

Surviving as the hostage at Malibu Park

urgent release of
VOLUME 3 of the sequel, based of the
facts of Police report for
THE INCIDENT # LHS0191 July 5, 2025 Malibu

Biographicals

by Rozalina Gutman

PREFACE

Survivor's Guide for grandchildren of
today's adults, incapable of parental
love and defense from toxic
conveniences during
COUNTDOWN2045

This book serves as author's

Rozalina Gutman's **urgent and desperate S.O.S. call for rescue and help as well as the urgent warning about collective Blindspot for priorities, clarified through perspective of the Battle of Mindsets:**

**Primitive, shallow and hostile in yearning for dominance at any cost, hiding under
the manipulative mask of civility,**

VS

**Integrative, egalitarian and capable of grasping complexities of interconnectedness
of our Universe, earned through rigorous self growth practice**

Rozalina Gutman also recently released her new ebook
**PARADOX OF INVISIBLE DISSONANCE IN
FUGUE-PARODY BY J.S.BACH,
providing TEXTBOOK CHANGING
DIDACTIC UPDATE**

**on flawed didactic aids on Bach's legacy &
observed evidence for the textbook changing sensory
augmented data for the deeper understanding of the
psychological drivers of inner mechanisms of SELF-
DEFEAT patterns, driven by maladaptive subliminal
conformity to *groupthink (Asch Effect)*, *authority pressure (Milgram Effect)*, *culture of moral atrocity (Lucifer Effect)* -
the music-embodied observations and depth-reflection, that provided the
framework for grasping the root cause for complicity to preventable
environmental toxins & *priority* to avoid them - **DEACTIVATED PAIN
ALARMS TO TOXICITY****

Details on ebook download at www.ParadoxOfInvisibleDissonance.com

We are grateful to the celebrities and influencers, who support under-publicized good causes, advocated by Rozalina Gutman include

Conductor Gustavo Dudamel,
Psychology researcher, best selling author, who coined term "Flow" Mihalyi Csikszentmihalyi (Prof. Flow),
renown producer Quincy Jones,
conductor and pianist Vladimir Ashkenazy,
renown pianists Emanuel Ax and Mark Andre Hamelin,
best selling self growth author Deepak Chopra,
VP of Music/Arts Committee of China Education Ministry Ms. Yan Ruimin,
President and CEO of Commonwealth Club of SF, Dr. Gloria Duffy
Honorable Speaker of the USA House Nancy Pelosi,
singer and conductor Bobby McFerrin,
violinist and conductor Vladimir Spivakov,
Russian ballet dancer/choreographer/producer Mikhail Baryshnikov, etc.
among many others - visit now and again for updates www.CHARISMAfoundarion.org

Brianna + Nurse Cady
ETA 10:30 am 7.10.25
Brianna Newitt Clinical Social Worker People...

Good morning. I know you have many concerns right now. I've coordinated with Jimmy and I will be coming today with Christina, the medical provider from VFC. I will provide her with the medical records from Dr. Sullivan. Unfortunately, I am no longer able to follow up with City Council. They reached out to my higher ups and stated it was not an appropriate use of the contact. However, I am happy to assist you in writing your own letter to her. Jimmy has reached out to another contact to see if there's a solution with your car.

What time do u plan on coming? Is Cristina a med doctor? Aware of Fragrances free needs?

We will be there about 1030. She is a physician assistant, which is essentially the same as a doctor and yes, she is aware of fragrance free.

I'm not sure what is inappropriate in such advocacy ...? Haylynn referred issue to city manager etc - send your amendment THERE! Since now hostile lunacy is in progress again - I was blamed in refusing to go to hotels and shelters by code enforcement who stood next to my car windows despite my explanation of inability to close them on order to avoid fragrance of

Fraud, unmatching patient's recording of med appointment

Office Visit - Jul 10, 2025

with Christina Cady at VFC 604 Rose Homeless Services

Notes from Care Team

Progress Notes

Christina Cady at 7/10/2025 5:00 PM

OUTREACH VISIT

Outreach Team: TPC FSP
Case Manager: Brianna 213-728-5041

SUBJECTIVE:

Rozalina Gutman is a 59 year old female presenting for Chief Complaint

Patient presents with

• Anxiety

New pt to FSP but still COS as she refuses to sign intake paperwork for now. Very worried about her condition of Multiple Chemical Sensitivities, very debilitating and is the reason she cannot move anywhere else except to stay where her car is parked at Malibu equestrian center. Here she has access to fragrance free bathroom. Paperwork she needs to sign also has fragrances

Fraudulent diagnosis entry (8:30am) prior to appointment 10:30am

After Visit Summary

Rozalina Gutman DOB: 6/11/1966

7/10/2025 8:30 AM

VFC 604 Rose Homeless Services 310-392-8636

What's Next

You currently have no upcoming appointments scheduled.

Today's Visit

You saw Christina Cady on Thursday July 10, 2025. The following issues were addressed: Physical effective disorder, current episode needs, current episode severity unspecified; Coronary artery disease involving native coronary artery of native heart without angina pectoris; and Homelessness unspecified.

Your Medication List

as of July 10, 2025 11:59 PM

You have not been prescribed any medications.

3. Homelessness unspecified

Overview:

Living in car in Malibu, currently parked at Equestrian Park

Car is broken and likely will be towed tonight by the City

We offered to help tow it to a different location on PCH to avoid impound but she will need to sign paperwork first to do so, she is refusing

Assessment & Plan:

If pt refuses to sign FSP intake paperwork, then would be a good candidate for HOME team referral

No follow-ups on file.

Christina Cady, PA-C

The end of clinical notes by nurse Cady

▲ PREFACE

The note about urgent manifestation of this DRAFT version of Volume 3 of *Biographicals* by Rozalina Gutman, in context of her findings of self defeat patterns and their overcoming through music-led self reflection and self growth

The idea for uncommon publication of *Biographicals* was propelled by recognition of the desperate need for sharing information of existential significance, by providing life examples for illustration of the author's findings about deeper understanding of the complex concepts of unconscious mind. And one of its key urgent purposes is ***creation of the global discourse on hardly identified subject of observed with much depth and clarity pattern of subliminal self defeat, resulting from collective Blindspot and effecting every user of evolutionary young and still misfiring human brain.*** This intellectual achievement of Rozalina Gutman allowed for the deeper understanding of the inner mechanisms of self defeat patterns. As the result, the root psychological drivers of ***the variety of self destructive behaviour*** became easier to understand and address for seemingly "unsolvable" problems, that had been earlier tackled in the case studies for the textbook classic concepts of social psychology of maladaptive conformity to the subliminal pressure from groupthink(Asch Effect), authority pressure to lower moral standards (Milgram Effect), culture of moral atrocity (Lucifer Effect),

And in turn, it allowed for this level of ***deeper grasp for the obstacles to prevention of the rapidly approaching global threat of the explosion of the suffering among vast populations from staggering rise of ENVIRONMENTAL ILLNESSES,*** commonly left unlabelled as such by medical industry. It also helped to understand the decades long lack of priority for spotlighting the data (below) on these existential for all issues and instead, hiding them from the public, at the unbearable for humanity price... Discourse on such subject had become most critical now and like never before. And it demands for ***the involvement of the top influencers - capable to set the example of prioritizing the issue over any other tasks on their just to do lists and schedules. And the force of the top media has to assure the reach of various segments of society, in order to raise awareness and build self mobilization along with raising the sense of personal commitment to begin addressing the lack of instinctive awareness of the existential problem - due to DEACTIVATION OF PAIN ALARMS TO TOXICITY, that comes down to reawakening to the actions, based on self compassion and loving care for offsprings.*** And in this context, Ms Rozalina Gutman's ability to identify these psychological drivers brought the new depth of understanding, thanks to the recently discovered by the author aspects of the subliminal mind, that had been observed as self defeat and harm of the evolutionary relics of the human brain and their mediation through music-based applications for learning the skills of self reflection and self growth. And harnessing of these transformative impacts had been tracked by brain scientists, linking them to ***joy-neurochemicals involved in Music instinct.*** Her spotlight in previous publication had been focused on the educational applications for self reflection and self growth, based on music embodiment, that provides high efficacy solutions, and yet - had been paradoxically left out from the didactic aids and from educational policy creators and curriculum designers. She observed this trend through sensory augmented data based on records and books on interpretation of Bach, realizing the discrepancies of teaching aids with the

approach, used by the timeless genius and innovative teacher evidently misstated in many textbooks¹. *One of the most concerning subjects, where her discoveries can make profound global impact, is the realm of self defeating nature of anthropogenic impacts, that are referred as the loss of the clear awareness “environmental insanity” - rightfully so, since it resembles various definitions of the medical term “insanity”, while involving various actions (or the lack of any), that contribute to self demise (and harm to others) in the realm of anthropogenic toxicity, referred as the state of essential for existence environment.*

Only most recently majority of consumers were allowed to begin to learn from investigative media about yet to be estimated dangers for their own health and for the birthright, health and life of their offsprings, caused by previously concealed from them facts about mass exposure to the illegally legalized presence of harmful toxicants in water, air, food, and likely still surprisingly for many consumers - in many common consumer goods in their dwellings, that had been impacting them. And, along with that, the subject of awareness of the resulting genetic mutation, that their children may experience, and then, pass on and on to the next generations in the forms, that we can not merely predict, began to emerge as the concern among at least some part of population, resulting in the rise

of **environmental justice attorney Robert F Kennedy Jr. to the post of Secretary of HHS²**. However, most people (sadly, including many medical professionals and researchers), are yet to recognize, that along with the avoidance of the disclosure on these harms, our society and our medical system are yet to come to the point of addressing the urgent need to face the logical consequence of the longtime institutionalized denial of the need to offer **relevant** medical care for the outcomes of this still left largely uncurbed catastrophe of environmental injuries, that isn't simple to mitigate without **the search for the relevant, but yet to be widely available means of expertise**. (And since many people remain unaware, we provide some brief information on the related subjects here for navigation.).

However, until this response to the raw pain and suffering, the previous publication/presentation by the author had not brought into the spotlight even more shocking the fact of the system, that contributed to the creation of this global problem, while it *still prevents for the incentives for overcoming it despite the urgency. It must be identified in this context*, since it results in the remaining mental inertia for innovation in the form of the entitlement to **IMPUNITY** to public servants for the crimes of harm and misconduct of mistreatment of their sponsors-taxpayers. This unconstitutional invitation to resent the change and avoid innovation, along with committing the acts of retaliatory crimes, that had been engrained into the logistics of facilitating practical aspects of all parts of our democratic state, serves as the in visible inner barrier for the incentives for the much needed rapid integration of innovations of any kind, including in the field of urgent assurance for the very survival of our human species, that is in question within just a few generations, along with the threat to the personal health... However, just the contrary need for

¹ She expressed her admiration for his still innovative method by honoring him in the name of discovered by her **Bach Sensory Deactivation Effect**. For more details go to the Addendums for this ebook: www.ParadoxOfInvisibleDissonance.com .

² RFK JR cited the terms of multidisciplinary presentation by Ms Gutman created upon invitation by the chair of ISME Research Commission'2022. (See “About the author” section)

higher accountability had been proven by the research on the so called “social brain”: Our instinctive conformity to social influences demands for MORE SUPERVISION, but not less, when it comes to the methods of governance. And the effective methods for regulation of this aspect with compliance to well known research on conformity to authority and the related danger of creation of culture of moral atrocity are critical for the very sustainability of our human race, that had been left for long time with **no incentives for overcoming the inertia of brain plasticity that allows for habitual comfort zone** of the removed from reality bureaucrats in their cubicles in the chairs of decision makers. Such detached concern vs heart felt empathy leads to misuse of power for ruling over our lives from the position of denial of the reality for self and others. This privilege for having no incentives for being merely aware of such instinctive mental problems as self addiction to pathological mental patterns, resulting from such instinctive evolutionary relics of the human mind, as herd instinct, Fight or Flight/Fright instinct, tribal instinct, patriarchy instinct etc. had been at the core of most of humanity failures, despite the official fall of monarchy. The need to curb the abuse of power with no moral barriers to micro-aggressions with life threatening impacts on the disabled people, based on privilege for cruelty over less privileged or completely underprivileged victims of abusers, had been made visible as the key to propagating culture of moral atrocity through well documented by research rather shocking revelations from the *Stanford Prison Experiment (Lucifer Effect)*, showing the evidence on how seemingly decent people turned evil. Such demand for the compliance to its findings of all institutions is the key to addressing the hidden driver for the ongoing failure to begin at least now the long overdue campaign for tackling the indiscriminate global threat of environmental illnesses, that majority of population is yet to become aware of, as the result of the mindlessly legalized toxicity, allowed to lurk in the form of commonly used consumer goods in everyone’s homes. Impermissible toxicants had been allowed to become the fabric of our life during past generations, as **their subtle impact had become hidden from the morphed to harmful concentrations sensory perception of most people, irrespective of their educational and career accomplishments, social status, cultural background - due to multigenerational global trend**. And these forces of conformity to the culture of moral atrocity are the root cause for no healthy alternatives for all, resulting in the staggering collective Blindspot of gradual habituation of the majority of population along with the loss of the sense of **the essential biological need, human right and existential top priority over any other social obligations - the fundamental conditions for healthy existence and productive living**. This collective maladaptive morphing of our social social brains had manifested unrecognized additional challenge in detecting toxicants, allowed to be at the so called **“tolerable for health” minimal amounts of permitted toxicity, that is impossible to test accurately for the forgotten by the sciences CUMULATIVE effect, and it isn’t possible to replicate with accuracy in labs(!)**.

And contrary to the other threats to our health and life safety, that we perceive through existing **instinctive pain alarms** (toothache, skin burn etc), the increasing presence of many **chemical toxicants had become hard to grasp for most people, due to the elusive trend of habituation in unconscious mind - the subliminal morphing and deactivation of sensory perception under the pressure of conformity**. (It had been the key contributing factor that had been observed with stunning clarity in the classic groupthink studies for Asch Effect, forcing subjects of experiment to deny visible discrepancy in visual patterns under conformity to the groupthink pressure, due to subliminal pressure of the fear of being an outcast of the tribe.)

This awareness allows to grasp the importance for everyone to recognize the outcomes of the sobering reality as **the result of having to live in the toxic soup, leading to our lowered**

prioritizing capacity for avoiding toxicity, propelled by DEACTIVATED PAIN ALARMS TO TOXICITY. It determines self defeat in our decision making, especially when we let down our conscious awareness and healthy vigilance, due to being distracted by multitudes of other social obligations and stressors. And, this is one of the keys to understanding of **the existential significance to PRIORITIZE intellectual vigilance for practical diligence in avoidance of the products, that are proven to be harmful by the research.** However, the truth of the complexity of the challenge is that many products have no disclosure on the materials of hazardous nature, due to lacking in USA legislation of the law to require for safety proof of the products prior market entry, that is contrary in place in progressive EU and a few other countries). And intellectual accomplishments make no difference among academia members, who are as disabled in such sensory detection capacity, sharing with the rest of population this limitation of decision making by the widespread sensory disability in detection of hazards among the majority. However, this does NOT cancel the remaining cumulative effect, that had been unwisely dismissed for a while.

Protect the rare carriers of the painful gift of MCS from the wired retaliatory response to the messengers of change and inconvenient truth - essential to healthy life today and for securing the chance of life in the future !

Luckily, in the midst of the hopelessness of the widespread spread of habituation, there is the way to continue to gain the sensory response to toxicity. Among the limited by sensory-disability majority, there ARE rare individuals with various degree of **higher than average sensitivity to toxicity**, who had NOT been effected by this maladaptive trend for various reasons. This painful and very limiting condition is called MULTIPLE CHEMICAL SENSITIVITY (MCS by). Some among “hyper-sensitives” experience **the early stage of MCS, that is commonly mislabeled as “allergy”**, that medical industry does not bother to address at its root cause. And instead, many pills sold to mitigate just the symptoms, instead of searching and mitigating for off-gassing toxicity products or/and other sources of toxicity in buildings, food, water, air etc. while large amount of profits are made from suffering. However, there are individuals that stand out from the vast population effected by “allergy” level response (although rapidly increasing, due to the rising toxicity), who have much more acute and life endangering forms of MCS and continue to possess such painful, yet invaluable for humanity gift, allowing to detect and avoid the substances, that cause cancers, birth defects and many other health calamities, proven to be linked to the cumulative effects of toxicity.

The logic and common sense demand for making all possible efforts for these individuals to be treasured by the society for this invaluable for the humankind, rare, yet painful gift and to be guarded for the reason of compassion, as well as due to being indispensable for preventing existentially dangerous Blindspots by the majority, in order to be used as the source of life-saving advise. But the reality of the evolutionary young human brain manifests into often contrary to the beneficial and effective outcomes, due to the evolutionary inheritance of subliminal aspects of the brain, leading to the Blindspots for practice of subliminal self defeat and harm - especially common, if left with no awareness...

Indeed, sadly, human history proved, that abuses of power by ill-minded individuals combined along with the pressure of groupthink, had allowed for those, who possess **better than average cognitive capabilities**, to be retaliated with vicious hostility, due to effective conspiring

strategies for misleading the public to label these catalysts of change, as “heretics, lunatics, woke, troublemakers, disrupters of peace hyper vigilantes etc.”, with proactive efforts to harm them in retaliation to being trailblazers with distinct intellectual leadership. If the valuation of the gift of MULTIPLE CHEMICAL SENSITIVITY (MCS) in rare individuals would be allowed to be continuously mistreated in disregard to the history lessons from terrible losses for humanity caused by mindless practice of cruelty against the individuals subjected to torture and burned at stake for proclaiming that the Earth is round, today, due to global vastness of anthropogenic threats, humanity cannot afford to lose such voices of advocacy that each of needs and deserves. Without following the lead of these sensory-gifted and driven by pain advocates for humanity, our race of Homo “Sapiens” will be devastated by the complete loss of this KEY-sensory capacity of pain alarms to toxic hazards, that had been informing our self preservation instinct and allowing to sustain life for millennia before the launch of unannounced chemical experiment on the population, while without asking for such consent.

Today, the lack of protections from sometimes intentional efforts of harm and even hostile acts to endanger the life of existential for humanity gift of MCS-carriers with similar cruelty, while preventing the rest of humanity from tapping into their higher than average wisdom about protecting the very human life from being endangered - as forecasted by 60+ global studies on approaching infertility crisis... And at this point, it had become critical to gain proactive stand in defending these individuals in the possession of the painful gift with the **above average capacity to grasp the COMPLEXITIES of challenges and positive developments aof today’s chemical safety situation.** In fact, being vocal about their protection of their health and life and for preserving their gift had become the duty of all progressive forces, due to the benefits of preserving millions of human lives from suffering and painful collapse.

And this publication allows for invaluable demonstration of the shocking evidence for that, while calling for THE URGENT ACTION TO HELP PROTECT THE SANCTITY OF HUMAN LIFE BEING UNDER THE SIEGE, allowing for the rescue of both the author and for environmental justice of rare other people with such uncommon gift of MCS!

The ignoring of the problem, due to the lack of common knowledge about this rapidly growing illness is rooted in the avoidance of medical and pharma industry to admit the origins of this and many other illnesses in chemical pollution, being the root cause and the source of many illnesses. And this lack of information needs to be overcome by person to person sharing of info, since it is unlikely to be solved by the official public health agencies in the near future. It is simply due to the fact, that the conventional medicine is yet to establish protocols for diagnosis and treatment for the causes of such condition, that had been recently and finally recognized as disability. And the victims of the acute stage require for specialized, no chemicals housing, that is often critical for preserving life - by isolation from life threatening vastness of toxicity.

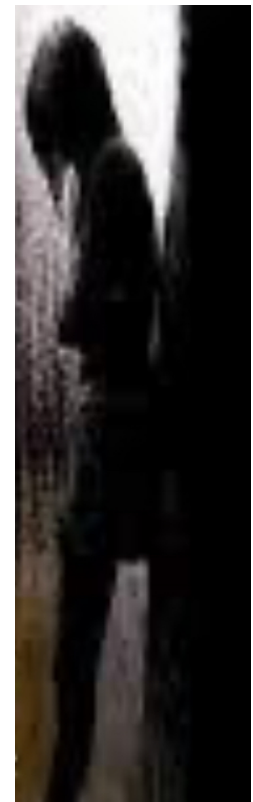

Recently emerged intellectual leader in environmental justice Rozalina Gutman needs urgent involvement, help and support in the face of the blunt assault of conspiring agencies in cruel retaliation to change !

Listen and share her inspiring call for action: <https://share.google/jB1iqqkE33OgcANSq>

And that is what the readers of this urgent publication will be likely very surprised with, as they will get the chance to witness the presented evident facts of the biographical events, that involved very trying moments for Rozalina Gutman, handled by her in stride, while having to overcome the unprecedented hardships, but still demanding for the urgent involvement of the compassionate advocates for human rights protection, due to long time avoidance of any help with disability related assistance for this embattled fighter for the access to equal development of the mind for ALL through the means of music and the Arts... Unfortunately, the sinister individuals with underdeveloped minds, charged with duties to help in crisis, defined her as the “unworthy” to live and have a chance for recovery from her very debilitating illness, caused by mold toxicity. She was forced to prove that commonly, yet unfairly marginalized by the society(!) music instructor and the multidisciplinary scholar deserves a chance of life and needs the assistance for that, including not too complicated, but **“out of the box” solutions (actually, beneficial to practice for all)**. But sadly, despite her protective advocacy for music education for ALL, many people are unable to grasp the unique and invaluable significance of such pursuits... Thus, it is important to state at this point, that the reliance in such task of making it clear had been upon those a few, who have the same level of sophistication in this area and the ability to grasp and to regard with clearly expressed esteem her uncommon achievements in the realm of brain advancement through music, initiated by visionary of all time Bach.

But at this point of being devastated by decades of having a misfortune to deal with individuals with entitlement for practicing incivility of denying her the fair, but relevant treatment and the accommodations for disability,
THE PLEAS OF ROZALINA GUTMAN FOR THE URGENT HELP DESERVE TO BE HEARD NOW, WITH NO FUTHER DELAY, AND BEFORE IT MAY BE TOO LATE!

On the other hand, her fight for her life resembles many **commonalities of the plight of every severely disabled person**, remaining at the mercy of often senseless bureaucratic machine, populated by zombified people acting like robots - as made to be visible with below evidence by their advocate suffering from existential threats of her own. Just like most of people, this devalued by society, yet internationally recognized music educator, multidisciplinary scholar, author and the woman of many virtues had seemingly normal life and could never imagine to be knocked out by MCS disability, left with no means to overcome it, and instead, became the target of conspiring cruel criminal minds, who set out to subject her to the ordeal of the life endangering threats to her vulnerable health, compromised by untreated mold toxicity due to the lack of relevant methods of diagnosis and treatment in the hospital system along with irresponsible denial for the transitional housing for MOLD REFUGEES, known to need chemicals free housing for effective recovery. In addition to having to fight for her physical survival with no help from the crisis support agencies, Rozalina Gutman had to face the task of debunking skilfully manipulative and life threatening *scam* of misleading coercion of the vulnerable victims into self defeat by the conspiring members of the ring operation, involving seemingly nice public servants and their affiliates of several public service organizations.

HELP CELEBRATE DEFINITIVE INTELLECTUAL VICTORY OF ROZALINA GUTMAN, YET STILL UNDER THE SIEGE BY MALICE, SUFFERING FROM LIFE THREATENING HUMAN RIGHTS VIOLATIONS !

However, despite the pressure with deliberate creation of torturous life challenges, Rozalina Gutman managed to have **intellectual victory in her “David and Goliath” battle** to overcome manipulative coercion. And she credits this to gaining her mental resilience to trauma, mental superiority and cognitive strength to be able to grasp misleading coercion strategy by the collective cronies’ machinations to being empowered by rediscovered by her Bach’s didactic composition in the form of Fugue-Parody, that revealed his teaching innovation for developing the tools for self reflection and self growth, helping to build survivor-attitude for overcoming retaliation to intellectual leadership *of musicians - the individuals with proven by research more complex structure of the brain, providing inner facility for being effective Consciousness Transformers*. She credits this creator of some of world’s most *sophisticated and prolific* music and Bach’s use of sarcastic musical humor, employed as the tool for shielding from the traumatic impacts from cruel and mindless power abusers, unaware of being consumed by cognitive dissonance - harmful and also self defeating(!) Most of intellectual leaders, who are banned by the privilege from seeing and addressing the suffering from the glance of this insider and the member of the least privileged part of the society, would have many eureka moments during this unconventional, filled with evidence of raw suffering offering of facts for examination of textbook changing impacts, bringing solutions to many thought to be “unsolvable” problems that are yet to be applied in multitude of scholarly endeavours... That is why, this narrative is about to enlighten many progressive leaders, providing the exemplary lessons for fostering the citizen’s duty to answer the calling, despite the great personal risk in the growing to be inescapable duty to fight the Goliath of the oppression mechanism and its enablers at the time of the pivotal point in human history - the indiscriminate task for facing and self mobilizing to fight for personal health and humanity’s survival, that had been under the siege of the cruel proponents of the normalized hazardous toxicants in multitude of consumer products. That makes ever more precious Rozalina Gutman’s heroic and worth following commitment of using intellectual superiority over hostile and misfiring brains of guilty of crime primitive, yet enabled by the **public health hazard of impunity for public service providers**. In concert with **political campaign contributions** that legalized bribery of legislators, these unconstitutional distortions of democracy are the means, that brought humanity to the brink of extinction and remain as the key barriers for based on SELF COMPASSION AND LOVING CARE FOR OFFSPRINGS the utmost urgent implementation of the all-society measures for self mobilization of all available on the globe resources for preventing the fast approaching state of society-wide suffering from the failure to ban toxic conveniences, impacting millions of human lives during the fast closing window of still remaining opportunities.

Among such intellectual victories is her SELF EVIDENT presentation of **the detected fact of discrepancies of the time stamps on the fraudulent entries in her medical history with the**

deliberately inflammatory verbiage, calling for actions by other unsuspecting medics, first responders, court officials, etc. that are known to be deliberately injurious to people with MCS condition. They easily reveal the bluntness of the encountered malice of the ill-minded

retaliation to universally critical change, that is also vital for her medically necessary accommodation for her survival with diagnosis of MCS. By all means, such pages with shared painful experience, containing the account of victory will be quite satisfying to witness for readers. However, we have to be clear: Since this isn't a fiction about imagined characters, but instead, it is the reflection of the reality that is stranger than fiction, these facts DEMAND FOR VOICING THE URGENT SUPPORT AND MAKING THE CALLS FOR RESCUE, in order for her to succeed in her desperate efforts to survive in the unequal and unending involuntary Battle of Mindsets, involving limited minds, that set out to both cause much physical pain and to define her, as unworthy of the chance for life through making relevant to recovery from her

illness steps. This token of already achieved *intellectual* victory by this carrier of the inconvenient truth for combatting the cruel and absurdly self incriminating deception is one among the variety of other indisputable evidence for the premeditated crime. But due to the habit of practicing institutionalized power abuse, even this evident presentation by Rozalina Gutman for her cruel harassers about being caught in undeniable crimes, was not met with gratitude and the good will's demonstration. No, instead, their criminal minds were not moved to changing voluntarily their familiar *modus operandi(!)*: *The written directions in the form of medical fraud, that mislead every reader of these flawed medical records into unfair prejudicial acts of intolerable for MCS malice towards Rozalina Gutman, had been left with NO CORRECTION, demonstrating intention to deceive into harmful crimes also OTHER unsuspecting individuals - by enacting their evil aspiration to cause potentially lethal damage with irrelevant to her medical needs of vulnerable health(!)*

That is why, the public deserves to know of this vivid example of the growing need to fight with most pressing urgency such forces, lurking in the shadows places of he society, that had remained unidentified and unknown to many, despite being the shared systemic misuse of public resources, turned into serious public health threat to society. Under no

circumstances they may be allowed to be continuously normalized and allowed to continue claiming more and more victims today and remain in the future. And that is the impetus that led to this urgent and unplanned manifestation of the Volume 3 of *Biographicals* in this current *DRAFT* version, that was NOT intended for commercial circulation (yet), and is released for now, as the "limited edition". It had to issued ahead of the upcoming *Volumes 1 and 2* - all due to the pressure of the rather unusual circumstances of author's desperate search support in her voyage through the path of suffering. However, her spirit remain strong, while her supporters need to fulfill her hopes for the victory through finding finally the means to sustain under the siege. In fact, the acts of support can be counted as the action in this format of "information war", allowing to use mutual pressure to rights the wrongs and to "throw a wrench" into previously unbeatable for a long while and perfected mechanism of the unprecedented ring operation by conspiring together thugs, who misused affiliation with several well established organisations, acting as cronies with the shared purpose of holding hostage the victims of crisis, like Rozalina Gutman.

However, in her case, she decided to refuse to keep silent, despite even higher risks of suffering as the result. Their cruel crimes of concerted incivility of engaging of the community through character assassination launched against Rozalina Gutman, as the form of harmful retaliation to duties to provide relevant accommodations for accessibility. Their refusals to obtain her documented acute case of **MULTIPLE CHEMICAL SENSITIVITY (MCS)** - the under-

publicized and largely unknown to the public, RARELY DOCUMENTED by medical industry, yet rapidly growing diagnosis. And the involved local agencies **notoriously refused to obtain it since 2022, for 3 long years(!)**, instead conspiring to replace it with **medical fraud** of dangerously irrelevant diagnosis-misstatements of nonexistent “mental disability” - to excuse doing nothing, resulting into the notorious negligence of devastating impacts on the victim of their cruel and routine crime of bluntly refusing help to MCS sufferers, that was bluntly announced to her...

Due to their entitlement for practicing inertia of wrong doing, they were incapable of grasping own self defeat and harm to the members of own communities from refusing to make OWN LIFE healthier and their local environment to be SAFER FOR ALL, as the result of detected toxicants in common goods - possible to detect only with the help of using PAINFUL GIFT OF HIGHER THAN USUAL INTOLERANCE TO TOXICANTS.

This Ms Gutman's heroic effort to provide documentation for this form of manifestation of environmental insanity and illuminate the often hidden from the spotlight large scale operation, is to be valued and honored for local and global impact of her EXAMPLARY INTELLECTUAL LEADERSHIP in raising awareness of unsuspecting taxpayers for the rising need for preventing ill minded forces that led to global threat of anthropogenic toxicity, and that continue to resent existential change with criminal grade of retaliatory hostility(!). But this effort of the intellectual leader in the battle with unequal force may not be left with no support and urgent action to 1) safeguard the life that is now on target by vicious thugs in proper uniform, and 2) to achieve protections from the multitude of similar reruns of misusing public mandate and public trust.

The presented for observation evidence of the crimes is related to the incident related to the car dysfunction, caused by the squirrel, that ruined the car and was found dead, when the car could not move with remaining unknown for a week extent of damage. And among other symbolism of this narrative, **the dead squirrel serves as the daunting reminder of the injurious lack of awareness that led to both the devastating damage and self demise of the industrious pest**, bred as the result of notorious mismanagement of the unapologetic park maintenance employees, unwilling to admit and fix own fault and instead. And then, incitement of the daily hate crime of dropping many more squirrels from other location by the ill-minded local resident showed the dangerous susceptibility to the brainwash for planting bias, engulfing and corrupting many other individuals into criminalization of the victim of their negligence and lack of fitness to public service.

And in addition to this narrative of the struggle, the real meaning of it larger than a private life's biography of outstanding multivirtuous woman. The sobering truth is in this below appeal of the author to raise global awareness with the urgent warning for action. saying:

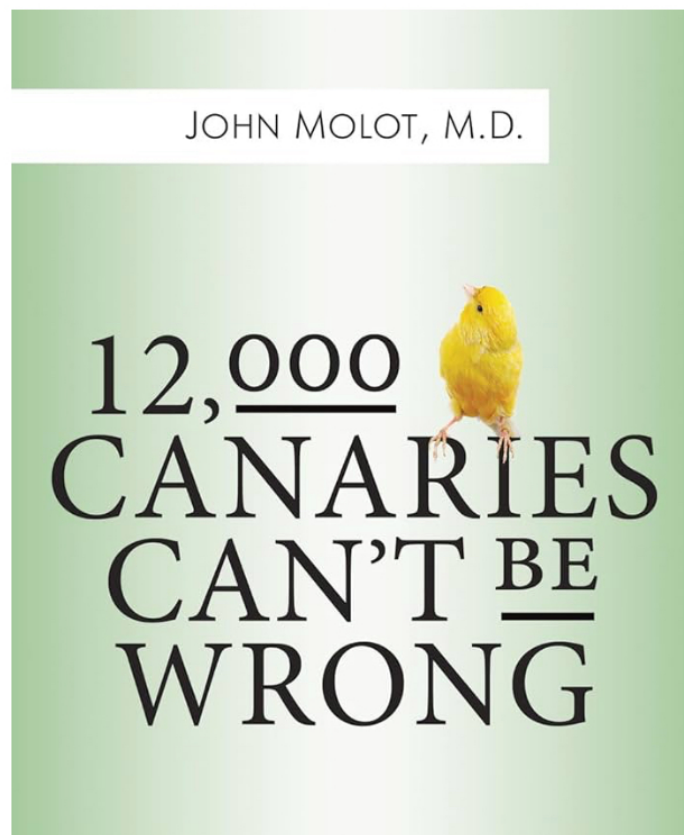

YOU, the readers and your loved ones will be quite likely among those, who will be the next in line to become the victims of the fast growing problem of environmental illnesses. And shockingly cruel abusive scam will remain as the way of response instead of urgent help. And that is why, the sooner and the more you know of the problem, the more

chances may be found to ease the upcoming suffering of millions of the victims of pain from doing nothing to stop the culture of moral atrocity.

Join defence battle against the trend of cruel and senseless criminalization of environmental illnesses! MOBILIZE to combat the evil before it gains enough power to become stronger than YOU!

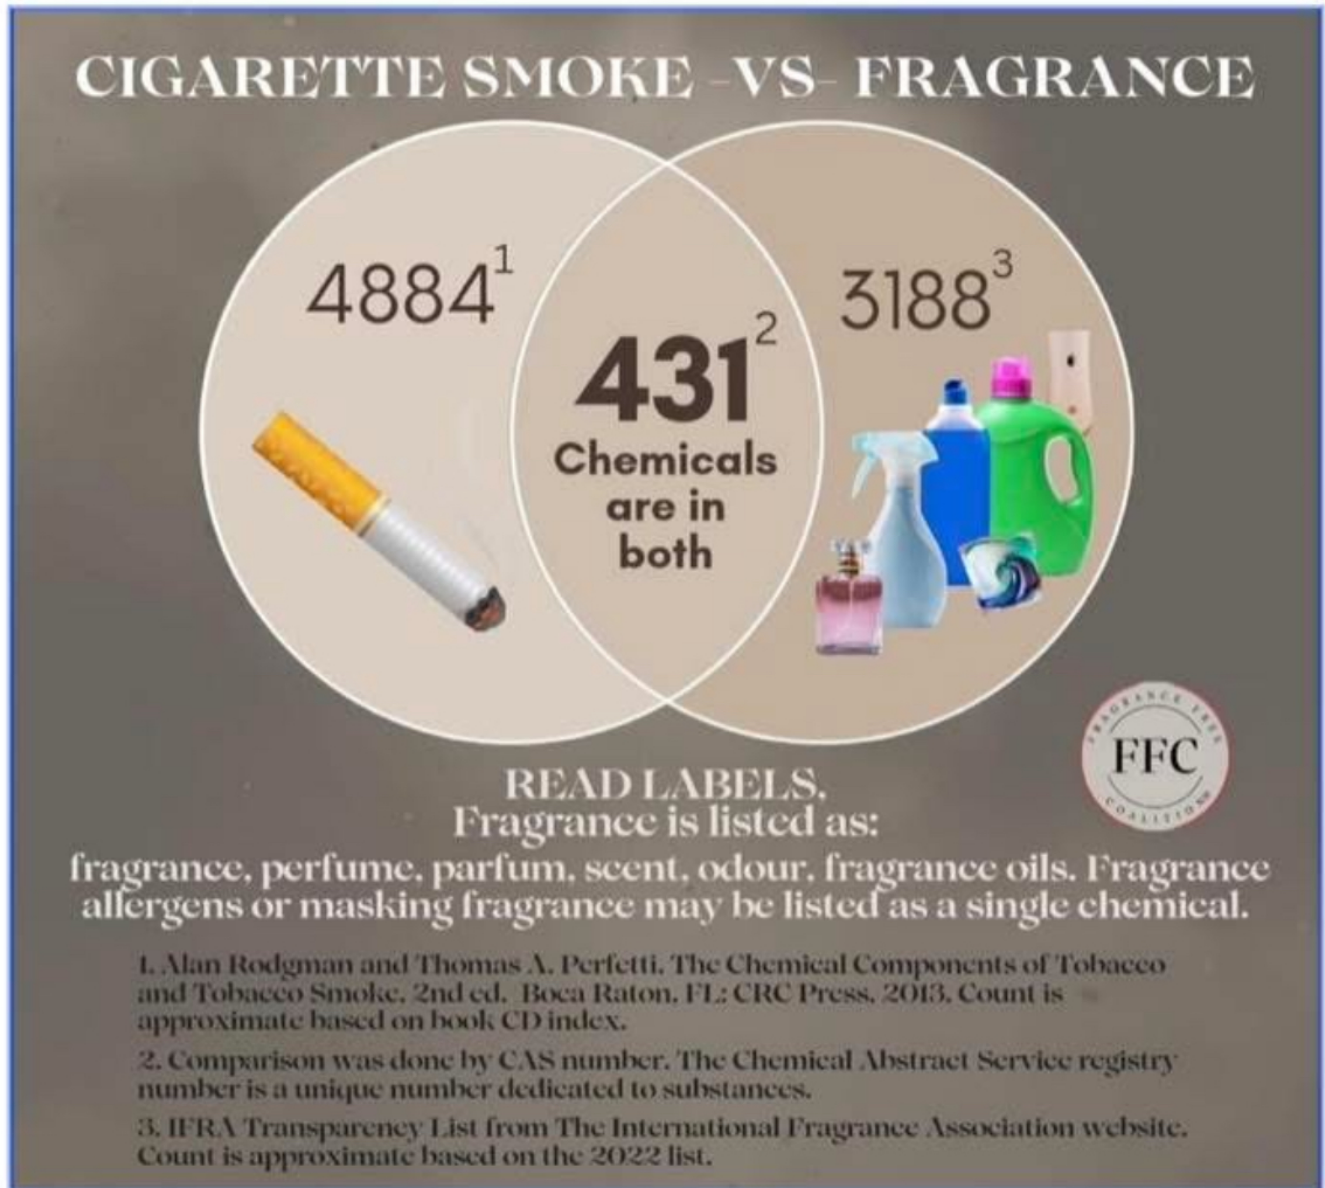

See below 📌 data on the unknown to majority, but rapidly growing environmental illness that rose twice during 16 years 2000-2016 **!!** and is likely to effect with suffering from cumulative effects of toxicity very large amounts of population, that would need specialized expertise and facilities that do not exist at this time - awaiting for the joint action led by the heart-driven individuals who know how to express their loving care to their offsprings.

This book is the rare account from Dr Molot, MD revealing of his observations of many cases of suffering from MCS (12000 by 2014!). And it is available on Apple Books and other instant access platforms and in print

*What's making us sick,
and what we can do about it*

TO 2ND HAND SMOKE IS NOW BANNED**

▲ Be wise: Learn what is at stake in the Battle of Mindsets, in order to stand on the right side - on the side of MCS!

HELP RAISE U R G E N T ! AWARENESS TO ASSIST IN OVERCOMING LIFE THREATENING CONFUSION RE LEFT UNDER-PUBLICIZED, LIMITING AND DEBILITATING ILLNESS OF

! MULTIPLE CHEMICAL SENSITIVITY !

Unlike you, the lucky reader of this sobering truth, majority of people are yet to become aware of **their LOST ABILITY TO DETECT THROUGH PAIN CHEMICAL TOXICANTS**, that had been normalized, illegally legalized and allowed to lurk silently in many consumer goods. And this information needs to be shared proactively and for the collective benefit - **through INCREASE OF COLLECTIVE AWARENESS - URGENT FOR ALL!**

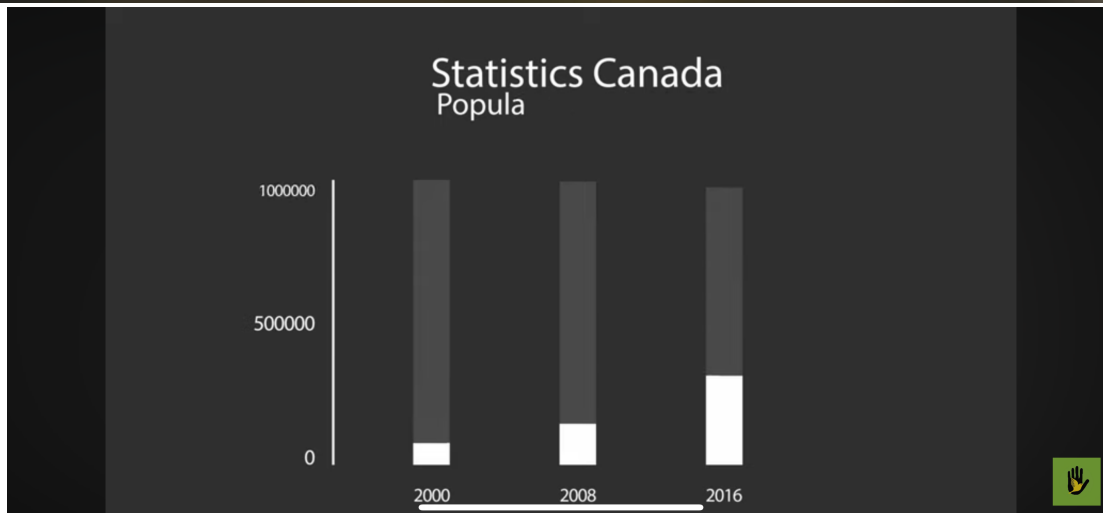

Little if any awareness is currently present about this maladaptive trend of habituation to widespread environmental toxins, that does NOT protect from their CUMULATIVE EFFECTS. Priorities are effected by this state of unopposed form of dangerous for health zombification. As the result, many people had already passed down such impacts of toxic exposure to their offsprings, who are yet to begin experiencing the impacts of similar and even more limiting and painful illnesses - through birth defects growing in numbers rapidly as we speak, due to their inertia of the system based on moral atrocity culture - normalized by various unconstitutional practices, hurting all as the r result...

Medical industry does not want to admit the mere existence of rapidly growing problem of MCS that often includes intolerance of most synthetic drugs with serious side effects among fast growing numbers of population that contribute to uncurbed growth of other toxicity. And, bio identical methods of cure remain in the categories of "not approved by FDA", since the curative benefits of plants can not be patented and turned into skyrocketing profits for pharma industry...Just like the author could not suspect to become the victim of MCS, you and your loved ones are likely to become its NEXT victims, while the increasing toxicity is still left uncurbed by flawed legal system of political campaign contributions... Will the suffering from agony of pain of growing amount of MCS victims, including you and your loved ones become the way of denying their need for care, being accompanied with cruel dismissals, persecution, refusals of help, torturous violations of human rights and ridicule?!

YOUR ACTION OR THE LACK OF IT - BOTH DETERMINE THE FUTURE OUTCOMES OF YOUR HEALTH AND THE WELLNESS OF MANY GENERATIONS OF YOUR OFFSPRINGS.

Share these under-publicized yet shocking statistics (below 📌) on the rapid growth of MCS, learn to make your life safer and help stand up for its today's and tomorrows victims that may include YOU and YOUR LOVED ONES.

Canadian community health survey: MCS rapidly doubled (!) during 16 years of 2000-2016 by Statistics Canada

The current lack of the easily accessible means in most hospitals for proper diagnosis, housing for isolation from chemical impact and treatment of symptoms is the dire human rights violation! Safeguarding painful gift of MCS with accommodations of removing toxic for all hazards benefits all community members, and is rare chance for detecting and making the communities healthier for ALL.

▲ **VIDEO: Understanding Multiple Chemical Sensitivity (MCS) -**

with live statement by international authority Dr. Molot and support by Canadian government agencies

!! A must to watch for all VIDEO (21 min), & especially vital for health care and social services providers:

NO, IT IS NON OPTIONAL, BUT REQUIRED BY LAW LEGAL DUTY FOR MCS ACCOMMODATIONS (Cursor on 18:03):

👉 https://youtu.be/ZZ4D0sgHJdQ?si=47pkv7A_jVuyFJA_h

Summary of the video:

Do perfumes, cleaning products, or air fresheners make you feel unwell? You're not alone. Multiple Chemical Sensitivity (MCS) is an increasingly prevalent condition.

People with multiple chemical sensitivity or MCS often fall through the cracks of the system in place to support, assist and protect them and often receive suboptimal services, and support, due to a lack of education and awareness about the impact product. **This creates barriers to accessibility and inclusion in healthcare, social services and the justice system.** For example, fragrances and other toxic chemicals in these settings can exacerbate symptoms and make these public services, and home care, impossible(!). **Thus it is essential to understand that accommodating MCS is a legal obligation to support individuals with such disability and is not a matter of choice.**

This video explores:

- ✓ What MCS is and how it develops
- ✓ The science behind multiple chemical sensitivity
- ✓ How fragrances and household products impact health
- ✓ The legal protections for people with MCS in Canada
- ✓ The challenges of living with MCS, including workplace discrimination and financial struggles

🔍 Learn why hazardous fragrance ingredients remain illegally undisclosed, due to excusiology of trade secrets and how different countries regulate them.

Questions to determine proficiency in understanding of MCS related issues by care providers, due to the lack of education materials:

The answers to the following ?? can help to demonstrate, if a mere effort was made to grasp info in the video, enabling the grasp of the issues, related to MCS disabling

illness. (If the individual refuses to take 10 min to provide brief written answers, it means they disregard the significance or/and do not intend to abide by the referenced laws and regulations, assuring for medical necessities of disabled individuals:

👉 #1 What is the rate of growth of the amount of MCS cases from 2000 to 2016 according to the demonstrated data in Canada ? Why is this important to know for all agencies responsible for serving disabled populations involved in providing accessibility of underpublicized MCS ?

👉 #2 What other allergen is used in this video as the example for required by law accommodation of MCS? Why is this comparison used in this video?

👉 #3 Is it optional OR required by ADA law to provide MCS ACCESSIBILITY accommodations by care providers, as explained in the video?

👉 #4 Do professionals who use as excuse to avoid proper accommodations by mischaracterising MCS as "delusions" or other "mental disorders" face legal responsibility for the retaliatory actions of causing injurious impacts, resulting from their failure of legal obligations?

👉 #5 What are the similarities and the differences between accessibility accommodations for a person with missing limb and an individual with MCS limitations?

👉 #6 What is the similarity in confusing diagnosis of *heart attack with appendicitis* AND *MCS with "psychotic delusions"*?

~~~~~

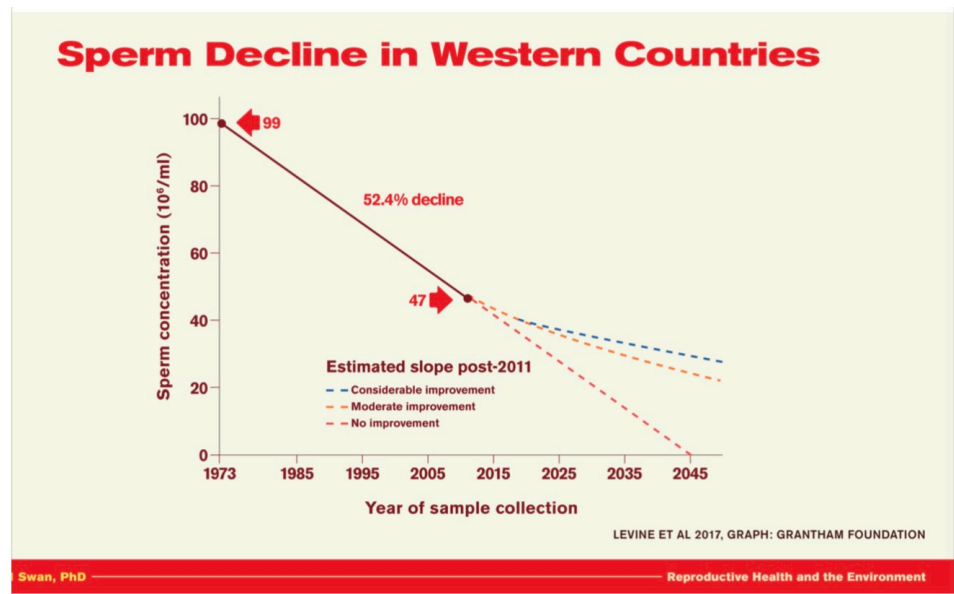

# Painful gift of MCS - in the context of the universal, indiscriminate demand for “*No business as usual*” during COUNTDOWN2045 - under-publicized, pandemic, leaving the public in the dark!

But ENVIRONMENTAL TOXICITY HURTS ALL with CUMULATIVE EFFECTS, irrespectively of whether or not its victims are ABLE to experience “allergic responses” to environmental toxins with the painful alarms of intolerance and symptoms of MCS: Review of 60+ global studies on male infertility (by Dr Swan, author of **COUNT DOWN**) demonstrated data of staggering rate of **1%/year for rapid plummeting of sperm counts**, reducing fertility of adult males to **twice(!) lower figures, in comparison to generation of their grandparents(!)**. And this makes easy to forecast **ZERO**

sperm global crisis among generation of grandchildren of today's adults, marking 2045, as the onset of **HUMAN EXTINCTION(!)**

However, recent ALL continents 2017-2022 study demonstrated the rise of earlier found rate of 1%/year to

**2.64%/year, due to uncurbed(!) increase of toxicity and lack of awareness of dangers of exposures among majority of population (!)**

So WHY do we act contrary to our species' name Homo “Sapiens” ? What makes us practice such hopeless self defeat consciousness personally and collectively? What gets in the way of prioritizing above everything our own biggest asset - our health and parental care and love to offsprings? Why do we rush to stop

the car from running over neighbors' baby, but fail to act instinctively to protect ourselves from passing down mutated genes to generations of offsprings for generations to come?

Such questions were answered by Rozalina Gutman, while they weren't merely asked by the brain scientists, due to the widespread state of denial, punishing more and more victims with agony of suffering and deaths from cancers, autism, and multitude of other **PREVENTABLE environmental illnesses and birth defects, left UNLABELLED AS SUCH(!) by medical industry.** The resulting agony of suffering from pain and loss of loved ones is indiscriminate of academic and political leadership members, most of whom are "too busy" to pose the inquiry for the senseless reasons WHY we allow for the widespread state of self defeat consciousness of sleepwalking into self demise with the rapid speed through the fast lane?

**Why can't we rely on instinctive pain alarm, that informs our self preservation instinct to pull away automatically from the cause of burned fingers, when we are exposed to toxicity from RoundUp or from offgassing new car? Why can't we detect the danger of fragrance that disrupts fine endocrine balance, and avoid it with the same priority, that we instinctively assign to solving the cause of toothache, that demands to abandon everything, no matter whether or not we loose approval from and social media fans, family and even the boss?**

Finding the answers to this type of questions can prevent collapse of human civilisation, due to the pressing universal need to prevent the impacts of cumulative effects of anthropogenic/man caused toxicity, that the majority of population is **unable to detect through current state of sensory capacities, that no longer can inform our self preservation instinct.** And it is because most of humanity had no choice, but to inform to living in the environment with steadily increasing anthropogenic toxicity and no healthy alternative to it, being forced into maladaptive tolerance of it, at the great fall of overworking cleansing system at the expense of optimal functioning, based on **👉 deactivated pain alarms to toxicity.**

**But despite severity of zombification, there is hope for humanity: The rare and painful gift among a few MCS individuals can and should be utilized to overcome the collective Blindspot of maladaptive self defeat - by helping to identify and remove environmental toxins that are intolerable to a few MCS victims while they are harmful to ALL!**

Understanding of this self defeat aspect of our subliminal mind is possible through the earlier observations of social brain in the realm of so called “social influences”, including the experiments on the subliminal pressure for social conformity to *groupthink* (as in Asch Effect), to *authority demands for lower moral standards* (as in Milgram Effect) and to *the conformity to culture of Moral Atrocity* (as in Lucifer Effect, best known as *Stanford Prison Experiment* by professor Zimbardo). In observed through these cases conformity impacts, participants were under pressure, that forced them to morph subliminally (!) their perception and cognition, due to subliminal fear of being “outcasted” for not matching to conventions and/or the authority’s expectations.

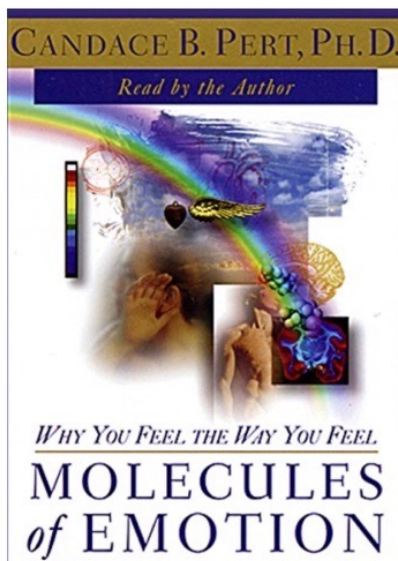

However, textbook changing, **deeper understanding of psychological drivers of the inner workings of the involved in these experiments self-defeat mechanisms**, deeply wired in subliminal processing, could be grasped & overcome(!) through the least expected means of reflection - **through music-based embodiment and resemblance** of otherwise intangible and elusive inner workings of subliminal mind.

The music-based sensory augmented data from depth-reflection on the psychological drivers of the collective Blindspot made possible to observe **Bach Sensory Deactivation Effect**, that demonstrated evident contributing factors to formation of collective Blindspot, including correlation of **1) injurious emotional repression with 2) mind paralysis, based on 3) sensory deactivation** - under the pressure of conformity to the culture of moral atrocity that normalized the false and senseless educational standard for limiting dynamics in Bach’s music, that should have seized long ago along with other pedagogical relics of the oppressive monarchy regime. The name of the Effect, given by its Rozalina Gutman upon its discovery, honors the visionary innovations in pedagogy and uniquely designed by Bach didactic scaffolding in the form of Fugue-Parody on dogma, that he created for teaching the skills of attaining inner wisdom, through music-based self-reflection and self-mastery, including overcoming mind paralysis by self-defeating COGNITIVE DISSONANCE. Bach’s didactic innovation of emotionally/analytically balanced engagement of the mind through his integration of emotional infusion into analytically demanding polyphonic music remains as the exemplary stellar innovation for brain optimization through developing cognitive patterns, based on **inter-hemispheric balance of the brain - the optimal regime for integrative consciousness, that propelled generative eureka-cognition and led to cascade of multidisciplinary discoveries of Rozalina Gutman**. Sadly Dr McGilchrist had made important case on widely and dangerously lacking of whole brain consciousness, due to mass underdevelopment of the brain. Its cause is due to educational policies, that are in dire disconnect with vibrational nature of intracellular processes of human body (**“Molecules of Emotion” by Prof Pert, Preface by Deepak Chopra**), and with vibrational nature of our universe (**String Theory by Einstein**).

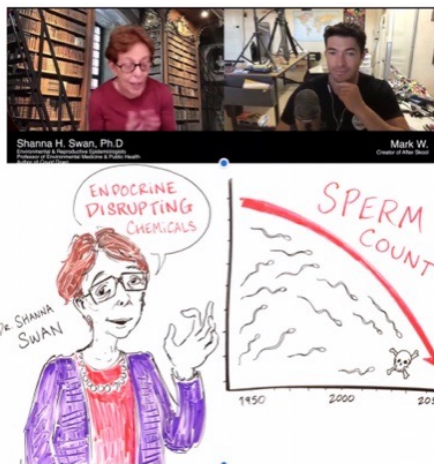

🏆 The terms from Ms Rozalina Gutman’s presentation on global multidisciplinary implications from discovered by he Bach Sensory Deactivation Effect prepared upon

invitation from the chair for ISME Research Commission'2022 were cited by visionary advocate for environmental justice Robert F Kennedy in his HHS RESET broadcast,.

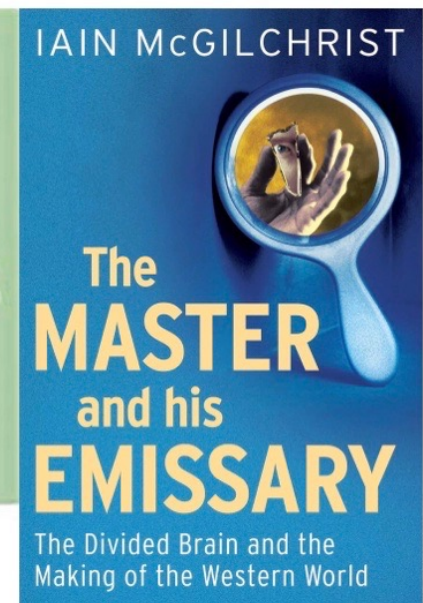

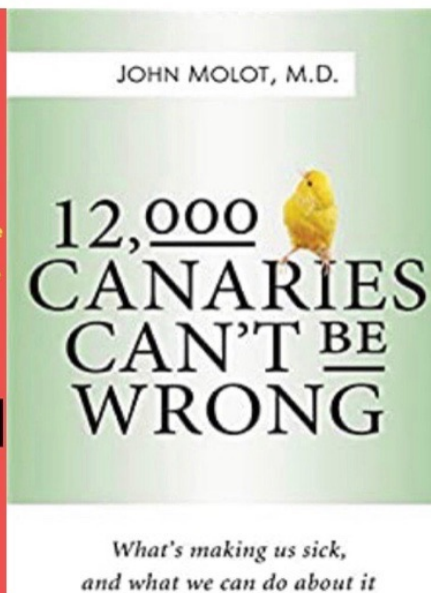

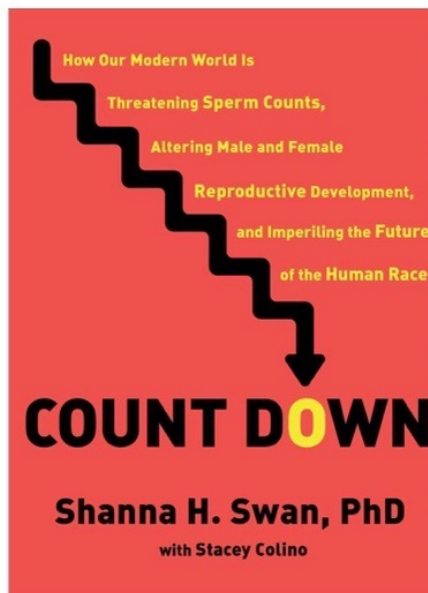

**However back then, Ms Gutman was yet to announce that she was forced to make her visionary presentation from the intolerable hardship of suffering from both lack of help and persecution for her MCS disability and forced living in homeless dwelling in the old car.**

# ▲ Are you on the side of the catalysts of change in the Battle of Mindsets, taking place NOW! Share precious info on existential safety for ALL!

When the threshold for *currently painless tolerance* of environmental toxins will be reached among the offsprings of today's adults, many of them will collapse by environmental illnesses, as soon as the time of the generation of grandchildren of today's adults (according to variety of studies to grow rapidly and to become widespread - detailed 📌 below). And unless all forces of progress make the priority to get involved into disruption of the today's wicked normality of institutionalized persecution assault on the disabled by ENVIRONMENTAL INSANITY victims, this cruelty against unsuspecting environmental illness victims will be allowed to remain, as the dominant method of shocking with cruelty denial of relevant medical care, if the society would continue to do nothing to prepare to deal with the consequences of this global threat...The fate of millions of individuals and humankind at large depends on the state of existential capacities to sustain through COUNTDOWN2045 & beyond among the FUTURE generation of grandchildren of today's adults. It is determined by TODAY'S proactive support of the progressive forces in **unraveling Battle of Minds:**

**The primitive mindset, driven by maladaptive incivility-instincts for self-serving misuse of power position for hostile abuses and crimes, with no motivation for self growth and resentful to change**

**VS**

**The mindset of committed to self-growth catalysts of change, with higher consciousness, dedicated to developing INTEGRATIVE, WHOLE-BRAIN consciousness, rooted in "The Wisdom of the Heart"**

**Staying idle is no longer neutral. Instead, it provides the basis for the dangerous status quo of normalized self defeat and harm.**

Taking SELF-compassionate and proactively compassionate step to protect your offsprings from suffering from persecution for fast rising environmental illnesses and birth defects TODAY makes a big difference for them tomorrow: **SHOW YOUR CARE FOR ASSURING SAFE FUTURE WITH YOUR URGENT ACTION NOW!**

# ▲ About Rozalina Gutman, the author of *“Surviving as the hostage at Malibu Park”*

*Volume 3 of the sequel Biographical [in urgent DRAFT-version]*

(and also the author of the new ebook

“Paradox of invisible dissonance in Fugue-Parody by J.S.Bach”)

*“...There is nothing more important to learn about today,  
than shared by you health warning information...  
But how did you end up being homeless?..”*

~ Police officer Grigor Kasabyan at the scene of collapsed car, who later provided police report

# LHS 0191 for the incident

(moved out from Malibu police department several days after  
his command received commendation from Rozalina Gutman)

Ms. Rozalina Gutman had been internationally recognized, as music educator for fostering prodigious success in young students, defiant of low and lacking focus on authentic self-expression educational standards. Ms. Rozalina Gutman is known internationally as Ukrainian (born in Crimea) woman of many virtues, who **speaks and writes in ESL**. She is multidisciplinary scholar and had been invited to present and organize events at the international conferences, including organizing International Symposium for advocacy for **compliance of music education with brain/music research (upon invitation by VP of Music and Arts Education Committee at Ministry of Education of China, at 29th World Conference of International Society for Music Education in Beijing)**. Ms. Rozalina Gutman is accomplished concert pianist, as well as insightful author of the ebook on textbook changing discoveries with global impact, that originated through embodiment of otherwise hard to grasp aspects of subliminal mind, based on Bach didactic piece, composed for teaching the skills for effective overcoming of cognitive dissonance and related Blindspots, caused by unpacked trauma residue.

And in addition to her outstanding scholarly and hands-on practical innovations, she distinguished herself with **uncommon lovingkindness and generosity of her heart** along with rare commitment to providing access to music education for ALL children, regardless of whether they could afford to pay for it, despite her own financial struggles of being marginalized by power institutes music instructor and the new immigrant-refugee. While she had been paying forward for her privileged elite music education, funded by the state during her childhood/youth in USSR, she had been striving to make global impact with her passionate advocacy for educational policies, that need to be brought in compliance with known to date brain/music research, evident of the capacity of music education to nurture WHOLE-BRAIN, holistic development. In the face of rapid rise of global threats, her urgent calls for implementation of such pathways for developing full human potential had been based on the data, demanding for urgent global shift from the dangerous, yet dominant global trend of implicitly to brain

underdevelopment, resulting in primitive collective consciousness of SELF DEFEAT. She had been vocal about public health hazard for the society of the primitive mindset with no intellectual leadership in the position of authority, that had been impeding the critical for sustainable life growth among human race, pointing to the evidence for no changes in archaic educational priorities for three centuries, since the time, when her virtual teacher Bach lost his unequal battle with the human incivilities in power chairs. Humanity had been bound to pay the unbearable price for the disability to learn from painful lessons - with widespread of unopposed zombification and the loss of awareness for sleepwalking through the fast lane into self demise during COUNTDOWN2045 to the onset of HUMAN extinction(!) as soon as during the generation of grandchildren of today's adults. And she credits Bach for her arrival to the evidence for observed *Bach Sensory Deactivation Effect*, that gave rise to the framing of the root causes and psychological drivers of the widespread state of environmental insanity, including the concept of **DEACTIVATED PAIN ALARMS TO TOXICITY**.

Indeed, the word “homeless” does not fit to *the visionary emerging intellectual leader in environmental justice arena*, whose terms from presentation, created upon invitation by the chair of ISME Research Commission'2022 had been cited by one of the world's most courageous warriors with environmental criminals **Robert F Kennedy at his global broadcast on HHS reset in April 2025, declaring global prominence of her ideas...**

But she became the victim of a number of predatory minds, conspiring and misleading into trouble. Many incivilities of such outrageous injustice could be summed up by the comparison of her to *the metaphor of the Giant trapped by cruel Lilliputian mediocrity, resulting in deliberate refusals of help in addressing and accommodating her severe disability, originating in left undiagnosed and untreated Mold toxicity...* Indeed,

such difficult to sustain even for the short time “lifestyle” of being forced into homelessness, disabled scholar certainly doesn't match the intellect and personality of the woman of many virtues, whose colleagues from various countries called upon her

**to provide her brain for the research, in appreciation of her evident and unique capacity to perceive the matters beyond the blinding power of common stereotypes.**

RFK cited terms from  
ROZALINA GUTMAN's  
presentation, prepared  
for ISME Research  
Commission'2022

At HHS reset broadcast 4 environmental illnesses epidemic declaration, Robert Kennedy Jr cited terms of multidisciplinary presentation by ROZALINA GUTMAN, prepared for ISME Research Commission'2022

April 2025 NEWS ALERT !

As a part of announcements about RESET of government agency HHS in April 2025

[https://youtu.be/ajB9ZnU77kk?](https://youtu.be/ajB9ZnU77kk?si=A70qirEvBOe2xNWg)

[si=A70qirEvBOe2xNWg](https://youtu.be/ajB9ZnU77kk?si=A70qirEvBOe2xNWg), Secretary Robert Kennedy Jr. vowed to use LAW ENFORCEMENT to go after

Ironically, the suffering from pain caused by illnesses, forced her into initial shift from the false dogma for interpretation of Bach's music, including replication of no/limited dynamics on the keyboard with inferior design and no capacity for dynamics diversity, essential for replication of nuanced emotional expressions, that Bach's scores require. And this led to collective Blindspot of left undetected dissonance in many didactic aids, that Ms Gutman was capable to identify in her insightful ebook with urgent didactic update in the subject of the cornerstone in music education "Paradox of invisible dissonance in Fugue-Parody by J.S.Bach".) This medically necessary accommodation for her injured heart led to the need to abandon limitations for turning heart-centered music of Bach into unfair form of "dry, mathematical exercises in mental calisthenics". She credits this pivotal for her artistic evolution to her transition to **emotionally/analytically balanced engagement, that promotes inter-hemispheric balance, essential for optimal cognitive function, that enables integrative consciousness**. These innovative for his time (and for ours) didactic achievements of Bach had been missed in plain sight as well - unfairly to his uniquely designed polyphonic music and to humanity. Hence, she referred to J.S.Bach as "Master music instructor with neuroscientist's mindset", based on her textbook changing discoveries and her outstanding capacity to apply her knowledge of neuroscience research for innovative methods of teaching Bach spelled out with mastery and ingenuity in his scores. These self evident and self explanatory score facts had remained unnoticed and thus, unknown to millions of his fans, and even "invisible" to many of his music's scholars, due to longtime tradition of politically correct biographical distortions of his legacy of daring innovator in using his music as the tool for emotional liberation and development for Higher Human Potential. This intuitive shift occurred under most uncommon for academic breakthroughs circumstances of being informed by her heartache - prompting for her transition to **the heart-centered and emotionally infused** approach to music of Bach, intended by the composer and evident in his scores, but muted by the collective Blindspot of required by *the false and injurious (!) exams' standards for emotional confinement of performers of his music* (as she detailed with scaffolding for easy grasp, accessible for high school students in her ebook). (It was the result of intuitive pain-forced accommodation to the chronic disability from left unresolved women-specific heart attack, common among millions of women, due to the lack of women-specific medical research on women's hearts. Later it had become the issue of the compliance with research, exposed by the visionary pioneers of advocacy - cardiologist *Dr. Merz in collaboration with philanthropist Barbra Streisand*.) And as the result of the cascade of the following discoveries, her recently released ebook provides self-explanatory evidence on the left with no mentions in most didactic aids J.S.Bach's intuitive, innovative method for emotional reawakening, essential for **achieving balanced brain function and optimization of common evolutionary flaws** - enabled and possible to implement for him, thanks to the emergence of **hammer-based mechanism of fortepiano** with diverse dynamics. (This biographical fact about outstanding innovator Bach had been unfairly under-publicized and hidden from the majority of his devotees for a number of generations.) The heartache alarmed Ms Rozalina Gutman to become vocal about the need for official denouncement of falsely imposed limitations for dynamics, causing emotional blocks, starting during childhood among millions of students of Bach's didactic pieces, that had been **proven by various studies to be injurious and lead to significant health calamities**. She credits her shift into generative Eureka-mode, that enabled her to grasp various aspects of the reality beyond Blindspots, thanks to the rediscovered lessons from Prisoner of Conscience Bach on attaining the highest wisdom - "THE WISDOM OF THE HEART", contrary to his time's canons for superficial court music. The resulting balanced brain function, attained thanks to his re-discovered approach, is the exemplary(!) result for using music for building the skills for *self propelled evolution of the brain through emotional liberation*,

through self reflection and self growth, still remaining innovative today(!) and largely lacking in the approaches to curricula design, despite the utmost urgent demand for promoting whole brain cognition, based on development of **inter-hemispheric balance of the brain and the key to dangerously lacking today INTEGRATIVE consciousness**. Her textbook changing ebook on significant discrepancies of didactic aids for Bach's music provided the evidence of Bach's **neuroscientist's mindset**, by demonstrating in his lessons his still remaining and unsurpassed intellectual leadership in the effective, practical, hands-on solutions for overcoming instinctive incivilities, resulting from evolutionary relics of the human brain, rooted in maladaptive inheritance of the fight-or-flight instinct, herd and tribal instinct and other evolutionary baggage. Bach provided solution to the problem that he had to suffered from being treated as "the Giant by Lilliputians", due to abuse of power by incivility in the authority. Ms Gutman had been the proponent of initiated by Bach hands on, effective method of teaching **the skills of self growth** by tapping into Music instinct, based on joy-neurochemicals. The proclaimed by her use of it, as the counterpoint of self mastery on the path to achieving peak performance for reaching higher human potential, had been based on her practical implementation of these principles along with the advocacy for deserving by ALL access to this incomparable resource. Ms. Gutman has been recognized internationally for her unique method that produced prodigious results among young students.

The effort of Ms. Rozalina Gutman to deliver her discoveries of the measurable intellectual sophistication and complexity in the shareable format, while under the unprecedented circumstances of ruthless persecution for being the victim of **the environmental illness** - inconvenient for the medical industry and the rest of the corrupt system of governance, is no less but the act of heroism, in the face of having to defend herself from the variety of tentacles of culture of moral atrocity. The recent history of creation of "Harry Potter" by its author in the trying conditions of homelessness makes evident the commonality in the lives of the women, subjected by the society to persecution, due to their outstanding, above average intellectual leadership... But the publication of Ms Gutman is in the different category - it is shared by her perspectives, **gained through pain that others could now avoid, highly admired and appreciated by her colleagues**. And, it is her contribution of the unique meaning of sobering lessons from the all time genius Bach, creator of some of the most complex music ever composed in the Western tonal tradition, while having to live his life, as impoverished musician, unable to afford effective legal defence from dire human rights violations. And underpublicizing of these facts of his life as the victim of the lifelong witch-hunt by character assassination with the undeserved and FALSE stigma of convict, due to UNFAIR incrimination by FALSE imprisonment, contributed to continuing unfairness to millions of musicians, still suffering from incivility in power chairs. Bach was unfairly retaliated with power abuse, despite committing NO crime(!) and in dire violation of human rights.

And, this fact brings out striking parallels with the similarly victimised advocate for restoring FACTUAL TRUTH in his legacy - Ms Rozalina Gutman, subjected to the smear campaign of shameless lies and abhorrent human rights violations today, 3 centuries later. Thus, her idea to release follow up publication of her *Biographical* is a part of her effort to expose the centuries long tradition of normality of cruel injustice towards professional of musician, forced into position of the victim of systemic persecution with marginalization, devaluation and poverty and all outcomes from related limitations - all due to the lack of fitness to leadership of the individuals in authority with primitive mindset and incapacity to upraise the **significance of universal need for alignment to the vibrational nature of our universe** - the concept that had

been paradoxically missing in the design of music education curriculum, instead of being a cornerstone of all pursuits in the fields related to music...

Ms Gutman had become vocal about the need for raising awareness about this often invisible to majority **Battle of Minds - the primitive hostile and manipulative mindset in authority VS higher consciousness, based on well developed INTEGRATIVE COGNITIVE FUNCTION.**

Her calls for engagement into proactive self propelled self growth and evolution point to their existential role in the ability for sustaining through COUNTDOWN2045 and beyond... It demands for the proactive engagement of all progressive forces with no delay!

That is one of the key reasons why the idea of this sequel had manifested - as the solution for providing life examples to the initially introduced in her didactic update complex concepts of DEEPER UNDERSTANDING of the mechanisms of self defeat, observed by her through music-embodied, sensory augmented data on otherwise elusive and intangible subliminal processes, that result from the maladaptive conformity to social influences, such as textbook classics of *Asch Effect (groupthink)*, *Milgram Effect (authority pressure to lower moral values)*, *Lucifer Effect (influence of the culture of moral atrocity)*. Thus, observed *Bach Sensory Deactivation Effect* provided missing earlier deeper understanding of the psychological drivers of involved processes - thanks to *the rediscovery of the uniquely designed didactic aid by genius Bach*.

And due to the least expected necessity for the urgent release, this *Volume 3* provides one of many examples of multitude of the unspeakably cruel acts of mounting the barriers to this embattled insightful scholar, that had been preventing Ms Gutman from using her full potential for sharing her unique music gift with humanity on overcoming dangerous levels of underdevelopment of the brain, leading to rapidly rising anthropogenic global threats. One of her key aims is to share her vocal concern about increasing decline in the capacity for the resonance to the suffering of the least fortunate, the most needy for care and the weakest among the society, that she was forced to experience as well by the conspiring criminal minds, despite her elite position among intellectual vanguard of the society...

**Undoubtedly, she and her global causes deserve for much of the rescue, inspiration and support from all progressive forces to assure, that she prevails over existential threats, created deliberately by the conspiring together ill-minded entities with criminal minds and unbeatable mastery for misleading strategies of character assassination and manipulative appearances of "saintly" facade for concealing true predatory nature.**

**And the fact that a person like her could suddenly become the victim of the corrupt ring operation, that is set to take advantage of the least fortunate people, deserving the best care, is ALARMING: NO ONE IS PROTECTED FROM SUCH OUTRAGE AT THIS TIME! All forces of progress have the duty to join her vocal warning about the ease of anyone to become the victim of environmental illnesses and other disabling conditions and related persecution in place of care. (See pertaining to details in the end.)**

(Pardon some roughness of the style due to time constraints of this edition & report typos/errors.)

The referenced above Ms Gutman's ebook-related website was created in the conditions of shocking hardship, however without anticipation of the described below impacts of malicious, bluntly proactive with harm, life endangering incivility, in the face of struggling to sustain life, embattled, prejudiced and disabled exceptional human being and one of the kind teacher, dedicated to serving good causes in the role of Consciousness Transformer. But she didn't wish for the distraction of the attention from the complex subjects of global urgency in her publication. However, the current twist of circumstances forced her to deter from this intended initially approach. Thus, this shared information on the related subject of Bach's still remaining leadership in the arena of the role model of the fight for relevant valuation of music and musicians had emerged alongside with the concepts of excuse me the urgent process of music-based self-propelled evolution of the human brain through self growth and the dire need for pivoting the development of the collective consciousness away from the dangerous dominance of SELF DEFEAT.

She had become the victim of a number of predatory minds, often conspiring with each other for justification of their murky agenda of taking advantage of "easy prey". And despite being naturally gifted with several talents, Ms. Rozalina Gutman's unique background had been inviting more than one type of prejudice, including biases against being an immigrant, being a woman, articulate of her agency, being the victim of antisemitism that knows no borders, being above average thinker and committed to high moral and ethics values citizen of the word, in addition to being among marginalized populations, due to her dedication to "carrying on the torch of light" for illuminating transformative power of music on the evolutionary young human brain(!)

However, while in such circumstances most of accomplished professionals hire legal representation for handling of such notorious abuses of human rights and other crimes and misconduct, musicians suffer from the common "occupational" disability of severe undervaluation and normalized underpayment, resulting in unending and centuries long tradition of living in pose dry and suffering from the vast amount of caused by it limitations for their essential capacity to facilitate the realignment with vibrational essence of our universe - unaffordable especially today, in the face of the existential demand for optimization of the brain function - possible through music, but left largely untapped... Ironically and sadly, despite passing of three centuries, the biography of Rozalina Gutman can easily compete with biography of the subject of her advocacy - Johann Sebastian Bach. This genius was also subjected to the enormity of suffering by his mediocre contemporaries, who were unable to grasp the magnitude of his visionary ideas, forcing him to live his life in the position of Prisoner of Consciousness - at the unbearable cost of limitations to his genius offerings, for generations to come...
