

STAND WITH THE 231 – SUPPORT MILITARY ACCOUNTABILITY

"The love of liberty is interwoven in the soul of man and can never be totally extinguished. There are certain periods when human patience can no longer endure indignity and oppression. The spark of liberty then kindles into a flame."

-Samuel Adams

On 1 January 2024, a group of 231 service members and veterans ignited a new spark of liberty through a Declaration of Military Accountability. In this declaration, the signers pledged to hold military leadership accountable for their violations of the law and constitutional rights over the last several years.

This petition intends to kindle that spark of liberty into massive flame. To that end we hereby pledge our support for the Declaration of Military Accountability and intend to expand this pledge to include holding accountable all those in governmental authority who have abused their positions in unlawful and corrupt ways.

We The People are endowed by our Creator with certain unalienable rights, including life, liberty, and the pursuit of happiness. As the Declaration of Independence notes, "Governments are instituted among men, deriving their just powers from the consent of the governed, that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it."

We no longer consent to be governed by those who use their positions to enrich themselves and who pursue un-American agendas at the expense of the governed. It is our birthright therefore, as Americans, to demand and enact the changes we require in the government of our nation.

In the spirit of our founding fathers and following the example set by the Declaration of Military Accountability, the signers of this petition pledge to hold our leaders accountable and remove those in each of the three branches of government who have broken our laws, trampled our rights, and denied our ability to live in freedom.

An Open Letter to the American People from Signatories of this Declaration of Military Accountability

"Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other."

-John Adams

In the course of human events it sometimes becomes necessary to admonish the lawless, encourage the fainthearted, and strengthen the weak. We have reached just such a time in our history. The affairs of our nation are now steeped in avaricious corruption and our once stalwart institutions, including the Dept of Defense, are failing to fulfill the moral obligations upon which they were founded. **Standing upon our natural and constitutional rights**, we hereby apprise the American people that we have exhausted all internal efforts to rectify recent criminal activity within the Armed Forces.

In the Declaration of Independence our founding fathers sought separation. We seek no separation, but through this letter and the efforts we pledge herein, **we pursue restoration through accountability**. We intend to rebuild trust and restore the rule of law, particularly within the Armed Forces. Ultimately, we strive to once again become a moral people, restoring our nation, and making it again worthy of the great gift of liberty won by the colonial-era American people.

While implementing the COVID-19 vaccine mandate, **military leaders broke the law**, trampled constitutional rights, denied informed consent, permitted unwilling medical experimentation, **and suppressed the free exercise of religion**. Service members and families were significantly harmed by these actions. Their suffering continues to be felt financially, emotionally, and physically. Some service members became part of our ever-growing veteran homeless population, some developed **debilitating vaccine injuries**, and some even lost their lives. In an apparent attempt to avoid accountability, military leaders are continuing to ignore our communications regarding these injuries and the laws that were broken.

For GEN Milley, ADM Grady, GEN McConville, ADM Gilday, ADM Lescher, Gen Brown, Gen Berger, Gen Smith, VADM Kilby, VADM Nowell, VADM Fuller, LTG Martin, Lt Gen Davis, MG Edmonson, GEN Williams, ADM Fagan, VADM Buck, Lt Gen Clark, MG Francis, LTG Dingle, Lt Gen Miller, RADM Gillingham, and numerous others;

These individuals enabled lawlessness and the **unwilling experimentation** on service members. The moral and physical injuries they helped inflict are significant. They betrayed the trust of service members and the American people. **Their actions caused irreparable harm** to the Armed Forces and the institutions for which we have fought and bled.

These leaders **refused to resign** or take any other action to hold themselves accountable, nor have they attempted to repair the harm their policies and actions have caused. Since there has yet to be any accountability, the undersigned give our word to do everything morally permissible and legally possible to hold our own leadership accountable. We intend to rebuild trust by demonstrating that **leaders cannot cast aside constitutional rights** or the law for political expediency.

The flag and general officers are far from the only ones complicit in recent illegal activities, as a significant number of SES leaders and political appointees contributed. Evidence indicates that other executive agencies are engaging in illegal activity. However, as service members and veterans, we feel particularly responsible for the DoD and, in accordance with our oaths, we will make every effort to demonstrate by example, how **an institution can put its own house in order**.

We the undersigned, on behalf of hundreds of thousands of service members and the American people, while appealing to the Supreme Judge of the world for guidance and purity of intention, **mutually pledge** to each other that we will do everything in our power, through lawful word and action, **to hold accountable military leaders** who failed to follow the law when their leadership and moral courage was most desperately needed.

In the coming years, thousands within our network will run for Congress and seek appointments to executive branch offices, while those of us still serving on active duty will continue to put fulfilling our oaths ahead of striving for rank or position. For those who achieve the lawful authority to do so, **we pledge to recall from retirement the military leaders** who broke the law and will **convene courts-martial** for the crimes they committed. For those of us who attain legislative offices, we pledge to **introduce legislation to remove all retirement income** for the military leaders who were criminally complicit, and we will **ensure none serve in or retire from the Senior Executive Service**.

This endeavor will be a continuous process with a long-term time horizon, but fulfilling our oaths to defend the Constitution requires just such persistent vigilance. Likewise, we are obligated, and so commit, to train those who come after us to fulfill their duty in achieving this accountability and **safeguarding against such leadership failures hereafter**.

Our nation was once great because it was good. It was built on moral principles founded in natural law and yet, the recent acceleration of moral relativism has us headed towards a precipitous implosion. While all good things come to an end, **we refuse to allow our nation to go quietly into the depths of decadence and decay**. We promise to exhaust all moral, ethical, and legal means to restore the rule of law and will begin by attempting to hold senior military leaders accountable. The Constitution is the supreme law of our land. **We will fight** to enforce that law and put an end to the two-tiered justice system. May future generations see our efforts and, God willing, may they also be recipients of the great gift of liberty that we have had the honor of safeguarding.
