You will be evaluated across four key areas: Business Acumen, Risk Acumen, Personal Attributes, and Education.

CHOOSE YOUR PATH

The Board Members' Course on Risk®

A comprehensive development program available via self-paced online study or guided-study cohorts. Graduates earn the Certificate in Risk Governance and 15 points towards approval to use the Qualified Risk Director® designation.

Alternative Examination

Choose an exam consisting of short essays and multiple choice questions from each of the areas covered by The Board Members' Course on Risk®. Upon completion, candidates earn up to 15 points towards approval to use the Qualified Risk Director® designation.

Short courses may be required to address any exam deficiencies.

Once you complete your path, we compare your public profile to your self-assessment and may ask for additional information. Successful candidates are approved to use the designation.*
