aic2
Advanced Intelligence Computing Company
Turning IT Complexity into Simplicity!

PROTECT YOUR INDUSTRIAL OPERATIONS WITH AIC2

احمي وطور عمليات التشغيل في مصنعك

Revolutionizing Industrial Cybersecurity

OPERATIONAL TECHNOLOGY
تقنيات التشغيل والعمليات

Real-Time Monitoring
المراقبة في الوقت الفعلي
Continuous oversight of OT environments to detect anomalies and maintain operational efficiency.

IT-OT Integration
تكامل الشبكات والتشغيل
Seamless connectivity between IT & OT networks to optimize operations without compromising security.

Industry-Specific Security Frameworks
نظم أمان مخصصة للصناعات
Customized protection strategies tailored to meet the unique needs of sectors like manufacturing, energy, and utilities.

Network Segmentation
تقسيم وتصنيف الشبكات
Limits unauthorized access by segmenting OT networks into secure zones for better control.

Threat Detection and Prevention
الكشف عن التهديدات ومنعها
Advanced tools to identify & block potential cyber threats targeting industrial systems before they cause disruptions.

Incident Response & Recovery
الاستجابة للحوادث واستعادة العمليات
Rapid response solutions to minimize downtime and quickly recover from cyber incidents.
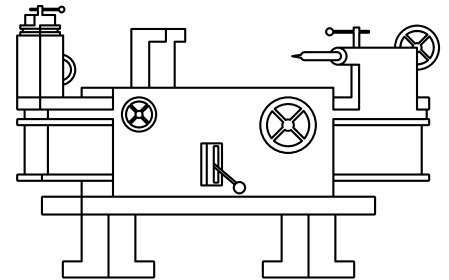

Compliance Management
إدارة الامتثال
Ensures adherence to industry regulations and standards to avoid penalties and protect sensitive data.

Remote Access Security
أمان الوصول عن بُعد
Secure solutions for managing and monitoring industrial systems remotely, ensuring continuous control & safety.
