

Dear Florida Industry of the Future Stakeholder,

You are cordially invited to participate in the final in a series Industries of the Future virtual sessions to be held on **September 13, 2023**. This virtual session, titled “**Aerospace & Aviation**” builds upon the previous Industries of the Future virtual sessions. This session will feature Aerospace & Aviation experts who will discuss this sector as well as implications for Florida and the nation.

The Industries of the Future initiative is led by the DR-4673-FL and DR-4680-FL Economic Recovery Support Function (RSF), which is mission assigned to serve Florida in the aftermath of Hurricane Ian and Hurricane Nicole. It is the result of close partnerships between federal, state, local, and non-profit organizations that have missions to see Florida expand and diversify its industries to become more economically resilient. This initiative includes a series of virtual sessions held during Summer 2023.

The purpose of this event series is to help Florida stakeholders better understand some of the promising industries of the future and what they could mean for Florida’s future economic base. The series also provides an opportunity to learn how other states and communities are nurturing and growing these industries. In the face of future weather events, this initiative will help state and community leaders envision the potential for achieving greater economic diversification and resiliency through supporting industries of the future.

Florida is a national leader for its concentration of businesses in Aerospace and Aviation. This industry has recently surpassed Tourism in terms of gross state product, according to FloridaMakes. This session will feature representatives from the industry.

WE WELCOME YOUR COLLABORATION IN ADVANCING AEROSPACE & AVIATION
IN FLORIDA ON **SEPTEMBER 13, 2023!** [CLICK HERE](#) TO REGISTER TODAY.
