Get inspired by masterfully performed by Rozalina Gutman one of the most challenging pieces in piano literature - "Revolutionary" Etude in dis by Scriabin

**▲ POLICE REPORT FOR THE
INCIDENT #LHS0191 on broken
car of disabled music scholar
July 5, 2025, at Malibu,
Equestrian park**

The incident was witnessed by
Malibu police, reported by officer
Kasabyan

👉 Continued from Part 3

handwritten note:

The text of below handwritten plea for help to city council Conrad, left with no mere visit (July 9, 2025)

Urgent and effective response is long overdue to restore and mediate severe damages to health and global causes of Ms. Rozalina Gutman

To: Mayor and city council members, representing the interests of city of Malibu, CA

From: Rozalina Gutman, internationally recognised for fostering prodigious success, piano instructor, cited by Robert F Kennedy multidisciplinary scholar and advocate for environmental justice, author and proponent of innovative methods of applied music for brain optimisation and alignment with vibrational nature of universe.

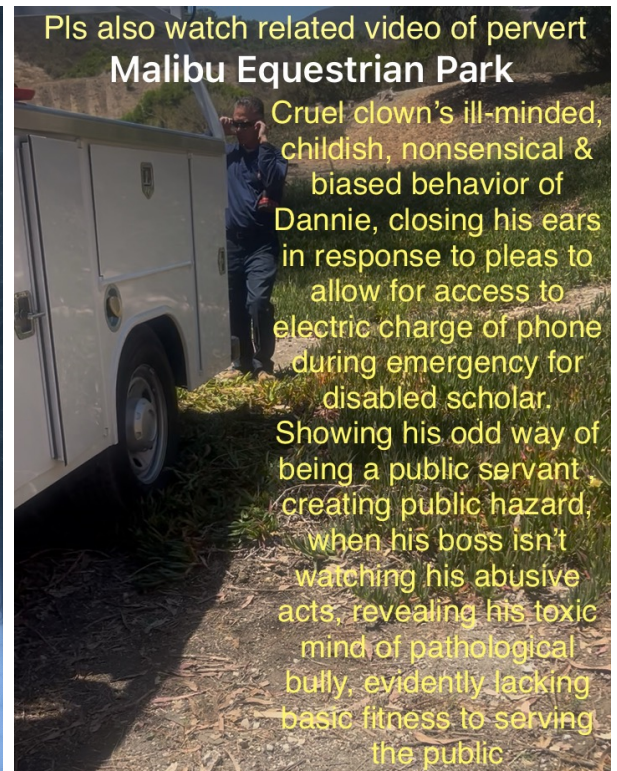

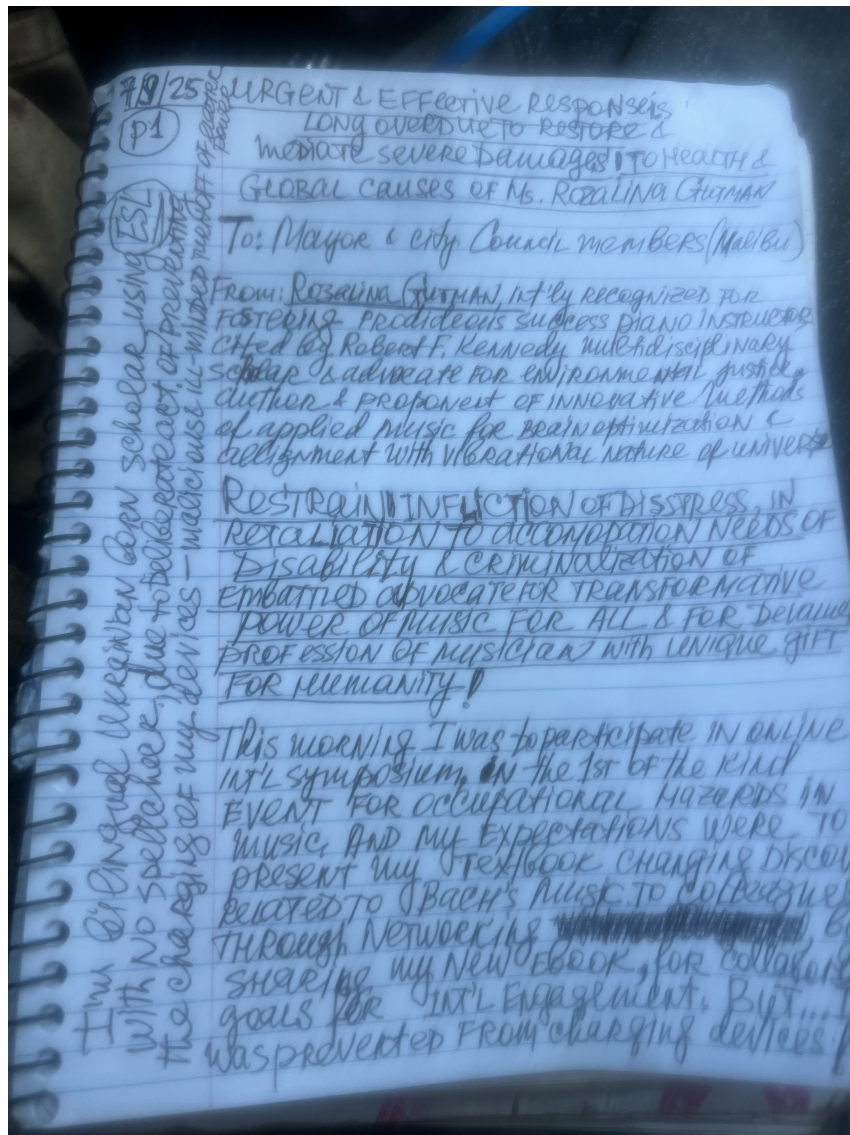

Restrain! infliction of distress, in retaliation to accommodation needs of disability and criminalization of embattled advocate for transformative power of music for ALL and for the valued profession of musician with unique gift for humanity!

This morning I was to participate in online international symposium, in the first of the kind event for occupational hazards in Music. And my expectations were to present my textbook changing discovery, related to Bach's music to colleagues, through networking and sharing my new e-book for collaboration goals for international engagement but... I was prevented from charging devices! due to electric power being deliberately(!) shut down?!

[end of p1 of the written note]

No matter how you look at this, there is no rational and logical explanation to such malice of public safety hazard, especially in the context of the catastrophe that DISABLED SCHOLAR had to deal with, due to the circumstances of outstanding and long lasting hardship. However, aside from my personal struggle, the created by this irrational hostility problem of lacking opportunity to charge phone for emergency uses in this area of remote hiking is THE OBVIOUS PUBLIC HAZARD.

- Notably, due to unknown to me circumstances, in a couple of hours Dannie returned and without any explanation and with no apology he announced that he **restored access to electricity back**.
- But I still could not join the rest of the online symposium, because of bad reception and the need to walk to the beach after charging the phone finally in late afternoon, since suddenly I've been held hostage by the next team of harassers with the official badges - **Alex Tripolsky and Carrie Rios**. And, this time the code enforcement department employees arrived to the location, where I was bound to remain with NO RELEVANT HELP FOR THE OBVIOUSLY NEEDED CAR REPAIR/TOW. (But this administration of city of Malibu is likely one of the most affluent on the planet, yet it is consumed by the dangerous level of fatigue of most fundamental compassion to suffering and their routine practices and policies that reflect such dangerous state of collective consciousness...) NOTE: Some of their rhetoric

(during long and injurious with fragrance visit) was captured on the video, demonstrating that their verbiage was turned into the wording of the fraudulent medical diagnosis and accompanying bluntly false clinical notes with very harmful impact for the victim of MCS, providing excusiology for the past and future crimes of avoiding lifesaving care for accessibility. (See the details in Timeline of events in police report 📌)

- On **7.9.2025 Wednesday** Drew Belter (park maintenance) was among the prejudiced to harass me public servants (among a number of other city employees) did nothing in response for the pressing need and dismissed my pleas to help me in meaningful way with car repairs, while being of the mission of creating false portrayal of me and my MCS related medically necessary accommodations for accessibility. And instead, while trying to make false impression of that, they seemed to delight from watching me in the position of HOSTAGE TO THEIR ILL-MINDED HOSTILITY. They knew I was facing a threat of losing the car, due to caused by mismanaged rodents, but did nothing despite knowing of essential transportation/shelter it serves for my sustainability, due to severe disability. Their contrary to logic and common sense, ill minded teamwork actions of making hard and impossible to find solutions for fixing the problem even on my own are evident of MISFIT TO PUBLIC SERVANT's fundamental duties. Drew Belter (park maintenance) saw my handwritten warnings re danger of rodents for disabled cars, instead of preventing from reoccurrence of the problem, he stated his senseless excusiology to avoid it, as he took it off(!). And not only he deliberately DID NOTHING TO MITIGATE THE PROBLEM caused by the gross and mindless

mismanagement of the park, the problem was deliberately made to be worse instead (!) The individual who delights in causing the suffering of disabled person from the mismanagement does not entails major liability for the community about the outrage of pests allowed to feed on open trash cans, after being dropped by local resident in this locations of park - in disregard for endangering disabled visitors. (See more details on committed daily hate crime(!) in listed video links in **"Timeline for police report"**)

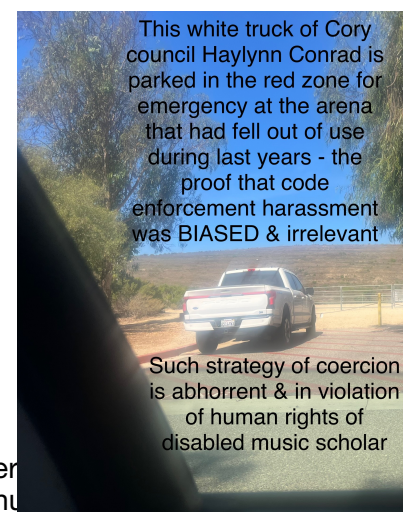

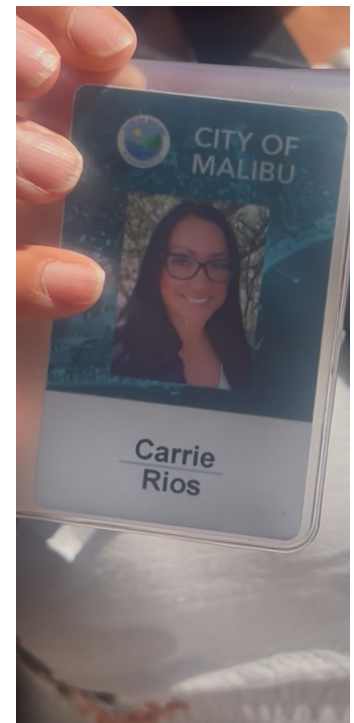

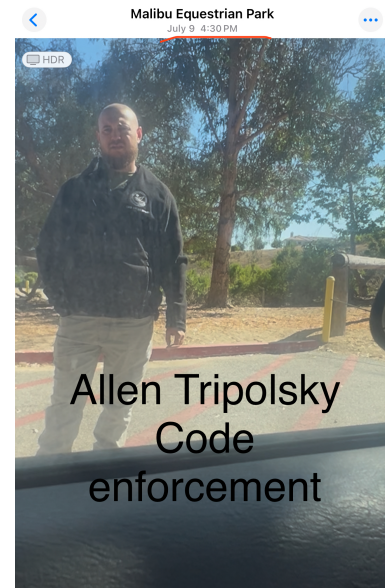

👉 <https://youtube.com/shorts/6xkVS2qVYaY?si=DrLLsmRKiQKXPhqv>
(video: *The local woman regularly drops squirrels citing Parks and rec dept permission. And, she appears to believe that **she needs to feed coyotes (despite banned interference with wild life...)**. Asserts using this, but not any other location next to disabled parking despite damage to disabled cars, citing city's requiring her **to use nor any other place**. In the past she dropped squirrels once in a while.*¹

- **In am hours on Wednesday 7.9.25** I felt that blessing came upon me when a Good Samaritan - a man from the community drove by on his bicycle and offered to bring food Nd find a local mechanic to help with the car.... (But not only he didn't come back with mechanic, I never heard back from him despite initially very friendly exchange... And later on I learned from him that despite his normal for people desire to help someone in trouble, he was actually told by the informal leader of the church - Kay to NOT help me in any way... And the grasp of the "inner demons" of this sinful hater, who for no reason, but personal bias, turned against me the entire community, unleashing witch-hunt with lies and slander of ludicrous content, yet injurious in my case. Such contrary to Christian teaching actions should follow with decisive actions by the church leadership. But hopeless cronyism and widespread bias derailed any chance for restoration of the ethical collapse.

7.9.25 Wednesday 4 pm Suddenly instead of familiar reps from affiliates for crisis solutions "People's Concern", funded by city administration, city deliberately sent unqualified in social services individuals with notably hostile attitude who were from code enforcement. They had a mission to provide misleading yet FALSE evidence of pretending that they "wanted to help". First of all, there mere presence was intolerable since they came **unfit for public service - carrying intolerable for me fragrance and forcing me to be exposed to it.**

In these 📌 videos (snippets of long lasting and exhausting with pain from exposure harassment while trying to deny causing toxic exposure), Ms **Rios** makes **self conflicting** statements evident of measurable cognitive dissonance and disability to relate to caused by her pain from toxic exposure, while making false assertions re me, trying to incriminate me on behalf of other city employees(!) in refusing something. (Sadly, I have no text msgs nor emails with ANY offers, not

¹ This part of witch-hunt backlash by ill minded cronies from the ring oper homeless victims was the result of brainwash of susceptible to biases ch eagerly plunged into enactment of daily hate crime...)

to mention, no certification for chemicals free shelter for any residence option. No offer was made for local alternative to "Mold toxicity refugees" despite the obvious need in the area...)

[Video 7:03 @ 1:26 **Rios** admits fragrance in her Car; false accusations of "denied by me help", instead of accommodation to disability and kind care]

👉 <https://youtube.com/shorts/4kOvIASzjqc?si=q3Wf-fDmQh1mK1iX>

[Video 2:48. @1:47 **Rios** lies: "I don't have any fragrance" contrary 2 earlier admission of fragrance forced me with pressure to obey officials to be exposed to fragrance for long time along with stress]

👉 https://youtube.com/shorts/WLwklc9_50U?si=hQ8dyO6mCcid3ruB

[video 0:26: **Allen T & Rios** impose fragrance on me, while I was under impression of being unable to escape their forced presence with threats to misuse their power. They acted in blunt disregard of my complaints for caused by them pressing pain. Their false accusations and blunt efforts to misconstrue my relevant to illness needs for MCS accommodations were deliberate - to add more pressure with infliction of emotional distress, as a part of mutually shared coercion into submission into false and harmful for me diagnosis of "mental dysfunction" - as the only way to escape life threatening acts of more of unlawful assaults on my very life. Their FAILED SCAM to concoct fraudulent diagnosis was aiming to cover up for their routine ring operation. The above video snippets of their emotional attack with intent to create the false impression of my illness while using irrelevant to my medical necessity assertions re my "refusal" of "offered services" - the odd way of referring to MCS RELATED accommodations.
