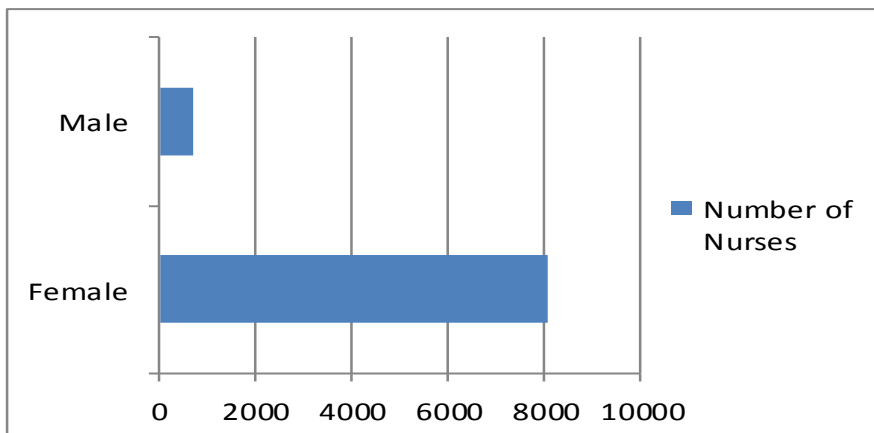

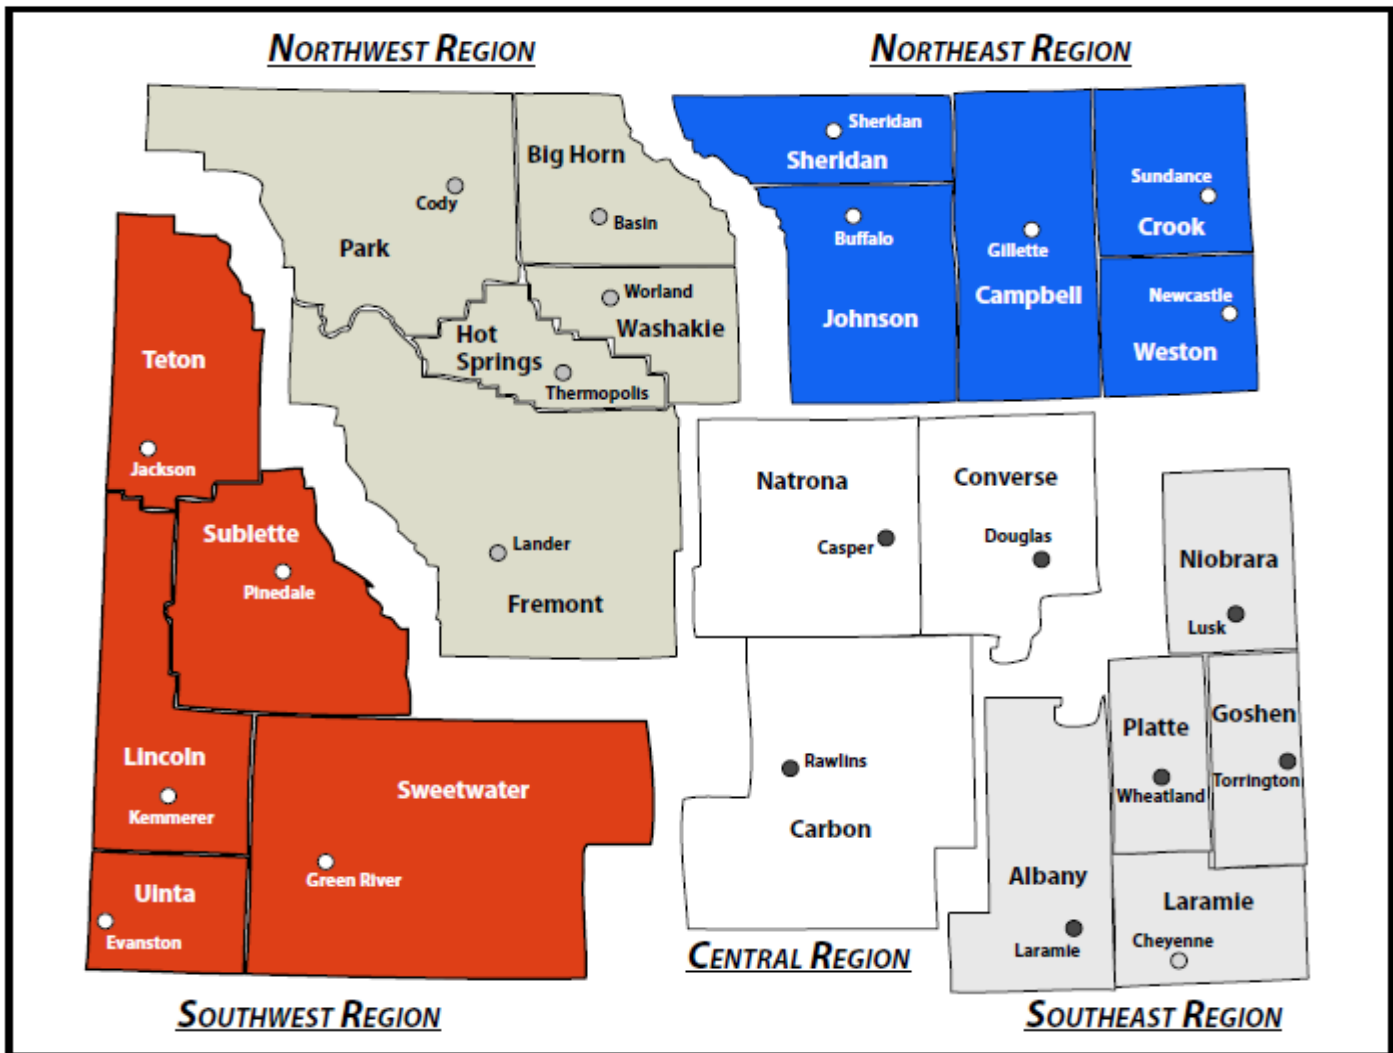

Figure 5:
Over 90% of Wyoming RNs are female.

Table 1. RNs: Current Employer Region

Northwest	891
Southwest	786
Central	1156
Northeast	877
Southeast	1560
Out of State	2746
No Response	747
