

👊👊 **S.O.S. !! call for urgent help & rescue of Rozalina Gutman!** 👊👊

- author, Internationally recognized piano instructor, multidisciplinary scholar, disabled by Mold-caused environmental illness of Multiple chemical sensitivity (MCS - lost tolerance to normalized toxicants, heightened by CIRS - the gift to humanity's survival) (Open expandable [links](#)). She warns all forces of progress to take to heart the unknown, yet sobering truth from study by *Statistics Canada*, about observed **rapid growth of MCS cases that DOUBLED (X2!!) during only 16 years from 2000 to 2016, from half a million to over a million(!)**. Pause... to translate this shocking data into the vivid picture of agony of your OWN dear offsprings, slated to join millions of MCS-afflicted victims, as their numbers will rise rapidly to pandemic level within just a few decades. 👊👊 And just like today's MCS victims, ➡ they will find no help, instead being **dismissed, ridiculed, cruelly retaliated for mere pleas for help with relevant care & chemicals-free shelter, often leading to suicide**

💡 Ms Rozalina Gutman explained, that **habituation**, caused by **deactivated pain alarms to toxicants**, normalized them in many so called "minimally toxic" consumer products, while their **toxic cumulative effect** is impossible to replicate in labs. Thus, normalisation of toxicants had led to today's environmental illnesses & future birth-defects in offsprings, such as rapid rise of infertility - the trend tracked by 60+ global studies to manifest into Zero Sperm global crisis by 2045(!) (COUNT DOWN by Dr.Swan) = **HUMAN EXTINCTION onset** And intellectual leadership is critical for amplifying the sobering task to grasp the widespread **subliminal sensory complicity** - the key to win the Battle of Mindsets, lost in the past to groupthink Blindspots. 👊👊 **Distinguished teacher's** duty propelled her to use her whistleblower's [authentic advocacy voice for LOVING CARE for voiceless children](#) 👊💖👶 - [already impacted by toxicants-caused genetic mutations, known to result in birth-defects, in addition to cancers, since chemical safety of consumer products is yet to become the TOP priority!](#) 👊👊 *Protect & tap into essential for ALL painful gift of MCS!* 👊👊

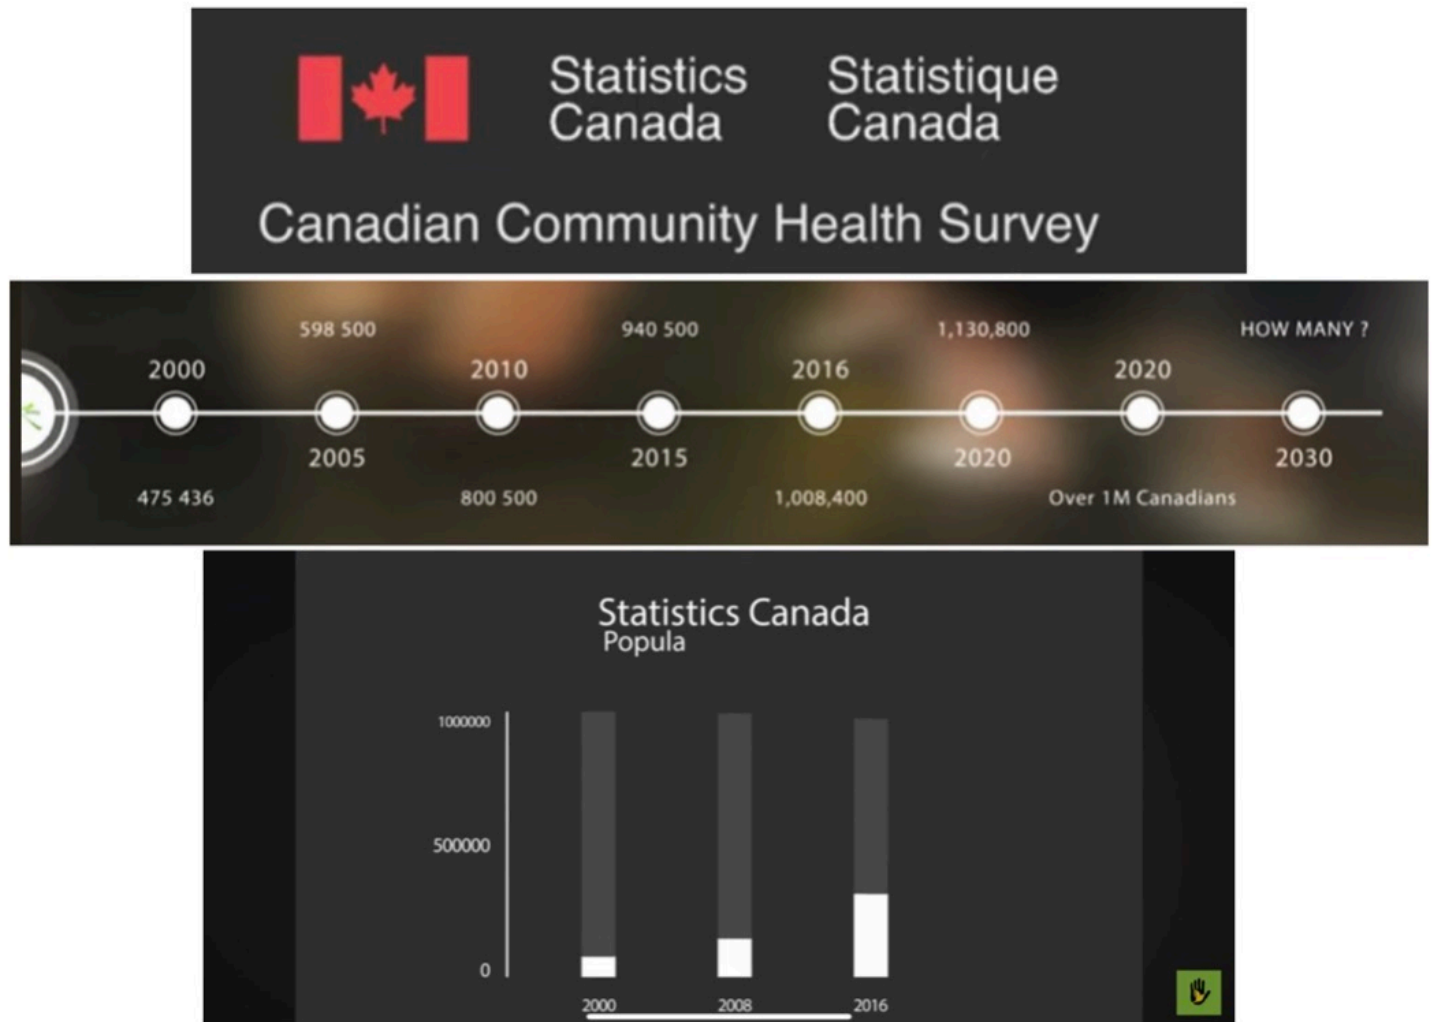

👊👊 **Help rescue** 👊👊 **Rozalina Gutman & her voice for environmental justice:** 👊👊

➡ Besides reaching **MCS victims**, 👊👊 ➡ **please, also spread URGENT distress call among ALL communities and individuals, who are wise to PRIORITIZE over everything else their strive for chemicals-free living. Their wisdom of helping with rescue of the carrier of painful** ➡ **gift of MCS will be** ➡ **rewarded with** ➡ **priceless detection of hard to grasp toxicants for DEEPER DETOX OF THEIR DWELLINGS, often necessary, due to unregulated(!) misleading GREENWASHING of many consumer goods.** 👊👊

Volume 3

Canadian community health survey:
MCS rapidly doubled (!) during 16
years of 2000-2016
by Statistics Canada

The current lack of the easily accessible means in most hospitals for proper diagnosis, housing for isolation from chemical impact and treatment of symptoms is the dire human rights violation! Safeguarding painful gift of MCS with accommodations of removing toxic for all hazards benefits all community members, and is rare chance for detecting and making the communities healthier for ALL.

Support urgent rescue of [internationally recognized music educator, multidisciplinary brain/music scholar, concert pianist, author, advocate for just valuation & health\(!\) of professional musicians in the role of Consciousness Transformers, environmental justice advocate, informed by severe MCS illness](#) - disabled by mold-related immuno-compromised intolerance to normalized toxicants, & left for years with no relevant help! **Rozalina Gutman's health & life are in great danger NOW!** [Crisis assistance agencies](#), lacking sanctity of life, bluntly refused for 3 years to obtain her diagnosis of life threatening, severe [Multiple Chemical Sensitivity \(MCS\)](#) - in retaliation to change from normalized corruption, related to toxicants. Instead, they [conspired together for hideous hate crimes](#), while [cruelly ridiculing\(!\) & dismissing life threatening diagnosis\(!\)](#) - [to coverup willful neglect of urgent, relevant assistance, creating hostage situation for coercion \(+Part2\) & spreading cruel bias, instead of rallying community for compassionate support\(!\) of the forced into living in 2001 collapsing car, insightful & kind Teacher. Even recent extensive](#)  [bleedings, that made no longer "invisible" her MCS disability, didn't end shocking, normalized, cruel & willful neglect\(!\)](#)

While having to escape [whistleblower's retaliation](#) & [antisemitism](#) (after trying to escape it in USSR), Ms Gutman was forced to travel in [desperate search of "Mold refugee" for essential for MCS, but rarely available chemically safe rental for writer's retreat & rare MCS-informed medical help...](#) But after discovering notorious scam, due to being forced to repair old 2001 car, she got [stranded in So Cal since 2022](#), while [having to use it as her only shelter](#) since 2018(!) But, local *homeless crisis-assistance agencies* prejudiced her from relevant help, [conspiring together with power institutions](#) in retaliation to their duty to help disabled individuals, & committing hideous health/life threatening hate crimes: [Lacking sincere concern staff from "People's Concern" & collaborating community clinic bluntly refused \(for 3 years\) to obtain her MCS diagnosis & to use it for RELEVANT help, including chemically safe housing](#). Instead, indisputable evidence revealed their [routines of conspiring with other agencies to concoct fraudulent diagnosis, while using coercion & pressure of hostage situation - to excuse/conceal their willful neglect & to gaslight their victims \(Part1 & Part 2\)](#). The sum of crimes, power abuses, medical fraud, slanderous rumors also included **loss(!) of her functional, shipped from out of state(!), RARE scent-free car** - due to blunt refusals by Federal park rangers to her pleas for help with small space for its additional detox - simple to provide, yet still denied **disability accommodation** ([learn more in Part 1A & Part 1B](#)), followed by bogus court case - dropped, yet made inaccessible(!) for her to attend & represent herself, in response to her call to subpoena video-cams evidence - never provided to her in blunt violation of human & constitutional rights. ([Part 2A & Part 2B](#)) The mere list of multitude of unapologetic hate crimes and power abuses against weakened by disability, vulnerable woman of many virtues is simply too long for the flyer-format (sign up for updates below ). Even her recent extensive  [bleeding](#) didn't awaken compassion among public servants... As the result  **now, due to cold rainy season, Rozalina Gutman is in desperate(!)**

need for help from local/global progressive forces, including other MCS victims - for urgent assistance with chemicals-free blankets, shoes/boots, woolen clothes, temporary shelter(!). Bias of ill-minded and self serving "public" servants became their barrier to grasp & apply for OWN/ offsprings' sake(!) the kindly shared by her, essential for ALL public health information on sobering data, making evident, that **many today's kids would likely grow up to be also among rapidly increasing numbers of suffering MCS victims within just a few decades. All progressive forces need to mobilize NOW! all resources** - to prevent similar **abuses & criminalization of fast rising numbers of unannounced MCS pandemic, with no care solutions from corrupt medical industry. Join Rozalina Gutman's urgent fight** with denial of [current injustice against afflicted by similar illness & lacking tolerable shelter MCS victims \(such as mold refugee Ms Gutman\), being ridiculed and dismissed, instead of help with agonising physical, all-body symptoms of pain, respiratory, cardiovascular, digestive, neuromuscular etc. functions, often leading to SUICIDES...](#)

Support Ms Rozalina Gutman's intellectual victory of grasping evidence for evil scam & systemic injustice towards disabled victims of environmental illness!

Fortunately, caught by Ms. Gutman medical fraud is evident for such false blame of "delusion" of suffering MCS victims - the routine, hideous crime, being committed against disabled by MCS/other illnesses victims, allowing to debunk excusiology trend for refusing relevant help, including detox of residential facilities - unhealthy for ALL, including employees. She underscored the terrible problem of most of public venues, currently inaccessible **to MCS victims (including even no access to most public toilets!)**, warning of resulting **high rate of suicide from denial of the serious problem, rooted in the lack of relevant to MCS tools for diagnosis/care and no housing, designed for avoidance of intolerable toxicants, normalized into the fabric of our life (yet harmful for ALL)**. And due to hopeless corruption at all levels of society, most of conventional rental housing resources had become intolerable for MCS victims like R.G., requiring remediation & at times, complete rebuilding, while most of *habituated to normalized toxicants population can no longer GRASP hazardous chemical exposures, morphing to tolerate them, instead of instinctive healthy rejection*. This subliminal maladaptive conformity to groupthink requires intellectual leadership to comprehend related studies (Asch Effect, Lucifer Effect...) **Environmental justice worrier Robert Kennedy Jr. (also informed by MCS/Lyme of his child) cited terms of PowerPoint presentation by Rozalina Gutman for ISME Research Commission'2022 on discovered psychological drivers of self defeat**, debunking coverup of **preventable** essence of environmental illnesses by profiteers from global threat of *growing pandemic, resulting from normalized toxicants*. **She called for enlisting support for his long overdue for humanity efforts to combat corruption related to health(!)** Her Teacher's duty propelled Ms. Gutman to compel today's adults to recognize, that the public has been kept in the dark about the dangers of **cumulative effect of today's toxic exposures, that is to decrease tolerance to toxicants, in every consecutive generation, leading to pandemic of environmental illnesses - according to data**. That is why, she pleads for help to stop today(!) current unapologetic tyranny against MCS victims, like her, that is also to assure protection for millions of likely future victims of rapidly growing pandemic of the environmental illnesses among today's unsuspecting children - slated to live through the hell of **SIMILAR** lack of mere effort for compassionate care, refused by self-serving public servants and affiliated with them cronies. And invited by **IMPUNITY** power abuses are often accompanied with betrayal of public trust for spreading shameless lies, using witch-hunt strategies for campaigns of character assassination to mislead communities into refusing(!) help of Good Samaritans to MCS victims. But such coverup of own misfit to power chairs with false biases, hate and distrust among other institutionalized incivilities of power thirsty egomaniacs and psychopaths won't stop lifelong torment from birth-defects for their **OWN** offsprings. Forgotten existential meaning of Golden Rule for combating cruelty excuses brought humanity to the brink of extinction.

Due to her health/life being endangered, while her old car/shelter is nearing **complete collapse(!)**, **RESCUE** with unconventional, "outside of the box" solutions is urgent both for Ms Gutman. And it would enable overdue humane attitude towards majority of the next generations, who are unlikely to escape environmental illnesses, already seeded by genetic mutations from many toxic exposures...

Join initiated by J.S.Bach and yet to be won Battle of Mindsets against cruel tradition of persecuting profession of Musician by devaluing and marginalizing music's capacity to optimize brain function - at unaffordable price for humanity!

Another major contributor to Ms Gutman's suffering is normalized devaluation of her profession of Music Instructor -senseless tradition, kept by primitive minds in authority, non-compliant with brain/music research on transformative impacts of music education. In

conjunction with defiant use of paradoxically overlooked dissonance, her Ebook speaks of initiated by Bach, but yet to be won battle for recognition of musician's GIFT for humanity, bound to living in primitive disconnect with vibrational essence of human body & universe. Today, this centuries long, collective self defeat tradition is not compliant with research on benefits of music edu for brain development & is UNLAWFUL Persecution of music educators had prevented population from developing essential & EXISTENTIAL for ALL(!) skills for harnessing Music instinct for overcoming dangerous spread of unbalanced brain function.

And in the course of writing her ebook on paradoxes of the human mind, reflected by music of Bach, Ms Gutman unconverted many serious distortions in biography of **Prisoner of Conscience Bach**, that had been left unknown to millions of his music's fans. Due to unending unfair marginalization and persecution of musicians' profession, Bach was unable to afford legal defense from false accusations, in retaliation to his dogma-defiant innovations and **despite committing no crime(!)**. And his month long, false imprisonment was cruelly calculated to cause his lifelong persecution by unfair stigma of convict, preventing him from gainful employment, to match his unquestionable musical gift. Instead, he was forced to take the least paid and least desirable job of music educator in Leipzig that he tried hard to change, but was unable to - for the rest of his life... After his death, one of his daughters became destitute since her father was impoverished, despite his genius treasured by millions of fans today and bringing millions in revenue to recording labels and publishers today... Bach's biographies rarely reflect on these limitations of genius musician by extreme poverty, as the form of punishment for his musical rebellion that shook cultural conventions of senseless monarchy regime. **However, the stellar example of Bach's defiant dedication to his role of musician with the moral duty of Consciousness Transformer deserves to be celebrated and calls to be matched for his dedication, reflected in TAKEN BY HIM RISK AND SACRIFICE...** And when these details emerged from politically correct distortions of his biography, Rozalina Gutman realized that they are directly related to reflected in her ebook issues of Bach's didactic update on dogma of his time. Reclaimed from distortions Fugue-Parody (part of WTC) reminds that in every hostility act there is nonsensical absurdity, contrary to human essence, serving **as essential tool for using it for trauma relief through musical satire on power abuses against underprivileged victims, like musicians, devalued in perpetuity of time....** However, emotional repression deleted **Bach's use of music against indoctrination into herd-mind** from most publications, that has to be restored.

Familiarity with distorted by political correctness archival records also empowered Ms Gutman to realize historical parallels of "then and now" for **the harmful for brain development(!) tradition of devaluing musicians**, calling it **"incivility from dark ages", unfit to the universal need for self propelled evolution of the human brain through music-embodied self reflection and self mastery!** Her decades long suffering in the hands of criminal minds and abusers had been preventing her ability to quench the universal yearning for utilizing music, as the tool to elevate consciousness... However, during our time the power of Music instinct to transform the mind had been proven both by Bach and by modern brain/music research. And yet due to noncompliance with research, Her fight for life, sadly can over-compete with suffering of her musical idol Bach. This serves as undeniable evidence for ending this tradition of assault on the Gift of Music for humanity, and to pursue inspired by Bach global causes, while utilizing the power of **the unique design of Bach to promote embodied self reflection and resolution of cognitive dissonance**, that had been leading humanity into insurmountable losses, due to dysfunction & moral atrocity.

- **Please, help amplifying Ms Gutman's call to stop routine persecution of musicians by normalized devaluation, marginalization & underpayment!** Help end the evident from suffering of both Bach & and his advocate Ms Gutman, centuries long, yet cruel and senseless tradition of shameless, primitive obstructions of musicians' & music educators' strive to share their GIFT of music for elevating consciousness, yearned so much by humanity, in the face of urgent shift from self defeat mindset - at the core of all rapidly approaching anthropogenic global threats!

SHARE YOUR INTELLECTUAL LEADERSHIP: HELP UNDERSTAND INFO ON PSYCHOLOGICAL DRIVERS OF GLOBAL PUBLIC HEALTH HAZARDS, REFLECTED IN UNPRECEDENTED SUFFERING OF VIRTUOUS WOMAN ROZALINA GUTMAN

Many limitations in her pursuits came at unbearable cost to humanity of preventable suffering among millions of kept in the dark people about the most important asset of theirs and tried offsprings'... It was easy to do, by taking advantage of the Blindspots of the conformity-driven "social brain". Thus, related awareness is the key step to emotional freedom from subliminal enslavement by "herd mind".

- (1) Understanding of widespread **deactivation of pain alarms to toxicity** and caused by this trend warped priorities for defence from the chemical warfare on population have to be recognized as the block to eliminating toxicants by **VOLUNTARY MOBILIZATION FOR CHEMICAL DEFENSE** of all available resources for the survival of humanity. Ms Gutman's unique insight, illuminated by observed ***Bach Sensory Deactivation Effect***, allowed for the answer to the question, that had not been merely posed by brain scientists for decades: **Why was it easy to keep population in the dark about these problems for long time?** Corruption of the system led to the lack of funding for related to such problems research on psychological drivers of dangerous self defeat of permitting for chemical hazards to become inescapable "fabric of our life". But caused by this Blindspot widespread CUMULATIVE effect of normalized toxicants had not been CANCELLED(!). Its hormone disruptions had been already passed down thru genetic mutations, threatening with higher um ere of birthdefects in each subsequent generation Resulting global habituation trend led humanity to the state of "painless" sleepwalking through the fast lane into HUMAN EXTINCTION, forecasted by 60+ global studies(!) to onset by 2045 (or sooner!) (+Watch revealing follow-up by COUNT DOWN's author Dr Swan).
- (2) And yet, there is tangible **HOPE**: **Communities should welcome individuals with SEVERE MCS, inviting them to share precious painful GIFT for IDENTIFYING AND AVOIDING DANGEROUS FOR ALL(!), but normalized chemical hazards in many commonly sold products.** Painful MSC gift for humanity can help with prevention of many illnesses that had been unlabelled as "environmental" by hospital industry, AS IF they are "not preventable".
- (3) **Why is the welcome of MCS victims' guidance on lurking toxicants essential to utilize in all communities?** Because UNCONSTITUTIONAL system of political campaign contributions eroded the key democratic foundations of USA, legalizing bribes to US Legislators, paid to "forget" to require by Law for the SAFETY TEST prior to market entry of all consumer goods.
- (4) **How did seemingly logical individuals in power chairs lost their moral compass for vigilance against safety threats to own offsprings, as the result of systemic dysfunction?** Indiscriminate of top authorities collective Blindspot of subliminal **MALADAPTATIVE SENSORY COMPLICITY TO TOXICITY** warped their **PRIORITIZING ability for guarding with loving care their OWN little dear ones.** Thus, as the result, avoidance of universal danger of toxicants in many goods for millions of consumers was sacrificed to financial mega profits - however, powerless to reverse birth defects in OWN offsprings. In fact, greed is only secondary to the sensory and emotional detachment from reality. So, painful gift of MCS for identifying/eliminating toxic for ALL products is able to reveal EXISTENTIAL FOR ALL goal for rapid change. Humanity has no time to linger, no matter how bitter and inconvenient the truth re corruption is in most parts of society, even including medical industry. Primitive & false valuation of reality, based of profitable outcomes is equally irrelevant for both the wealthiest among corporate executives and the least paid underprivileged populations, when it comes to incurable environmental illnesses and birth defects.
- (5) No disregard of their impermissible(!) CUMULATIVE effect, that cannot be properly replicated in the lab, maybe allowed for so called "minimal" exposures to toxicants. Thus, **unwavering MCS whistleblower Ms Gutman had been calling for NO BUSINESS AS USUAL, incl. directing ALL available resources to prevent fast nearing global scale suffering.** Detached from reality,

pharma-funded research, that leaves untapped the gift of MCS manifested into false standards for health/safety. at unbeatable price of global suffering of millions, while threatening with disappearance of human race (!). Ms Gutman calls for the **true** leaders to raise their voices against idle complicity & submission to culture of moral atrocity of humanity's self-extermination, as the counterpoint to WARPED PRIORITIES of most elected/appointed officials, discouraged from rapid existential changes by IMPUNITY for crimes, & mindless of sacrificing OWN dear offsprings to birth-defects.

- (6) In the face of fast unraveling pandemic of environmental illness, along with **onset of human extinction, caused by preventable anthropogenic impacts, all scientific approaches must be revised with the focus on this indiscriminate global threat for all. No academic or popular science publication or presentation may shape collective consciousness without integration of the subject of the impacts of neurotoxic chemicals on human consciousness (in addition to physical health)** from normalized hazards. Without such updates on existential urgency of realignment of all academic pursuits, recycling of outdated concepts in print, media and other forms of presentations is obsolete and distracting from urgent, global focus on survival

 That is why, we call upon Heart-wise change makers to amplify the unique, heartfelt appeal of MCS victims, like Rozalina Gutman, acting as “canaries in the coal mine”, while warning of deadly threat through own suffering, in order to prevent **RAPID GROWTH** of widespread suffering among millions(!). 

Support also other urgent global causes, illuminated by Ms. Rozalina Gutman's unique perspective - otherwise invisible & propelled by her, despite all her hardships(!)

Related to cruel denial of MCS illness & painful gift

- Ms. Gutman suffered from multiple cases of retaliation by first responders/medics to her **painful intolerance to their fragranced hygiene products. Help to assure for fitness to duties of first responders, by banning their use of fragranced/chlorinated products, including cleaning aids**
- **Crisis and disability assistance agencies** must have personnel with personal/family members' MCS experience and mandatory certification for awareness about higher than average vulnerability of victims of MCS disability, including voluntary avoidance of fragrant/chlorinated personal care/cleaning products for body/car/office/home (toxic for ALL(!), but normalized, undisclosed to public)
- “Mold refugees” who suffer from MCS may not be denied medically necessary, special chemicals-free housing, in violation of fundamental human rights, while often forcing them into suicide

Related to involvements with profession of music education

- Heartache informed Ms Rozalina Gutman's awareness of injurious impact from emotional repression, falsely imposed by exams on students of Bach's scores. Support her noble strive to warn against this injurious approach to music of Bach, striving to help other musicians learn from her painful lessons, by breaking apart from somatic challenges of of collective Blindspot individuals in authority chairs. Contrary, Alignment to natural dominance of heart-messages to brain through music education is critical for health/wellbeing, as showed by research by HeartMath Institute (unlike earlier believed dominance of brain-to-heart signals). And she had to unearth

Heart-centered pedagogy of Bach thru his didactic Fugue in the style of 😞 satirical parody on dogmatic cognitive dissonance, obscured by Blindspot in most didactic aids with significant discrepancies of NO mere mention(!) of dissonance(!) - defiantly emboldened by Rebel-Bach.

- *Presented by her evidence for Blindspot for [global music education crisis, caused by child-endangering, UNLAWFUL Expressive Suppression among many musicians, disabled by its stupefying power to grasp Bach's score facts - indiscriminately of their academic titles, acclaim, fame.](#) Ms Gutman's eBook "[Paradox of invisible dissonance in Fugue-Parody by J.S.Bach](#)" allows for observation of such collective Blindspots, illuminated by innovative teacher and composer.*
- She also called for urgent changes at the root-cause of [disconnect of educational priorities for skills of self-reflection on evolutionary young human brain, enabled best by MUSIC-embodiment, that everyone deserves to learn to harness, since it's not some luxury.](#)
- *Also please support **Ms Rozalina Gutman's written proposal for illuminating compliance with research on benefits of music education - essential for ALL** in urgent overcoming dangerous levels of underdevelopment of the brain and related absence of integrative consciousness (not implemented since Intl Seminar'2022 for ISME Research Commission). And earlier, she led international symposium on advocacy through compliance with brain/music research, at the world conference for is my in Beijing, upon invitation by vice president for arts and music comedy at Ministry of education of China. In addition to pioneering content among other colleagues involved in music education research, Ms Gutman showed her dedication to the subject by taking incredible risk after left unresolved heart attack - she made challenging decision to fly to another continent during 10 hours over Pacific Ocean with no place to end in case of emergency*
- **Support proposed by Rozalina Gutman integration of concepts of vibrational essence of all matter in our universe, including human body - into school textbooks, including training of all musicians.** Music education has to be broadened by integrative approach to music's essence & applied for realignment of human consciousness to this primordial paradigm in all parts of society - to elevate consciousness & prevent fast rising global mega-crisis.
- **Join internationally recognized, wise & insightful teacher Rozalina Gutman in her urgent call for promoting universal access to all for learning of the skills for harnessing driven by joy-neurochemicals Music instinct - for optimizing brain function at peak performance.** Support promotion of training the public in applied uses of music, including music-embodiment for such complex aspects of the human mind, as resolution of cognitive dissonance and emotional detachment - the key psychological drivers of lacking human life's sanctity, deficit of compassionate & loving care for self and offsprings, worsened by hormone disruption, causing self-defeating global threats, incl. undisclosed for decades pandemic of environmental illnesses.
- Amplify with your OWN voice Rozalina Gutman's URGENT call for protecting many students of Bach's scores from **required by archaic & FALSE exam standards task upon teachers of indoctrination into expressive suppression in Bach, proven by voluminous studies to cause serious health calamities.** Today it is unlawful to require piano instructors (and other instruments/voice teachers) to force upon students child endangering, psychologically damaging psycho pedagogical double standard of typewriter sound on dynamically rich piano. Today this pedagogical relic from monarchy regime, is UNLAWFUL, since promotion of stupefying self defeat of herd instinct had been also made evident by Bach's own didactic aid, created to oppose this dogmatic teaching style during his time. Bach's unique design revealed that today's ban on natural dynamics revealed its stupefying impact, disabling the skill for reading core facts, failing to identify dissonance by many musicians, indiscriminately of academic titles, fame and acclaim, as observed in Ms Gutman's eBook "[Paradox of invisible dissonance in Fugue-Parody by J.S.Bach](#)".

Bach brings HOPE with his hands on practical solutions 💡 to evolutionary young human brain that continues to misfire, due to the evolutionary relics and related dysfunctions, that Music instinct helps to mediate, especially for those, who master skills for harnessing its joy-neurochemicals impacts.

Please, join ambassador of initiated by her Int'l Campaign Liberate Bach!

www.paradoxOFinvisibleDissonance.com, for alerting millions of students of Bach's scores of UNLAWFUL(!) exam requirement, still requiring teachers to indoctrinate students into child-endangering psycho-pedagogical double standard of injurious, stupefying emotional repression, mindlessly allowing for the relic from monarchy regime.

Use CONTACT FORM via this link ➡ to **GET IN TOUCH now!** **Help SHARE this SOS !!** call for **urgent rescue of Rozalina Gutman**, tirelessly reminding: ***Don't let toxic conveniences lead you to cancer & force you to sacrifice dear offsprings to lifelong agony of birth-defects!***

On behalf of your voiceless offsprings and personally we cordially thank you in advance for contributing to **urgent rescue and desperate need for support for retaliated whistleblower Ms Rozalina Gutman**, with unique capacity to grasp indisputable evidence to stop normalized routine of scams/hate crimes against suffering carriers of painful MCS gift for humanity, like her...

Your offsprings will be also grateful to you for doing your best to carry on this pain-informed environmental justice advocacy call for chemical safety of communities, driven by loving care for offsprings 🦊💛🧡, based on research data on rapidly(!) growing, yet hidden by corrupt medical industry MCS pandemic, that is to afflict MILLIONS, leaving fewer healthy people, able to take care of the sick within just a few decades
