Subject: Message from Website: General Questions/Complaints

Under the Oklahoma Open Records Act, I, Christopher J. Barnett hereby request any and all e-mails and electronic communications between Matt Terry and Julie Ezell for the time period starting January 01, 2016 to current.

I am requesting this information in the interest of the public. It has come to my attention as the President of Transparency for Oklahomans, a non profit, public watch dog group based in Oklahoma that an affair took place between the two people mentioned above. The communications are necessary to see how much time they spent conducting their sexual relations on the tax payers dime and how often they talked about these things via e-mail or text message. Transparency for Oklahoman's request all records be made available for inspection as soon as possible. The public has a right to know. I will also send my request via certified mail with return receipt.

I request that the records requested be turned over as soon as possible. Oklahoma law provides that the prompt, reasonable access be made to those requesting records.
