## A MESSAGE FROM THE DIRECTOR

As YAAS continues to grow, I'm so grateful for the community that has formed around this club. Our mission is to create welcoming opportunities for connection, confidence, and belonging for young autistic adults, and it means so much to see that happening through each event and friendship.

We are currently seeking volunteer board members who believe in that mission and feel they have skills, experience, or insight that could help YAAS grow in a thoughtful and sustainable way.

Board members are not paid staff positions, but volunteer leadership roles that help support the future of the club through guidance, ideas, and community support.
