<p><b>ALL SHIPPING COSTS PAID BY DENTAL DESIGN STUDIOS</b></p> <p><small>*Offer valid thru July 31, 2022</small></p>	

According to Inside Dental Technology, the three most important factors a dentist will look for when choosing a dental laboratory are communication, knowledge and consistency<sup>1</sup>. At Dental Design Studios, we are proud to deliver on all three criteria. We understand how valuable your time is, and our goal is to help ensure that you have a smooth daily workflow.

Our friendly staff is always eager to help facilitate this in any way they can. Whether it is helping you schedule a pickup, or case planning with you from one of our many seasoned technicians. We are here to help you. We don't simply want to be your lab, but rather an extension of your dental practice. Additionally, by being a part of the Delta Dental PPO<sup>TM</sup> network, you are given a preferred price list on your dental laboratory needs. This pricing applies to your entire patient base, which could potentially decrease your lab expenses by 30 percent. We also pay for all shipping costs.

At each step of the fabrication process, our team has a standard set of quality control processes to ensure a consistent product is delivered to your office. We proudly participate in the IdentAlloy® program which assures both you and your patient that what you request is what you receive, and that it is made in the USA.

Call Tabitha Hans at **734-838-0181** for your **free starter kit**, and begin **increasing your profits and decreasing your practice overhead!**
