

## October Block of the Month

### Salt Water Taffy

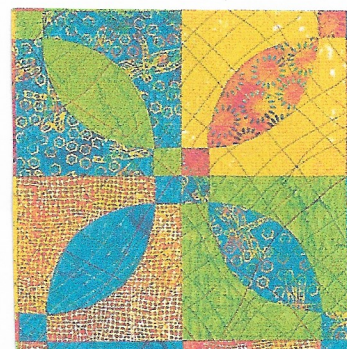

Cut 8" x 8" square of bright color

Using the included template cut one melon shape from a contrasting bright color. Cut two 2 ½" x 2 ½" squares from this same fabric.

Fold background square diagonally in half and press. Using this fold line center the melon shape and applique using members preferred method.

Please use matching thread to keep sew line as invisible as possible. If you are machine appliqueing, fuse the melon shape onto the background square following the manufacturers instructions for the fusible web you are using.

Return blocks with the 2 ½' squares pinned to it. Sheryl and I will finish the blocks.

Add seam allowance if you  
are planning to hand appliqué.
