

## SUSTAINABLE DEVELOPMENT GOAL 9

# WHAT'S HAPPENING IN THE HUNTER

### PORT OF NEWCASTLE

Port of Newcastle

### CSIRO

CSIRO aims to solve the greatest challenges through innovative science and technology. The CSIRO energy centre in Mayfield, Newcastle hosts their solar field and energy research hub.

### THE BUSINESS CENTRE

The Business Centre is a community invested organisation that has been responding to the needs of entrepreneurs, businesses and governments for more than 34 years. They are a not-for-profit with the sole purpose of creating sustainability; in jobs, businesses, urban and rural economies. Their strength has been built on our ability to develop long term relationships, listen and respond to our community, while adapting to a continually changing business environment. They deliver experience led advice, mentoring, education and connections to achieve customer and community goals. They are all about creating sustainable economies and resilient communities.

### THE AUSTRALIAN INDUSTRY GROUP (AI GROUP®)

The Australian Industry Group (Ai Group®) is a peak national employer organisation representing traditional, innovative and emerging industry sectors. They have been acting on behalf of businesses across Australia for nearly 150 years. Their purpose is to create a better Australia by empowering industry success. They offer our membership strong advocacy and an effective voice at all levels of government underpinned by their respected position of policy leadership and political non-partisanship.
