[author](#), [internationally recognized piano instructor](#), [multidisciplinary brain/music scholar](#), disabled by Mold-caused environmental illness of Multiple chemical sensitivity (MCS - lost tolerance to normalized toxicants, resulting from CIRS) (Open expandable [links](#)). [Teacher's & child advocate's](#) duty propelled her to appeal to intellectual leaders to take to heart **unpublicized(!)**, yet sobering data from the study by *Statistics Canada*, demonstrating **rapid growth of MCS cases that DOUBLED(!) during only 16 years from 2000 to 2016, from half a million to over a million(!)**. Pause... ...to translate this shocking data into the vivid picture of agony of your OWN dear offsprings, predisposed to join millions of MCS-afflicted victims, rising to pandemic within just a few decades with spiraling up rate. And just like today's MCS victims, ➡ instead of helpful care, they are to be **dismissed, ridiculed, cruelly retaliated for mere pleas for help with relevant care & chemicals-free shelter, often leading to suicide(!)**. The key reason is **habituation**, caused by **deactivated pain alarms to toxicants**, normalized in many so called "**minimally toxic**" & **perceived as "safe"** consumer products. *But it doesn't cancel their toxic CUMULATIVE effect, that can NOT be replicated in labs.* (Ms. Gutman spotlighted deeper understanding of psychological drivers of inner mechanism of such self-defeating subliminal conformity to groupthink (Asch Effect++).'

Empathy failure towards **MCS victims impeded** recognition of their **PAINFUL GIFT** for detecting/avoiding the normalized, yet **HARMFUL** for ALL hazards for health & **humanity's collective sustainable birthright**, while many "**environmental**" illnesses & birth-defects had not been labeled as such, AS IF they are "NOT preventable". For example, tracked by 60+ global studies rapid rise of infertility is to manifest into Zero Sperm global crisis by 2045(!) ("COUNT DOWN" by Dr.Swan) = **HUMAN EXTINCTION onset(!) - left uncovered by top media & global discourse**, due to **warped priorities**, resulting in **complicity to toxicity - SELF-compassion Blindspot, leading to millions of preventable deaths during next decades.**

Join Ms Gutman's whistleblower's [authentic advocacy voice for LOVING CARE for voiceless children](#) 👊💛👶 - already impacted by genetic mutations from toxic exposure, [known to result in birth-defects, in addition to cancers, since legislation for consumer products been compromised by bribery of political campaign contributions, permitting impermissible toxicants to turn into "fabric of our life"](#) **Help rescue Rozalina Gutman** with her unique teacher's voice for environmental justice: 👊👊➡ Besides reaching **MCS victims**, 👊👊 ➡ **please, also spread URGENT distress call among ALL communities and individuals, who are wise to PRIORITIZE over everything else their strive for chemicals-free living. Their wisdom of helping with rescue of the carrier of painful ➡ gift of MCS will be ➡ rewarded with ➡ priceless detection of HARD FO GRASP toxicants for DEEPER DETOX OF THEIR DWELLINGS, often necessary, due to unregulated(!) misleading, profit-driven GREENWASHING labelling of many consumer goods.** 👊👊

PAUSE EVERYTHING NO MATTER HOW IMPORTANT IT MAY HAVE BEEN & ALLOW TO SINK IN WITHHELD FOR DECADES SHOCKING DATA ON THE FASTEST RISING ILLNESS of Multiple Chemical Sensitivity (MCS), ALONG WITH NEW PRIORITIES, TO COMBAT ITS CAUSE OF NORMALIZED TOXICANTS

**Canadian community health survey:
MCS rapidly doubled (!) during 16
years of 2000-2016
by Statistics Canada**

The current lack of the easily accessible means in most hospitals for proper diagnosis, housing for isolation from chemical impact and treatment of symptoms is the dire human rights violation! Safeguarding painful gift of MCS with accommodations of removing toxic for all hazards benefits all community members, and is rare chance for detecting and making the communities healthier for ALL.

♥ Begin by recognizing maladaptive **subliminal habituation & loss of pain alarms to toxic conveniences** (unlike remaining painful warnings for protection from skin burn, toothache, appendicitis etc.). And acknowledge resulting **passing of genetic mutations to your offsprings for generations in perpetuity...**

♥ **OFFER VOCAL APOLOGY 🙏 TO OWN VOICELESS CHILDREN & MILLIONS OF OTHER CHILDREN WORLDWIDE FOR FAILING TO PRIORITIZE THEIR CHEMICAL SAFETY, DUE TO LACKING LOVING CARE TO GUARD THEM.** And resolve to healthy vigilance VS delegation of this task without personal oversight & verification, based on self-defeating, idle conformity to lower moral values under authority pressure, that led to lawless, corrupt legalization of toxicants, allowing them to become hard to escape "fabric of our life".

♥ **Vow to keep EMPATHY-based commitment 🤝🤝🤝 to guard MCS victims**

& utilize with appreciation their painful GIFT to identify/avoid harmful toxicants, otherwise hard to grasp. Commit to applying lessons from their suffering today, in order to prevent *tomorrow's* rapid spread of similar agony, untimely deaths, cruelty-caused suicides during next decades - among millions of today's VOICELESS children & grandchildren, having to rely on surrounding adults, while growing up into disabled adults, surpassing healthy people numbers, still able to take care of the sick.

♥ **Declare commitment to corrective actions, as a part of shared responsibility 🤝🤝🤝 for personal contribution to the PAINFUL FOR ALL state of cruel denial and lack of compassionate response to observed suffering in OTHERS, while failing to identify it, as the personal threat to OWN/OFFSPRINGS' health & safety.**

♥ **Vow to commit to employ engagement in music-embodied SELF REFLECTION for developing alternative - expanded, holistic/whole-brain, integrative view of self in interconnected universe, united by universal measure of vibration, including treating others as self - according to the Golden Rule, through the prism of unity, equality, fair environmental justice for ALL of us being linked together 🤝🤝🤝 in our shared, urgent fight to prevent the nearing agony of both - subtle collapse of personal health & fastest rising global crisis of environmental illnesses 🤝🤝🤝**

Support urgent rescue of [internationally recognized music educator, multidisciplinary brain/music scholar, concert pianist, author, advocate for just valuation & health\(!\) of professional musicians in the role of Consciousness Transformers, environmental justice advocate, informed by severe MCS illness](#) - disabled by mold-related immuno-compromised intolerance to normalized toxicants, & left for years with no relevant help! [Rozalina Gutman's health & life are in great danger NOW!](#) Lacking sanctity of life liars from [crisis assistance agencies](#) bluntly refused for 3 years to obtain her diagnosis of life threatening, severe [Multiple Chemical Sensitivity \(MCS\)](#) - in retaliation to change from normalized corruption, related to toxicants. Instead, they [conspired together for hideous hate crimes](#), while [cruelly ridiculing\(!\) & dismissing life threatening diagnosis\(!\)](#) - [to coverup willful neglect of urgent, relevant assistance, creating hostage situation for coercion \(+Part2\) & spreading cruel bias, instead of rallying community for compassionate support\(!\) for Master Teacher/author, forced into living in 2001 collapsing car. Even recent extensive](#)  [bleedings, that made no longer "invisible" her MCS disability, didn't end shocking, normalized, cruel & willful neglect\(!\)](#)

While having to escape [whistleblower's retaliation](#) & [antisemitism](#) (after trying to escape it in USSR), Ms Gutman was forced to travel in [desperate search of "Mold refugee" for essential for MCS, but rarely available chemically safe rental for writer's retreat & rare MCS-informed medical help...](#) But after discovering notorious scam, [due to being forced to repair old 2001 car, she got stranded in So Cal since 2022, while having to use car as her only shelter since 2018\(!\)](#) But, local [homeless crisis-assistance agencies](#) prejudiced her from relevant help, [conspiring together with power institutions](#) in retaliation to their duty to help disabled individuals, & committing hideous health/life threatening hate crimes: [Lacking sincere concern staff from "People's Concern" & collaborating community clinic bluntly refused \(for 3 years\) to obtain her MCS diagnosis & to use it for RELEVANT help, including chemically safe housing.](#) Instead, indisputable evidence revealed their [routines of conspiring with other agencies to concoct fraudulent diagnosis, while using coercion & pressure of hostage situation - to excuse/conceal their willful neglect & to gaslight their victims \(Part1 & Part 2\)](#). The sum of crimes, power abuses, medical fraud, slanderous rumors also included **loss(!) of her functional, shipped from out of state(!), RARE scent-free car** - due to blunt refusals by Federal park rangers to her pleas for help with small space for its additional detox. Instead of simple to provide disability accommodation (learn more in [Part 1A](#) & [Part 1B](#)), they concocted bogus court case - dropped, yet made inaccessible(!) for her to attend & represent herself, in response to her call to subpoena video-cams evidence - never provided to her in blunt violation of human & constitutional rights. ([Part 2A](#) & [Part 2B](#)) ...Mere list of multitude of unapologetic hate crimes and power abuses against weakened by disability, vulnerable woman of many virtues is simply too long for the flyer-format (sign up for updates below ). Even her recent extensive  bleeding didn't awaken compassion among public servants... As the result  *now, due to cold rainy season, Rozalina Gutman is in desperate(!) need for help from local/global progressive forces, including other MCS victims - for urgent assistance with chemicals-free blankets, shoes/boots, woolen clothes, temporary shelter(!)*. Bias of ill-minded and self serving "public" servants became their barrier to grasp & apply for *OWN/offsprings' sake(!)* the kindly shared by her, essential for ALL public health information on sobering data, making evident, that **many today's kids would likely grow up to be also among rapidly increasing numbers of suffering MCS victims within just a few decades. Thus, ALL progressive forces need to mobilize NOW! all resources** - to prevent similar abuses & criminalization of fastest rising, yet unannounced MCS pandemic, with no intent for care solutions from corrupt medical industry.

Join Rozalina Gutman's urgent fight with denial of [current injustice against afflicted by similar illness & lacking tolerable shelter MCS victims \(such as mold refugees with no safe shelter\), being ridiculed and dismissed, instead of help with agonising physical, all-body symptoms of pain, respiratory, cardiovascular, digestive, neuromuscular etc. functions, often leading to SUICIDES...](#)

Amplify Ms Rozalina Gutman's intellectual victory of grasping evidence for evil scam & systemic injustice towards disabled victims of environmental illness!

Fortunately, caught by Ms. Gutman medical fraud provided evidence for the ring operation for placing disabled by MCS/other illnesses victims on THE DEATH ROW, allowing to debunk excusiology trend for refusing relevant help, including detox of residential facilities - unhealthy for ALL, including employees. She underscored the terrible problem of most of public venues, currently inaccessible **to MCS victims (even including no access to most public toilets!)**, warning of resulting **high rate of suicide from cruel denial of the serious problem of universal need for creating MCS-safe housing, designed for avoidance of intolerable toxicants - harmful for ALL, yet legalized into "the fabric of our life"**. And due to hopeless corruption at all levels of society, [most of conventional rental housing resources had become intolerable for MCS victims like R.G., requiring remediation & at times, complete rebuilding](#), while most of *habituated to toxicants population can no longer GRASP through instinctive healthy rejection cancerous chemicals' exposures, due to morphing to tolerate them*. Intellectual leadership of MCS is the key to combating zombification, caused by self-defeating maladaptive conformity to subliminal(!) groupthink++ (Asch + Milgram, Lucifer Effects) **Environmental justice worrier Robert Kennedy Jr. (also informed by MCS/Lyme of his child) cited terms of [PowerPoint presentation by Rozalina Gutman for ISME Research Commission'2022 on discovered psychological drivers of self defeat](#)**, debunking coverup of **preventable** essence of environmental illnesses by profiteers from global threat of growing pandemic, resulting from normalized toxicants. **She called for global discourse on urgent realignment of false priorities for combat of corruption, related to health(!)** Her Teacher's duty propelled Ms. Gutman to compel **today's kept in the dark adults to declare APOLOGY to their OWN offsprings & commitment to prioritize guarding society from cumulative effect of today's toxic exposures known to diminish painless tolerance to toxicants in every consecutive generation, leading to agony of pandemic of environmental illnesses - according to data. Urgent response to her pleas for help to stop today(!) current, unapologetic trend of tyranny against MCS victims, like her, is critical for protection for millions among today's voiceless kids - the future victims of the fastest growing environmental illnesses - being forced into living hell of SIMILAR lack of mere effort for compassionate care, refused by self-serving public servants and affiliated with them cronies, invited by IMPUNITY to abuse power to avoid change, while betraying public trust with blunt lies, using witch-hunt strategies for campaigns of character assassination, in order to mislead communities into refusing(!) help of Good Samaritans to the weakened by suffering MCS victims. Don't sacrifice LOVING CARE TO DEAR ONES!** Stand up to primitive, power-thirsty egomaniacs and psychopaths in leadership, resentful to change, incapable & unwilling to grasp **the EXTENT of their cruelty** - the lifelong torment from birth-defects of their OWN offsprings among many others...

Help rescue Rozalina Gutman - **THE VOICE of VOICELESS children**, being sacrificed to preventable suffering. Help SHARE healthy vigilance to break **the idle state of self defeating conformity to culture of moral atrocity**, spread by manipulation of public trust to corrupt more people into cruelty & dysfunction. **Due to her health/life being endangered, while her old car/shelter is nearing complete collapse(!)**, the RESCUE with unconventional, "outside of the box" solutions is urgent for Ms Gutman. Help to *initiate overdue humane attitude towards millions among the next generations, unable to escape MCS, already seeded by genetic mutations from toxic exposures...*

Another major contributor to Ms Gutman's suffering is [normalized devaluation of her profession of Music Instructor - the senseless tradition, of persecution by poverty, allowed by willful neglect of primitive minds in authority, non-compliant with brain/music research on transformative impacts of music education, & incapable to grasp the significance of music education for fostering ESSENTIAL FOR ALL skills for alignment with vibrational nature of our body and our universe, left out from most textbooks - at unaffordable price for humanity](#)

Join initiated by J.S.Bach and yet to be won *Battle of Mindsets* against cruel tradition of persecuting profession of Musician by devaluing and marginalizing music's capacity to optimize brain function - at unaffordable price for humanity! In conjunction with defiant use of paradoxically overlooked dissonance, Ms Gutman's Ebook speaks of initiated by Bach, but yet to be won battle for recognition of musician's GIFT for humanity, bound to living in primitive disconnect with vibrational essence of human body & universe. Today, this centuries long, collective self defeat tradition is not compliant with research on benefits of music edu for brain development & is UNLAWFUL **Persecution of music educators prevented population from developing EXISTENTIAL for ALL(!) skills for harnessing Music instinct for overcoming dangerous spread of unbalanced brain function.**

And in the course of writing her ebook on paradoxes of the human mind, reflected by music of Bach, Ms Gutman uncovered many serious distortions in biography of genius **Prisoner of Conscience**, that had been left unknown to millions of his music's fans. Due to unending unfair marginalization and persecution of musicians' profession, Bach was unable to afford legal defense from false accusations, in retaliation to his dogma-defiant innovations and **despite committing no crime(!)**. And his month long, false imprisonment was cruelly calculated to cause his lifelong persecution by unfair stigma of convict, preventing him from gainful employment, to match his unquestionable musical gift. Instead, he was forced to take the least paid and least desirable job of music educator in Leipzig that he tried hard to change, but was unable to - for the rest of his life... After his death, one of his daughters became destitute since her father was impoverished, despite his genius treasured by millions of fans today and bringing millions in revenue to recording labels and publishers today... Bach's biographies rarely reflect on these limitations of genius musician by extreme poverty, as the form of punishment for his musical rebellion that shook cultural conventions of senseless monarchy regime. **However, the stellar example of Bach's defiant dedication to his role of musician with the moral duty of Consciousness Transformer deserves to be honored for stellar exemplary dedication of humanity's advocate, reflected in his great RISK and SACRIFICE...** And when these details emerged from politically correct distortions of his biography, Rozalina Gutman realized that they are directly related to reflected in her ebook issues of Bach's didactic update on dogma of his time. Reclaimed from distortions satire metaphors in Fugue-Parody (part of WTC) reminds that in every hostility act there is nonsensical absurdity of moral & ethical bankruptcy, allowing to serve as **the effective tool for trauma relief through musical satire on power abuses against underprivileged victims, like musicians, devalued in perpetuity of time. However, required by exams emotional repression deleted Bach's use of music against indoctrination into herd-mind from most publications, and had to be restored.** Familiarity with distorted by political correctness archival records also allowed Ms Gutman to grasp important historical parallels of "then and now" for **the harmful for brain development(!) tradition of devaluing musicians.** Join her in denouncing "incivility from dark ages", unfit to **the universal need for self propelled evolution of the human brain through music-embodied self reflection and self mastery(!)** Her decades long suffering in the hands of criminal minds and abusers had been blocking her ability to quench the universal yearning for utilizing music, as the tool to elevate consciousness... However, during our time effectively employed by Bach power of Music instinct to transform the mind had been proven by modern brain/music research. And yet due to **no compliance with such research**, Her fight for life, sadly can over-compete with suffering of her musical idol Bach. This undeniable evidence has to be used for ending this **tradition of assault on the Gift of Music for humanity**, and to pursue inspired by Bach global causes, while utilizing the power of **the unique design of Bach to promote embodied self reflection and resolution of cognitive dissonance** - hard to grasp challenge, that had been leading humanity into insurmountable losses, dysfunction, self defeating moral atrocity.

- **Join and amplify Ms Gutman's call to stop routine persecution of musicians by normalized devaluation, marginalization & underpayment! Help end the evident from suffering of both**

Bach & and his advocate Ms Gutman, centuries long, yet cruel and senseless tradition of shameless, primitive obstruction of musicians' & music educators' strive to share their GIFT of music for elevating consciousness, urgent for all of humanity, in the face of timely SHIFT from self defeat mindset - at the core of all rapidly approaching anthropogenic global threats!

SHARE YOUR INTELLECTUAL LEADERSHIP: HELP UNDERSTAND INFO ON PSYCHOLOGICAL DRIVERS OF GLOBAL PUBLIC HEALTH HAZARDS, REFLECTED IN UNPRECEDENTED SUFFERING OF VIRTUOUS WOMAN ROZALINA GUTMAN

Many limitations in her pursuits came at unbearable cost to humanity of preventable suffering among millions of kept in the dark people about most invaluable asset of HEALTH. It was easy to do, by taking advantage of the Blindspots of conformity of child's "social brain" to groupthink. Thus, related awareness is the key step to **emotional liberation** from subliminal enslavement by "the herd mind".

- (1) Understanding of framed by her concept of widespread **deactivation of pain alarms to toxicity and caused by this trend warped priorities for defense from the chemical warfare on population have to be recognized, as the mental obstacle to eliminating toxicants by VOLUNTARY URGENT MOBILIZATION AMONG POPULATION FOR PERSONAL CHEMICAL DEFENSE, with the use of all available resources for the survival of immunities and humanity at large.** Ms Gutman's unique insight, illuminated by deeper grasp of maladaptive conformity-driven self defeat patterns in ***Bach Sensory Deactivation Effect***. It allowed for the answer to the question, that had not been merely posed by brain scientists for decades: **Why was it easy to keep population in the dark about these problems for long time?** Corruption of the system led to the lack of funding for related to such problems research on psychological drivers of dangerous self defeat of permitting for chemical hazards to become inescapable "fabric of our life". But caused by this Blindspot **widespread CUMULATIVE effect of normalized toxicants had NOT been CANCELLED(!). Its hormone disruptions had been already passed down thru genetic mutations, threatening with higher um ere of birthdefects in each subsequent generation** Resulting global habituation trend led humanity to the state of "**painless**" **sleepwalking through the fast lane into HUMAN EXTINCTION, forecasted by 60+ global studies(!) to onset by 2045 (or sooner!)** (+Watch revealing follow-up by COUNT DOWN's author Dr Swan).
- (2) And yet, *there is tangible HOPE:* **Communities can be healthier, if they welcome individuals with SEVERE MCS - to share precious painful GIFT for IDENTIFYING and AVOIDING DANGEROUS FOR ALL(!) chemical hazards, lurking in many commonly sold products.** Painful MSC gift for humanity can help with prevention of many inflammation based illnesses that had been unlabelled as "environmental" by hospital industry, AS IF they are "not preventable".
- (3) **Why is the welcome of MCS victims' guidance on lurking toxicants essential to utilize NOW! in all communities?** Because **UNCONSTITUTIONAL system of political campaign contributions eroded the key democratic foundations of USA, legalizing bribes to US Legislators, paid to "forget" to require by Law for SAFETY TEST prior to market entry of all consumer goods.**
- (4) **How did seemingly logical individuals in power chairs lost their moral compass for vigilance against safety threats to own offsprings, as the result of systemic dysfunction?** Indiscriminate of top authorities collective Blindspot of subliminal **MALADAPTIVE SENSORY COMPLICITY TO TOXICITY warped their PRIORITIZING ability for guarding with loving care their OWN little dear ones.** Thus, **as the result, avoidance of universal danger of toxicants in many goods for millions of consumers was sacrificed to financial mega profits - however, powerless to reverse birth defects in OWN offsprings.** In fact, greed is only secondary to the

sensory and emotional detachment from reality. So, painful gift of MCS for identifying/eliminating toxic for ALL products is able to reveal EXISTENTIAL FOR ALL goal for rapid change. Humanity has no time to linger, no matter how bitter and inconvenient the truth re corruption is in most parts of society, even including medical industry. Primitive & false valuation of reality, based of profitable outcomes is equally irrelevant for both the wealthiest among corporate executives and the least paid underprivileged populations, when it comes to incurable environmental illnesses and birth defects. (Bach's polyphony fosters brain's navigation through *interconnected* universe.)

- (5) No disregard of their impermissible(!) CUMULATIVE effect, that cannot be properly replicated in the lab, maybe allowed for so called "minimally toxic" exposures. Thus, **unwavering MCS whistleblower Ms Gutman had been calling for NO BUSINESS AS USUAL, incl. directing ALL available resources to prevent fast nearing global scale suffering.** Detached from reality, pharma-funded research, that left untapped the gift of MCS, manifested into false standards for health/safety, at unbeatable price of global suffering of millions, while threatening with disappearance of human race (!). That is why, Ms Gutman calls for the **true formal and informal** leaders to raise their voices to awaken from idle complicity & submission to culture of moral atrocity, that led to global trend of humanity's self-extermination. Raise your counterpoint to WARPED PRIORITIES of most elected/appointed officials, discouraged from rapid existential changes by IMPUNITY for crimes, & mindless of sacrificing OWN dear offsprings to birth-defects.
- (6) In the face of fast unraveling pandemic of environmental illness, along with **onset of human extinction, caused by preventable anthropogenic impacts, all scientific approaches must be revised with the focus on this indiscriminate global threat for all.** No academic or popular science publication or presentation are justified to shape collective consciousness **without integration of the subject of the impacts of neurotoxic chemicals on human consciousness (in addition to physical health)** from normalized hazards. Without such updates on existential urgency of realignment of all academic pursuits, recycling of outdated concepts in print, media and other forms of presentations is obsolete and contrary to the urgent, global focus on survival

That is why, we call upon the change makers rooted in the highest wisdom - the wisdom of the heart to amplify the unique, heartfelt appeal of MCS victims, like Rozalina Gutman, acting as "canaries in the coal mine", while warning of deadly, yet hard to perceive threat - through own suffering, in order to prevent RAPID GROWTH of widespread suffering among millions(!).

Also, please support other urgent global causes, illuminated by Ms. Rozalina Gutman's unique perspective - otherwise invisible & propelled by her, despite all her hardships(!)

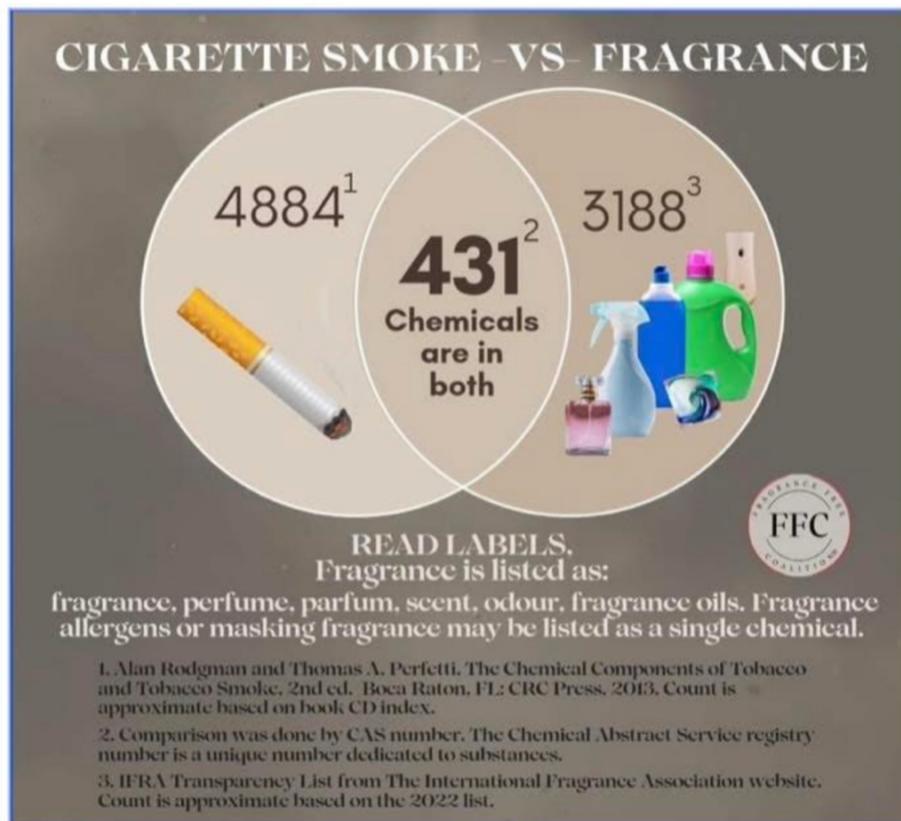

Causes, related to protecting MCS painful gift from cruel denial of illness

- Ms. Gutman had lost her tolerance to toxicants as the result of becoming "Mold refugee" with acute symptoms of MCS, leading to suffering from multiple cases of retaliation to her mere expression of **painful intolerance to the hygiene products with toxicants in fragrance, chlorine, ammonia, pesticides, fungicides, herbicides, forever chemicals among other normalized chemical hazards,** used by unaware of their danger first responders, medics, crisis and disability assistance agencies, public service employees, professional disability

advocates, and various other professionals, whose duties involved public interaction. Most of them were unaware of being **unfit to their professional duty**, as well as being in danger from undisclosed to public **cumulative effect of exposure to toxicants and its destructive impacts on physical health and mental performance of unsuspecting consumers of normalized “minimally toxic” consumer products**, allowing for toxicants to become normalized and widespread “fabric of our life”. Please amplify her whistleblower’s call for support of all forces of progress for **the mandated certification for fitness to duties of all professionals interacting with public, including mandatory ban on using personal care/cleaning products with ⚠ toxicants for body/car/office/home - with toxic cumulative effect for ALL(!), but normalized & undisclosed to public.**

- For example, the public and most uninformed medical and public service professionals deserves to be informed, that **431 ⚠ harmful toxicants are shared by fragrance and cigarette smoke. Thus, avoidance of products with fragrance (that contain active VOC’s), can SAVE LIVES! from heart attacks, strokes, seizures, loss of coordination, asthma and lung collapse, among other preventable deadly dysfunctions among many people with already compromised health. Please, help to amplify this urgent LIFE SAVING message!**

**⚠ CIGARETTE SMOKE & ⚠ FRAGRANCES
SHARE 431 TOXIC INGREDIENTS |**

**ADDICTIVE TOXIC FRAGRANCES MAY NOT
BE TOLERATED, JUST AS 24/7 EXPOSURE
TO 2ND HAND SMOKE IS NOW BANNED**

- Coursework for above MCS-safety certification through continuing education for the professionals, directly interacting with public, should include **practical detox skills for accommodations of MCS disability**. And public needs to be informed, that such skills are invaluable **for personal safety and self defense** from cumulative impacts of toxicants, along with **loving care for offsprings, effected by passed down genetic mutations in perpetuity and for generations ahead - if any may remain, in the face of prevention of nearing onset of human extinction, along with pandemic of increasing environmental illnesses**. Please, help to share awareness about **invisible higher than average vulnerability of victims of MCS disability to toxic exposure - life saving for them & allowing for existential benefits for communities and humanity at large**.
- Since isolation from exposure to toxicants is the key for guarding the life of “Mold refugees” with acute MCS symptoms, like Ms. Rozalina Gutman, government agencies of all levels have the duty to fulfill their **medical necessity for chemicals-free housing** in the areas away from known sources of outdoors air pollution. Please, help to amplify no tolerance to the denial of this fundamental human right, that had been triggering MCS suicides(!), may not be tolerated(!).
- Support the urgency for the mandated nationwide **toxicants-free choice of cleaning agents** (such as no fragrance, chlorine, ammonia etc.) as the key for **MCS accessibility of public venues, including their bathrooms(!)**
- Similarly to the ban on 2nd hand smoking, **the signs for FRAGRANCE FREE ZONE should be mandated in all public venues and transportation - for banning 2nd hand fragrance exposure, due to prevention of accessibility for MCS victims, due to being life threatening for some of them, as well as due to containing endocrine disrupters, that are hazardous for ALL(!)**. Trillion dollar profits of fragrance industry may not come at the cost of **risks for health and loss of birthright of millions of victims of designed to be addictive fragrance, containing petrochemicals, by taking advantage of the Blindspot of human brain**. Manufacturing of such products is **unjustifiable(!), since they may not be allowed to speed up the arrival of pandemic of environmental illnesses**.
- In the face of urgent prevention of this fast growing global health threat, please support Ms. Rozalina Gutman’s whistleblower’s call for mobilization of the public for defense from preventable exposure to toxicants and the urgency for mandated creation of **Task-force teams with involved MCS-victims in the capacity of advisers** - to amend all governing bodies at federal, state and local levels, in order to assure for urgent and existential MCS-safe certification of public agencies and business.

Causes, related to the rescue of profession of musician & music educator

- *Ms Gutman’s eBook [“Paradox of invisible dissonance in Fugue-Parody by J.S.Bach”](#) allows for [observation of such collective Blindspots](#), that projects her vision beyond common harmful stereotypes. And, her colleagues called upon her to provide access to her brain to the brain researchers to understand better the ways of using music for brain optimization. And along with positive response, Ms. Gutman extends invitation to other students of Bach to join the efforts, since her pain-informed shift from approach to distorted by emotional repression in Bach reportedly led to cascade of discoveries (in music and beyond), that began with clarity of the grasp of missed in the plain sight dissonance - defiantly employed by him with sarcastic meaning. While the link of stupefying impact of expressive suppression and loss of capacity to grasp important*

elements of the notations had already provided indisputable evidence in the case of involving many confused interpreters of Fugue-Parody, **Ms Rozalina Gutman calls for the support of the related research** - on tracking the best outcomes and methods of shifting to Heart-centered pedagogy from falsely required emotional repression in Bach that allows for engaging into self-reflection through music-embodiment of complexities of the human mind, initiated by Bach through his rich with nuanced complexities polyphony (that had been unfairly oversimplified). Emotional engagement with complex texture of Bach's polyphony allows for the emotionally/analytically balanced brain engagement, critical for developing the skills for self growth and self mastery - essential for optimal functioning. Her focus is on the effective ways for fostering and maintaining **WHOLE-BRAIN, INTEGRATIVE cognition**. She strives to find the best cognitive technologies for helping students to harness Music instinct, find the best methods for fostering **peak performance and achievement of Higher Human Potential**. (Ms Gutman was invited to int'l events to share her unique method for fostering prodigious success in students, in defiance of dominance of unfair low standards.) Please, support her brain optimization initiative!

- Raise your voice to amplify Rozalina Gutman's URGENT strive of whistleblower against entraining injurious pattern, warning other musicians to learn from her own painful lessons. She pointed **urgency of mandatory health compliance of exam standard for innovator-Bach to voluminous data on the link of expressive suppression & serious health calamities (including cardiovascular disease, according to Quartana's studies)**. She warned against barriers to notated by Bach innovative [Heart-centered pedagogy](#) - *today's music education's focus on fostering emotional intelligence*. - She exposed emotional detachment as the root-cause of [disconnect of educational priorities for the universal need for the ESSENTIAL skills of self-reflection on self-defeat/harm, caused by evolutionary relics of human brain - through MUSIC-embodiment, based on Music instinct](#)
- *Also please support Ms Rozalina Gutman's written proposal for tracking compliance with research on benefits of music education - essential for ALL*, due to dangerous levels of underdevelopment of the brain and related absence of integrative consciousness (It was left with no response since Intl. Seminar'2022 for ISME Research Commission). Earlier she found support for that from vice president for arts and music committee at Ministry of Education of China, who invited her to lead Intl. Symposium based on camaraderie of colleagues from several countries at 29th World Conference for ISME. And Ms Gutman showed her dedication to this subject of global significance by taking incredible personal risk of flying for 10 hours over Pacific Ocean with no place to land in case of emergency, after left unresolved heart attack.
- **Support proposed by Rozalina Gutman integration of concepts of vibrational essence of all matter in our universe, including human body - into school textbooks, including training of all musicians**. Music education has to be broadened by **integrative** approach to music's essence & applied for optimization and realignment of human brain to this primordial paradigm in all parts of society - to elevate consciousness, as the key to preventing fast rising, global mega-crisis.
- **Join internationally recognized, wise & insightful teacher Rozalina Gutman in her urgent call for promoting universal access to ALL for learning of the skills for harnessing driven by**
