February 2024 Special

A smile changes everything; we want to be a part of enhancing your patients' smiles.

Implant Special

\$50 off

- Strong and stable, a dental implant restores a lost tooth so that it looks, feels, fits and functions like a natural tooth.
- Dental implants are a long-term solution. Traditional restorations can last anywhere from 5-10 years, while dental implants can last a lifetime.
- Protect healthy bone! Dental implants are the only dental restoration that preserves and stimulates natural bone growth and prevents bone loss.

***Offer valid through 2/29/2024**

Porcelain Fused to Zirconia Single Unit Crown*

\$100

- Unlike metal PFM's, PFZ allow more light to pass through, and this makes them more suitable for anterior teeth.
- Zirconia does not produce any chemical reaction in the mouth, ZrO2 is biocompatible. This is important as metal can cause allergic reactions once placed in the mouth.
- Zirconia when fused with porcelain is stronger than any other material, including gold.
- PFZ is less likely to fracture as compared to porcelain fused to metal.

***Offer valid through 2/29/2024**
