Our mission is to deliver exceptional value to our members by fostering strong relationships with both industry professionals and regional educators. We are committed to engaging students in CSCMP development, creating internship and employment pathways with our business partners, and promoting a culture of lifelong learning. Additionally, we strive to support the growth and collaboration of regional roundtables across our network.

GREAT LAKES ROUNDTABLE

“We want to bring real value to our members and build genuine connections across the supply chain community. That means staying closely connected with professionals, educators, and—most importantly—the students who represent the future of our industry.

We’re passionate about helping students grow, whether that’s through mentoring, internships, or job opportunities with our business partners. We also believe learning never stops, so we work hard to promote a culture where curiosity and professional growth are always encouraged.

And finally, we’re committed to supporting and strengthening our partner roundtables so our entire community continues to grow, collaborate, and thrive together.”

Jeremiah Beebe - President

SCPRO™ CERTIFICATION PROGRAM

The SCPro™ Certification Program is a tiered, industry-recognized credential developed by supply chain leaders and academic experts. Whether you're broadening your knowledge, building on past credentials, or ready to tackle strategic business challenges, SCPro™ offers a clear path forward. Follow the tier that fits your experience—and grow from there.

EDUCATION AND RESEARCH

The Council of Supply Chain Management Professionals (CSCMP) leads cutting-edge supply chain research. Its Research Strategies Committee develops the research agenda and oversees projects using primary research, secondary data, and surveys to advance knowledge and support practitioners.
