## **EZ Series<sup>®</sup> - Single Phase Simplex**

## Single phase, simplex demand dose or timed dose float controlled system for pump control and system monitoring.

The EZ Series<sup>®</sup> simplex control panel is designed to control one 120, 208, 240 VAC single phase pump in water and sewage installations.

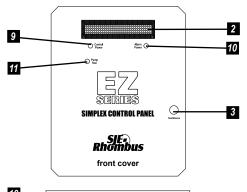

The EZ Series<sup>®</sup> simplex control panel features a display on the inside of the front cover for programming and system monitoring.

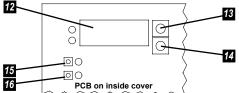

The panel configuration can be easily converted in the field to either a timed dose or demand dose.

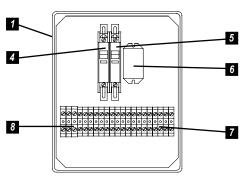

The optional post models include an access door. The post can be mounted in the ground directly, over a 4X4, or conduit. The panel is also available with optional duo alarm to meet the needs of various applications.

## PANEL COMPONENTS

- Enclosure base measures 10 X 8 X 6 inches (25.4 X 20.32 X 15.24 cm). NEMA 4X (ultraviolet stabilized thermoplastic with removable mounting feet for outdoor or indoor use). Includes locking latch as standard. Note: Options, voltage, and amp range selected may change enclosure size and component layout.
- 2. Red Alarm Beacon provides visual check of alarm condition.
- **3.** Exterior Alarm Test/Silence Switch allows horn and light to be tested and horn to be silenced in an alarm condition. Alarm automatically resets once alarm condition is cleared.
- 4. Circuit Breaker provides pump power disconnect and branch circuit protection.
- 5. Circuit Breaker provides control/alarm power disconnect.
- 6. Power Relay controls pump by switching electrical lines.
- 7. Float Connection Terminal Block
- 8. Incoming Control/Alarm Power & Pump Power Terminal Block
- 9. Control Power Indicator indicator light illuminates if control power is present in panel.
- **10.** Alarm Power Indicator indicator light illuminates if alarm power is present in panel.
- 11. Pump Run Indicator will illuminate when pump is called to run.
- **12.** LED Display shows system information including: pump elapsed time (hh:mm), events (cycles).
- 13. Menu/Enter Button used for viewing panel settings.
- 14. Set/Change Button used for programming panel settings.
- 15. Pump 1 Push To Run Momentary Switch Pump activates when pressed
- Alarm Horn provides audio warning of alarm condition (83 to 85 decibel rating). (Located inside panel on cover, not shown)
- **NOTE:** Schematic/Wiring Diagram and Pump Specification Label are located inside the panel.

## **FEATURES**

- Entire control system (panel and switches) is UL Listed to meet and/or exceed industry safety standards
- Dual safety certification for the United States and Canada
- Standard package includes:

Demand Dose - three control switches

- Timed Dose two control switches
- Available with EZconnex<sup>®</sup> float system
- Complete with step-by-step installation instructions
- Five-year limited warranty
