

CONNECTOR  
COLLECTION

SEEL offers moulded M8 and M12 connectors with PVC, PUR, and PUR/PVC cable options. Whether you're looking for open-ended wires or connection cables, we have the right solution for your industrial connectivity needs.

M8 and M12 connectors are widely used in various industries due to their durability, reliability, and versatility. These circular connectors provide secure connections for sensors, actuators, and control systems in demanding environments. Let's explore the different options available:

**PVC Cable:**

Our M8 and M12 connectors with PVC cables are suitable for general industrial applications. PVC cables offer good flexibility and resistance to abrasion, making them ideal for indoor use or protected outdoor environments.

**PUR Cable:**

If you require connectors with enhanced durability and resistance to oils, chemicals, and mechanical stress, our M8 and M12 connectors with PUR cables are an excellent choice. PUR cables are commonly used in harsh industrial environments and offer superior flexibility even in low temperatures.

**PUR/PVC Cable:**

For applications that demand the best of both worlds, we offer M8 and M12 connectors with PUR/PVC hybrid cables. These cables combine the flexibility of PVC with the ruggedness of PUR, providing reliable performance in challenging environments.

**Open-ended wires:**

In situations where you need customized cable lengths or specific wiring configurations, our open-ended wire options give you the flexibility to create tailored connections. Simply strip the wire ends and connect them to your desired terminals.

**Connection Cables:**

If you prefer pre-assembled cables for convenient and time-saving installations, our connection cables with molded M8 and M12 connectors are the perfect solution. These ready-to-use cables ensure quick and reliable connections between your devices.

We understand the importance of reliable and efficient connectivity in industrial settings. That's why our M8 and M12 connectors, along with the various cable options, are designed to meet the rigorous demands of your applications.

Explore our product range and find the perfect molded M8 and M12 connectors with PVC, PUR, or PUR/PVC cables, whether you need open-ended wires or connection cables. Our connectors are built to withstand challenging environments and provide secure and dependable connections for your industrial systems.
