

UNITED STATES SENATE
SENATOR RON JOHNSON
Senate Homeland Security and Governmental Affairs Committee
328 Hart Senate Office Building
Washington, DC 20510

DECLARATION OF 1LT. MARK C. BASHAW IN SUPPORT OF SENATOR RON JOHNSON
INVESTIGATION INTO THE SAFETY AND EFFICACY OF COVID-19 VACCINES

1. My name is 1LT Mark C. Bashaw. I am over 18 years of age, and I am not suffering under any mental disability and am competent to make this declaration under penalty of perjury. I am able to read and write, and I make this Declaration voluntarily and of my own free will and accord. No one has used any threats, force, pressure, or intimidation to make me sign this Declaration, nor has anyone offered or given to me any monetary or non-monetary compensation or reward for making this Declaration. I understand that I am making this Declaration under the penalty of perjury. I have read the statements in this Declaration, and they are my understanding of the facts. Any medical opinion provided in this Declaration is based upon a reasonable degree of medical certainty. I have personal knowledge, experience and understanding of these matters, and I make this Declaration in support of the truth of the contents contained herein.
2. This Declaration is a communication and testimony solicited by and made to a Member of Congress. I make this Declaration as a whistle blower under the Military Whistleblower Protection Act, Title 10 U.S.C. § 1034.
3. I make this affidavit, as a whistle blower under the Military Whistleblower Protection Act, Title 10 U.S.C. § 1034, in support of the above referenced MOTION as expert testimony in support thereof.
4. The opinions expressed here are my own and arrived at from my persons, professional and educational experiences taken in context, where appropriate, by scientific data, publications, treatises, opinions, documents, reports, and other information relevant to the subject matter and are not those of the Army or Department of Defense or any component thereof.
5. I am an active duty commissioned Officer in the U.S. Army. I currently serve at the APHC at Aberdeen Proving Ground (APG), Maryland. I serve in the Preventative Medicine (67C) career field and my specialty is Entomology (72B). My official duties include participating in fact-finding inquiries and investigations to determine potential public health risk to DoD personnel from diseases caused by insects and other non-battle related injuries. I received an Associates of Science in Environmental Studies through the Community College of the Air Force (CCAF) in 2010, a Bachelor of Science degree in Management Studies from the University of Maryland, University College in 2013, and a Master of Science in Entomology from the University of Nebraska Lincoln in 2018.

6. I enlisted in the U.S. Air Force on 17 January 2006 and currently have 16 years of total active federal military service (TAFMS). I have served tours overseas to include Japan, Republic of Korea, Germany and multiple deployments to Africa, Middle East, and Central America. I directly commissioned in the U.S. Army Medical Service Corps in September 2019. I initially attended the Direct Commission Course at Fort Sill, OK, followed by the Basic Officer Leadership Course at Fort Sam Houston, TX. I was then stationed at the APHC in January 2020. While at the APHC, I have successfully served as the Headquarters and Headquarters Company (HHC) Commander from May 2020 to July 2021. Currently, I serve in the Entomological Science Division as a Medical Entomologist.

7. My specific duties at the Entomological Science Division within Army Public Health Center (APHC) required that I participate in fact-finding information regarding entomological threats to public health and safety, and properly communicate the risk to our Soldiers. These threats included insect borne diseases, zoological, and other potential non-battle related issues. I also supervised three enlisted Soldiers (Preventative Medicine Specialists, 68S). Additionally, I worked in a mosquito insectary to help with quality checks and standard operating procedures (SOPs). My official duties also include supporting the Army Public Health Program (Army Regulation 40-5) by sustaining the readiness of the force by protecting Army personnel from potential and actual harmful exposures to chemical, biological, radiological, nuclear, and high yield explosive (CBRNE) warfare agents; endemic communicable diseases; food, water, and vector-borne diseases; zoonotic diseases; ionizing and nonionizing radiation; combat and operational stressors; heat, cold, altitude, and other environmental extremes; environmental and occupational hazards; toxic industrial chemicals and toxic industrial materials.

8. Throughout the implementation of the experimental emergency use authorized (EUA) COVID19 mRNA injections, I was aware of enormous safety signals in the Centers for Disease Control's (CDC) Vaccine Adverse Event Reporting System (VAERS). In September and October of 2021, I started communicating these concerns to the Army Public Health Center COVID19 Task Force to get the Risk Communication Strategy changed to include the concerning VAERS data and frontline doctor testimony. I was ignored. Shortly thereafter, I was targeted for not participating with COVID19 experimental emergency use authorized products (masks, tests, and mRNA injections). I was then charged with Article 92 UCMJ and sent to a Special Court Martial (United States v 1LT Mark Bashaw) on 28-29 April 2022. I was convicted and sentenced to "no additional punishment" by the Judge. I explained throughout the court martial that these COVID19 experimental EUA products are dangerous and deadly. I also gave testimony regarding my initial and formal Article 138 UCMJ complaint that was initiated on 26 November 2021 against my commander, after I was unlawfully discriminated against on 23 November 2021.

9. On 29 July 2022, I registered for a CDC Vaccine Lot Number and Expiration Date Report Account. Within the DOD and USCG, there have been questions with certain "Comirnaty Labeled" vial lots that have been showing up on base medical clinics. Many medical personnel and commanders around the DoD and USCG have been claiming these are the FDA Approved and Licensed vials. **However, these lot numbers are listed on the CDC's Emergency Use Authorized (EUA) COVID19 Lot Listing.**

10. The following is an excerpt from the CDC's COVID-19 Vaccine Lot Number and Expiration Date Report Database, **“These files contain all lots for COVID-19 vaccines made available under Emergency Use Authorization (EUA) for distribution in the United States. The downloadable file includes the manufacturer, the National Drug Codes (NDCs) for Unit of Sale (boxes/cartons) and Unit of Use (vials) for each lot number, and the manufacture date and expiration date.”**

11. Using the CDC's database, I was able to verify that the “Comirnaty Labeled” vials with lot number **FW1331**, that has shown up on various U.S. military and U.S. Coast Guard bases (Whistleblower Declaration: LT Chad Coppin, USCG, 30July2022), **is listed on CDCs COVID-19 Vaccines under Emergency Use Authorized (EUA) List.** There's obviously confusion as to why experimental COVID19 EUA vials are still being manufactured and new EUA authorizations are being granted (i.e., NOVAVAX), if we have a “supposed” fully FDA Approved and Licensed vials available. There's also confusion as to why this alleged fully FDA Approved and Licensed product is on the CDC's official EUA Lot Listing.

12. As of 22 July 2022, there have been 29,790 deaths from these experimental EUA COVID19 injections and 1,357,940 adverse injuries, according to the CDC's VAERS data. There's also been 1,000 peer review studies about the adverse injuries related to these experimental EUA COVID19 injections (<https://community.covidvaccineinjuries.com/compilation-peer-reviewed-medical-papers-of-covid-vaccine-injuries/>). Additionally, on 06 January 2022, a federal court ordered the FDA to release the COVID19 vaccine documents. It was these documents that the FDA relied heavily on to facilitate a fully FDA Approved and Licensed COVID19 injection. These documents also corroborate the concerning safety signals.

13. Important to note that “Covered Persons” (i.e., U.S. Government, manufacturer, distributor....) with respect to administration or use of a “covered countermeasure” (i.e., EUA COVID19 mRNA injections, masks, and tests) “shall be immune from suit and liability.... (Title 42 U.S.C. Section 247d-6d [a] [1]).” Also, Title 21 U.S.C. 360bbb-3 has important “Required Conditions” associated with EUA products and Title 10 U.S.C. section 1107a has important requirements, specifically for Service Members. **According to Army FRAGO 5, “Commanders will ensure sufficient doses of Department of Defense Approved vaccines are on hand and available for their unit. Soldiers may at any time still voluntarily receive any other vaccine approved for emergency use.”** Again, according to the CDC lot listing, **the only vial lots that exist are under emergency use authorization.** Therefore, required conditions such as, the right to accept or refuse participation with such EUA products is a **REQUIRED CONDITION** per Title 21 and Title 10 sections listed above.

14. To date, there are no available FDA Approved masks and tests for the prevention and/or detection of COVID19 (SARS-CoV-2), they are all EUA and fall under the same federal statutes listed above. These EUA products have been weaponized against individuals who lawfully chose not to participate with the experimental EUA COVID19 injections. However, everyone has the right to accept or refuse such experimental EUA products without fear of reprisal, again, according to the federal statutes above. However, Commanders around the DoD are initiating reprisal against their Service Members. This is an unlawful practice.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on: 04 August 2022

Signature:

Mark C. Bashaw, 1LT/MS

Maryland State
Anne Arundel County

On 08/04/2022 date before me, as Notary and as Jurat Certificate of Acceptance by court officer, Mark Charles Bashaw personally appeared and proved to me on the basis of satisfactory evidence to be the man whose Name is subscribed to the within attached instrument and acknowledged to me that he executed the same in his authorized capacity, and that by his autograph on the instrument the man executed, the instrument.

I certify under PENALTY OF PERJURY under the lawful laws of Maryland State and the STATE OF MARYLAND that the foregoing paragraph is true and correct Witness my hand and official seal.
