

4-4-2025

Brother Copeland Prophecy from Branson Victory Campaign 4-4-2025

2026: Is the year of the Big Fix. The things being fixed are in our favor and the depth of which 2026 goes will be amazing to all of the people for I am digging deeper and deeper and deeper into the swamp through My President and through the things that he has set into motion. I'm digging deeper and deeper into the swamp and by 2026 the alligators will be out of the country. The Big Fix.

2027 will be days like of Heaven

2028 Right at Heavens gate

What about 2029; things will begin to slip behind.

The Devil thinks he has a pistol at the head of the president.

I'll have you know Mr. Devil that your plan is going to backfire. And it will backfire right into your face. And everything you try to do to stop him I'll see that he goes further. Every time you try to stop him one way I'll cause you to flee 7.

The Midterms: (praying in tongues). We will have the Red wave that we did not have before. The midterms this country is going to be like it was at the election. This whole country is going to be red like my blood. I'm healing this land.
