

## Toys and Activities for PCIT with Older Children: A Checklist

If you are having trouble deciding whether or not a toy or activity would be appropriate for Special Time with an older child, ask yourself the following questions:

(1) Does it promote violent or rough play?

(2) Does it promote competition?

(3) Does it lend itself to caregiver-child interaction?

(4) Does it lend itself to caregiver practicing the PRIDE skills?

**If your answers matched the responses above, then it is likely appropriate for Special Time!**
