The Yorga Djenna Bidi Aboriginal Women's Leadership Program

The Yorga Djenna Bidi (Noongar for "women moving forward together") Aboriginal Women's Leadership Program is delivered over five months and the design combines the best of successful group leadership programs and draws on best practice leadership models. Cultural content and context has been interwoven throughout the course design and delivery.

This is the only initiative we are aware of that brings Aboriginal women together across different cultural backgrounds, ages, occupations, identities, leadership experiences, and education. This diversity allows participants to learn from each other as well as from key speakers and facilitators. In addition to leadership learning, feedback from the pilot course indicated that younger participants were able to explore cultural identity issues with more mature participants who, in turn, learnt more about issues faced by younger Aboriginal women.

The Opportunity

The Yorga Djenna Bidi Aboriginal Women's Leadership Program will bring together Aboriginal women across different cultures, ages, occupations, identities, leadership experiences and education levels to build skills, gain confidence and build networks. The Aboriginal Women's Leadership Program will be facilitated with the support and guidance of Aboriginal Elders, Kwopertok Yorga Alumni (Noongar for "beautiful women"), Patrons and Staff.

The Aboriginal Women's Leadership Program is open to all Aboriginal and/or Torres Strait Islander Peoples. All applicants to the Western Australian Aboriginal Leadership Institute's programs and courses are reviewed through an application and interview process to ensure the program is a good fit for their development needs and situations.

Yorga Djenna Bidi was one of the most rewarding things I have done to date. A journey of self-discovery and the finding of inner strength, understanding and of making peace with inner demons. All while surrounded by wonderful strong women, who all share the same amazing vision." Graduate
