Where the light flickers, the dead remember

The Flickering Hollow is an RPG fantasy side quest centered on themes of corruption, false light, and spectral decay. A once-sacred grove where the veil between the living and the dead has thinned. A strange flickering light neither fire nor magic haunts the forest's depths, luring travelers to their doom. However there is more than what meets the eye beneath the light's shimmer!

- Solo RPG Adventure generated by A.I. and Humans
- Interacts with the A.I. game master across multiple locations
- 36x45 Tile Based Outdoor Map
- Adventure Length: 1 to 3 Hours
