

Sally Baptiste

Sally Baptiste was born and raised in Orlando, Florida. She has been a Business Systems Analyst for over thirty (30) years, and currently has a weekly Blog Talk Radio show called “American Statesman.” www.blogtalkradio.com/AmericanStatesman.org. Please tune in every Monday evening at 7:00PM (Eastern time).

In 1996, her local county government waged a publicity campaign for the imposition of new “toll taxes on Interstate 4 through Orlando. Sally Baptiste became a citizen activist opposing excessive and regressive transportation taxes. She wrote, “The True Cost of Toll Abuse”.

Sally’s research and study showed how the cost of transportation impacts many aspects of our lives, including our cost of living, freedom to travel and quality of life. The issue of transportation naturally involved Growth “Mismanagement”. At that point, Sally learned about “Smart Growth” and Agenda 21. The more Sally learned the more she realized what was/is happening to our country. Education – the “dumbing down of Americans”, climate change, global warming, urban sprawl, over-population, never ending taxes and the latest, a covid plandemic combined with massive election fraud. They are all connected. Sally easily concluded the goal is to take down the U.S.A. and implement One World Government controlled by the U.N. The end of freedom. Thus, Sally realized as an American she needed to be informed and engaged.

Sally Baptiste was elected to the Orange County Soil & Water District, and had become an elected precinct committeewoman in Orange County’s Republican Executive Committee by the time she next ran for office in 2006. Sally Baptiste was a candidate for mayor of Orange County, Florida at that time.

Sally Baptiste considers many Patriots, including herself, to be “too honest” for public office.

**I Love my COUNTRY,
it's my GOVERNMENT I'm AFRAID of !**

Say a Prayer for America and the World !
