

“Sew Many Geese”

Block of the Month September 2026

Members will be making a block which comprises 2 rows of 5 flying geese and a separate row of 5 geese which will be used to create the border. Members will be given a blue fabric strip $2\frac{3}{4}$ " x 13" which will be used to complete their block. Please use bright batik or batik like fabrics for the colored portion and any cream or beige tone for the light portion.

Cut 15- $5\frac{1}{2}$ " x 3" rectangles of a variety of fabrics.

Cut 30- 3" x 3" squares for tone on tone beige or cream fabrics. Try to use a variety.

Make your flying geese using the stitch and flip method. Place a 3" square on one side of the rectangle. Draw a diagonal line and stitch on the line. Trim $\frac{1}{4}$ " and press open. Repeat with another 3" square on the other side of the rectangle.

Sew a row of five geese together as shown. Be careful not to cut off the point in the center. Press the seams up towards the point. Assemble two rows and the 13" strip of blue fabric as shown. Save the third strip for us to use in the border.
