City Horn and Air Horn

Pull air Horn, push city horn. Both working properly

Governor Cut-off

Building air to (120psi to 140psi) or governor

cut-off. If its proper range

FULL CDL CLASS A PRE-TRIP IN & OUT

Study online at https://quizlet.com/_im04ro

it is working properly.

1. SHUT OFF ENGINE,

TURN THE KEY BACK TO ON POSITION

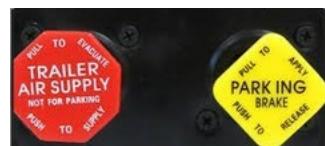

2. PRESS DOWN AND HOLD

(SERVICE) BRAKE PEDAL

3. RELEASE ALL PARKING AND TRAILER VALVES.

PUSH IN BOTH BUTTONS

AFTER YOU PUSH IN BOTH BUTTONS

WAIT FOR GAUGE TO SETTLE (APPX 4 SECONDS)

AIR LEAK TEST

NO MORE THAN 4 PSI IN 1 MINUTE

After the Air Stabilizes

time starts now.

01:00

After 1 minute stop timer.

EXPLAIN THE RESULTS

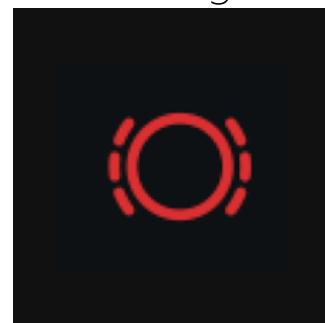

Check that vehicle did not lose more than 4psi in 1 min.

No leaks detected Working properly

AIR WARNING DEVICE (ALARM)

Without restarting the engine.

I will fan my brakes until the

Alarm comes on 55 psi or above.

Alarm came on check the gauges.

Proper range working properly.

SHOULD COME ON WHEN AIR PRESSURE DROPS

LOW AIR WARNING LIGHT

Emergency Brake Test-

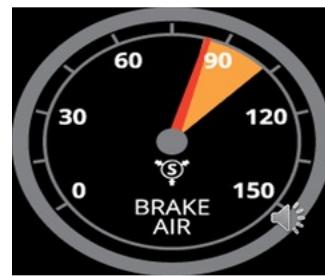

Between 20 to 45 psi both my valves should pop out.

Proper range working properly.

Parking and Trailer Brake Check Safe start vehicle and

build up air pressure to 90 psi and above

1. Tugging on Tractor Brake Release the trailer brakes "push in the red button."

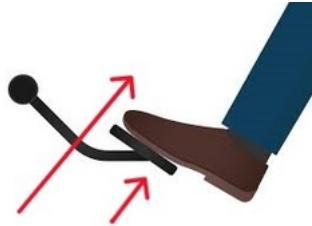

Apply tractor brakes "pull out the yellow button."

Put the truck in 1st gear.

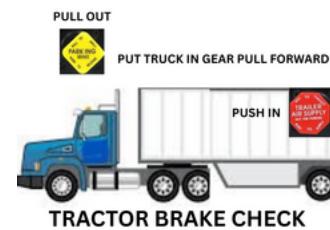

Lift your foot off the clutch slowly until it engages.

The tractor did not move

The tractor brakes are working properly

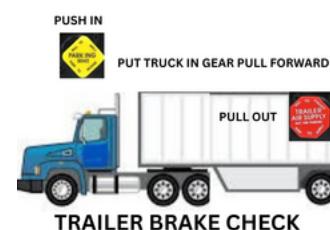

2. Tugging on Trailer Brake Apply the trailer brake

Release tractor brakes "push in the yellow button."

The trailer did not move

The trailer brakes are working properly.

I have no play in my

fifth wheel connection.

3. Service brakes Check Make sure that both Valves are pushed in

Put the truck in gear and you must drive forward and reach 5mph and

The steering wheel did not pull left or right, and the truck stopped.

Once your sure your done on the inside have

The red and yellow button

apply service brakes coming to a smooth stop

My service brakes are working properly.

Have the examiner perform an exterior light check.
