

Square-in-a-Square

December 6 1/2" Block

This month is a paper pieced block. There are many good tutorials on line to help if you haven't done paper piecing before. Or you may call Sheryl at 570-234-6820 for help.

When you copy the block, make sure it measures 6 1/2" on the dotted line and 6" on the solid line.

After you finish the block, cut on the dotted lines - I used a 6 1/2" square ruler to cut so that my block was the right size. Continue block using the 12" Sawtooth Star pattern from October and use this Square-in-a-Square block for the 6 1/2" center of the star block.
