

EES MCT 60/40 RSPO MB

INCI: Caprylic/Capric Triglyceride

Description

A lightweight, palm-derived emollient that helps soften and smooth the skin without a greasy feel. It improves spreadability, enhances texture, and supports better dispersion of active ingredients in formulations. Known for its stability and silky finish, it's commonly used in creams, lotions, serums, and color cosmetics.

Benefits

Moisturizing
Lightweight & non-greasy
Enhances spreadability
Stable & long-lasting
Carrier for actives
Low Cost Alternative

COSMETIC SOLUTIONS
