

 **S.O.S. !! call for urgent help for Rozalina Gutman!**  -author,

teacher, scholar & victim of untreated mold/MCS, w/authentic voice of advocate for [loving care for chemical safety of 🧑‍🤝‍🧑 offsprings](#) - destined to suffer from already passed down genetic mutations, IF any may remain, based on data on rapidly growing pandemic! We're all together in this Battle of Mindsets FOR ASSERTING UNCOMPROMISING AVOIDANCE OF TOXICANTS, AS THE TOP PRIORITY FOR ALL!! (open links)

**Help rescue disabled by normalized toxicants** [internationally recognized music educator, multidisciplinary brain/music scholar, concert pianist, author, advocate for just\(!\) valuation & health\(!\) of professional musicians in the role of Consciousness Transformers, environmental justice advocate, informed by severe MCS illness](#). Rozalina Gutman's health & life are in great danger NOW! [Crisis assistance agencies](#) with no sense of sanctity of life refused for 3 years to obtain her diagnosis of life threatening [Multiple Chemical Sensitivity \(MCS\)](#) - in retaliation to change from normalized corruption, related to toxicants. Instead, they [conspired together in hideous hate crimes](#), while [cruelly ridiculing\(!\) & dismissing life threatening diagnosis\(!\)](#) - to coverup willful neglect of urgent, relevant assistance, [creating hostage situation \(+Part2\)](#) & [spreading bias to this victim of life threatening MCS illness, forced into living in 2001 collapsing car](#). Even recent extensive  bleedings, that made no longer "invisible" her MCS disability didn't stop shocking & normalized cruelty(!) Join [Teacher's](#) environmental justice advocacy call for chemical safety of communities, driven by [loving care for offsprings](#). due to research data on rapidly growing, but denied by corrupt medical industry MCS pandemic, that is to afflict MILLIONS, leaving fewer healthy people, able to take care of the sick within just a few decades

Due to her travels to escape [whistleblower's retaliation, antisemitism](#) & in desperate search of ["Mold refugee" for essential for MCS, but rarely available chemically safe rental](#) & rare MCS-informed doctors, Rozalina Gutman got [stranded in So Cal since 2022, because of being forced to repair old 2001 car, & having to use it as her only shelter](#). But, local [homeless crisis-assistance agencies](#) prejudiced her from help, [conspiring together with power institutions](#) in retaliation to their duty to help disabled individuals, with hideous health/life threatening hate crimes: [Lacking sincere concern staff from "People's Concern" refused for 3 years to obtain her MCS diagnosis and to use it to provide RELEVANT help](#), instead [conspiring with other agencies to concoct fraudulent diagnosis, to excuse their earlier unlawful, notorious, willful neglect \(Part1 & Part 2\)](#). The sum of crimes, power abuses, medical fraud, slanderous rumors included [loss\(!\) of her functional, shipped from out of state\(!\), RARE scent-free car](#) - due to blunt refusals to help her with such easy to provide disability accommodation, as small space for its additional detox. (Learn more [Part 1A](#) & [Part 1B](#)), followed by [withholding videos at bogus court case hearing - made inaccessible\(!\) for her to represent herself, in blunt human & constitutional rights' violations \(\[Part 2A\]\(#\) & \[Part 2B\]\(#\)\)](#) Even her extensive  bleeding didn't awaken compassion. As the result  [now, due to cold rainy season, Rozalina Gutman is in desperate\(!\) need for help from progressive forces among local/global community members, including MCS victims - for urgent assistance with chemicals-free shoes/boots, warm clothes, temporary shelter\(!\)](#). Bias prevented primitive minds from applying to OWN health & offsprings' safety kindly(!) shared by her shocking data on [rapid growth of MCS cases that DOUBLED \(X2!!\) during only 16 years of 2000-2016, from half a million to over a million, according to Canadian study](#). Thus, as [today's babies grow up, likely joining the pool of millions of suffering MCS victims within couple of decades](#), they will be also [abused, criminalized\(!\) due to the same reckless lack of any care solutions for MCS, unless progressive forces commit NOW to fighting current injustice against afflicted by serious illness and struggling with no tolerable shelter MCS victims \(such as "mold refugees"\) bound to agony of debilitating physical, all-body symptoms of pain, respiratory, cardiovascular, digestive, neuromuscular etc. functions, being routinely, cruelly ridiculed\(!\) with fraudulent claims of "delusion", according to caught by R.G. evidence for excusiology to detox residential facilities](#). Cruel & primitive liars were unaware, that [Ms Gutman had been called by her colleagues to offer her brain for research to track her shift to analytically/emotionally balanced engagement with polyphony by J.S.Bach, leading to cascade of textbook-changing discoveries](#) [Decades long suffering of virtuous woman exposed evident global threat\(!\) of underdeveloped integrative cognition](#) in authority - unaffordable for humanity. Evident normalization of endured by Rozalina Gutman hate crimes, driven by irrational(!) effort to criminalize invaluable for global sustainability, painful GIFT OF MCS, must be addressed at the root-cause of [disconnect of educational priorities w/skills 4 self-reflection of evolutionary young human brain - enabled best by music-embodiment](#). Her RESCUE had become utmost urgent with unconventional, "outside of the box" solutions. Her health and life are in immanent danger!! since her old car/shelter is nearing [complete collapse!!](#) Due to hopeless corruption at all levels of society, [most of conventional rental housing resources had become toxic for ALL & intolerable for MCS victims, like R.G., requiring remediation & at times, complete rebuilding](#), while most of habituated to normalized toxicants population can no longer GRASP hazardous exposures to avoid them. That is why, Rozalina Gutman needs urgent help in finding immediate support among [MCS victims, and ALL progress-oriented](#) community members and heart-wise and health-conscious individuals, who had already made the choice for [PRIORITYZING chemicals free living](#). And the benefits are priceless from health-

saving MCS advice for deeper detox of their dwellings, due to greenwashing of many products. Why was it easy to keep population in the dark about these problems? R.G. observed the root-cause: Maladaptive **deactivation of pain alarms to toxicity** led to conformity-driven habituation (groupthink) to illegally legalized hazards, permitted to become “the fabric of our life”. But the widespread CUMULATIVE effect of normalized toxicants had not been CANCELLED(!). Its hormone disruptions had been passed down in the form of BIRTH DEFECTS, caused by genetic mutations - at higher levels in each subsequent generation Resulting global

habituation trend led humanity to the state of “painless” sleepwalking through the fast lane into **HUMAN EXTINCTION, forecasted by 60+ global studies(!) to onset by 2045 (or sooner!) (+Watch revealing follow-up by COUNT DOWN's author Dr Swan)**. And yet, **there is tangible HOPE: RARE now individuals with SEVERE MCS are willing to share precious painful GIFT for IDENTIFYING AND AVOIDING DANGEROUS FOR ALL(!), but normalized chemical hazards in many commonly sold products.** Logic demands to engage

them into prevention of cumulative toxic effect, resulting in many illnesses - unlabelled as “environmental” by hospital industry. Why? UNCONSTITUTIONAL system of political campaign contributions legalized bribes of US Legislators, who “forgot” of LAW for SAFETY TEST prior to product's market entry.. Collective Blindsight of subliminal MALADAPTIVE SENSORY COMPLICITY TO TOXICITY, indiscriminate of elected legislators, warped their PRIORITY ability for guarding with loving care OWN little dear ones. As the result, avoidance of universal danger of toxicants in many consumer goods for millions of consumers was sacrificed to profiteering from global suffering. So, painful gift of MCS for identifying/eliminating toxic for ALL products was left UNIDENTIFIED by corrupt medical industry, & UNTAPPED by pharma-funded academia. So called

“minor” toxicity exposure was legalized into FALSE health/safety standards, in disregard of their impermissible(!) CUMULATIVE effect. Thus, unwavering MCS whistleblower Ms Gutman had been calling for NO BUSINESS AS USUAL, incl. directing ALL available resources to prevent nearing society's collapse(!). The

victim of culture of moral atrocity Rozalina Gutman calls for **true** leaders to rise up against complicity to submitting to humanity's self-extinction, as the counterpoint to WARPED PRIORITIES of most elected/appointed officials, discouraged from rapid existential changes by IMPUNITY for crimes, mindless of the price of sacrifice of OWN dear offsprings to birthdefects. We call upon Heart-wise change makers to amplify her unique, heartfelt appeal of “canary in coal mine”, warning of deadly threat through own suffering, to prevent RAPID GROWTH OF MCS(!). Environmental justice worrier Robert Kennedy Jr. (also informed by MCS/Lyme of his child) cited terms of her PowerPoint presentation for ISME Research Commission'2022 on discovered psychological drivers of self defeat, debunking coverup of **preventable** essence of environmental illnesses by profiteers from global threat of *growing pandemic, resulting from normalized toxicants*. Support **Rozalina Gutman's** PAIN-driven wake-up alarm for SOBER PRIORITY for addressing data on toxicants, prevented by illogical governance system, based on unconstitutional(!) IMPUNITY for crimes for public servants & institutionalized by them bribery of political campaign contributions - that may not continue to be the global public HEALTH hazard!, while **remaining UNKNOWN to majority of the public. Help rescue authentic voice** for health of today's and tomorrow's children of exceptional teacher, brain/music scholar & advocate!

(2) Ms Gutman's suffering is also caused by normalized devaluation of her profession of Music Instructor -senseless tradition, kept by primitive minds in authority, non-compliant with brain/music research on transformative impacts of music education. Her book speaks of initiated by Bach, but yet to be won battle for recognition of musician's GIFT for humanity, currently living in disconnect w/vibrational essence of human body & universe. Persecution of music educators had prevented population from developing essential & EXISTENTIAL for ALL(!) skills for harnessing Music instinct for overcoming dangerous spread of unbalanced brain function. Alignment to natural dominance of heart-messages to brain through music education is critical for health/wellbeing, as showed by research by HeartMath Institute (unlike earlier believed dominance of brain-to-heart signals). Heartache informed Ms Rozalina Gutman's awareness of injurious impact from emotional repression, falsely imposed by exams on students of Bach's scores. She had to unearth Heart-centered pedagogy of Bach thru his didactic Fugue in the style of 😊 satirical parody on dogmatic cognitive dissonance, obscured by Blindsight in most didactic aids with significant discrepancies of NO mere mention(!) of dissonance(!) - defiantly emboldened by Rebel-Bach. She stated evidence for global music education crisis, caused by child-endangering, UNLAWFUL Expressive Suppression among many musicians, disabled by its stupefying impacts to grasp Bach's score facts - indiscriminately of their academic titles, acclaim, fame. Ms Gutman's eBook “Paradox of invisible dissonance in Fugue-Parody by J.S.Bach” allows for observation of such collective Blindsights, illuminated by Prisoner of Conscience Bach. Intl Campaign Liberate Bach! aims to alert for UNLAWFUL(!) now exam requirement, remaining(!) imposed on teachers & students for indoctrination into injurious, child-endangering psycho-pedagogical double standard of emotional repression, mindlessly allowed to linger from monarchy regime. Her method of music-embodied self-reflection led to students' prodigious success & was featured at intl seminar/conferences.
