PENALTIES FOR MISCONDUCT

The **President** may impose penalties for violations of institution policies or campus regulations whether such violations are also violations of law, and whether proceedings are or have been pending in the courts involving the same acts.

If, because of an official appeal it is determined that the student was improperly disciplined, the **President** shall, if requested by the student, have the record of the hearing sealed, and have any reference to the disciplinary process removed from the student's record. In such a case, the record of the hearing may be used only in connection with legal proceedings.

Whether or not a hearing is conducted, the Institution may provide written notice to a student that his or her alleged behavior may have violated Institution policy or campus regulations and that, if repeated, such behavior will be subject to the disciplinary process. Evidence of the prior alleged behavior as detailed in the written notice may be introduced in a subsequent disciplinary action.

When a student is found in violation of institution policies or campus regulations, any of the following types of student disciplinary action may be imposed. Any sanction imposed should be appropriate to the violation, taking into consideration the context and seriousness of the violation.

1. **Warning/Censure:** Written notice or reprimand to the student that a violation of specified institution policies or campus regulations has occurred, and that continued or repeated violations of the institution policies or campus regulations may be cause for further disciplinary action, normally in the form of Disciplinary Probation, and/or Loss of Privileges and Exclusion from Activities, Suspension, or Dismissal.
2. **Disciplinary Probation:** A status imposed for a specified period during which a student must demonstrate conduct that conforms to the institution's standards of conduct. Misconduct during the probationary period or violation of any conditions of the probation may result in further disciplinary action, normally in the form of Suspension or Dismissal.
3. **Loss of Privileges and Exclusion from Activities:** Exclusion from participation in designated privileges and activities for a specified period. Violation of any conditions in the written Notice of Loss of Privileges and Exclusion from Activities, or violation of institution policies or campus regulations during the period of the sanction may be cause for further disciplinary action, normally in the form of Probation, Suspension or Dismissal.
4. **Suspension:** Termination of student status at the institution for a specified period with reinstatement thereafter certain, provided that the student has complied with all conditions imposed as part of the suspension and provided that he or she is otherwise qualified for reinstatement. Violation of the

conditions of Suspension or of institution policies or campus regulations during the period of Suspension may be cause for further disciplinary action, normally in the form of Dismissal.

5. Dismissal : Termination of student status for an indefinite period. Readmission after dismissal may be granted only under exceptional circumstances.

6. Restitution: A requirement for restitution in the form of reimbursement may be imposed for expenses incurred by the institution or other parties resulting from a violation of these policies. Such reimbursement may take the form of monetary payment or appropriate service to repair or otherwise compensate for damages. Restitution may be imposed on any student who alone, or through group or concerted activities, participates in causing the damages or costs.

7. Revocation of Awarding of Degree: Subject to the concurrence of the Institution Governing Board.

GRIEVANCE POLICY

In accordance with **CDL Ocala CVT School's** Mission statement, the school will make every attempt to resolve any student complaint that is not frivolous or without merit. Complaint procedures will be included in student orientation thereby assuring that all students know the steps to follow should they desire to register a complaint at any time. Evidence of final resolution of all complaints will be retained in school files in order to determine the frequency, nature, and patterns of complaints for the institution. The following procedure outlines the specific steps of the complaint process:

A grievance procedure is available to any student who believes an institution's decision or action has adversely affected his or her status, rights, or privileges as a student. The purpose is to provide a prompt and equitable process for resolving student grievances. Students with grievances should first communicate with the appropriate course instructor. If the instructor is unable to resolve the student's complaint, the instructor will refer it to the **Education Director** in writing. If the **Education Director** is unable to resolve the student's complaint, he will refer it to the President. The President will take steps to resolve the complaint. The Institution President's decision is final.

Informal Resolution

Students are encouraged to speak directly with their mentor or staff member most concerned with or responsible for the situation that is the cause of the complaint. If this communication does not lead to a resolution, or such a discussion is not deemed appropriate, the student may register an informal complaint or file a formal written complaint.

Informal Complaint

A student may register an informal complaint within thirty (30) days of the event that triggered the complaint. The earlier communication is made, the more likely it is to resolve the matter satisfactorily. Complaints should be made to the **President**. Informal complaints may be made in person, by telephone, or email. Appropriate institution staff will review the matter presented by the students and determine whether any action is required. The students will be notified of the Institution's response within 20 days of the informal complaint. If the student is not satisfied with the decision and/or attempts at resolution, he/she may go on to make a formal complaint.

Formal Complaint

A formal complaint must be submitted in writing to the President. Formal complaints must be filed within sixty (60) days of the event that triggered the complaint and state the nature of grievance and the remedy being sought. Any previous attempts to resolve the issue should also be described.

Receipt of the complaint will be acknowledged within fifteen (15) days. The appropriate institution administrator will then review the matter. A final written determination, including any proposed resolution, will be sent to the student within thirty (30) days of receipt of the complaint. The relevant institution office will keep a complete record of formal complaints.

Records of the outcome of all formal complaints will also be stored in a centralized database and the student's electronic file.

Students who at the end of this process feel a grievance is unresolved may refer it to:
