PINNACLE

Style with Substance

Welcome to the world of Pinnacle.
A thermoware and insulated plastic homeware
brand that brings to a vision that resonates
beyond the product.

Who are we?

OUR STORY

It is our honor to introduce you to Tokyo Plast International Limited, a front runner in the Thermoware Sector since its inception in 1986. In 2007, our home brand "Pinnacle." was born. Today all of our products are manufactured and distributed under this brand name. Pinnacle means "peak of success". We strive to create best value products for our customers by following the motto - "Style with Substance".

We've always believed in delivering the finest products possible. It's our goal for all our manufacturing processes to follow the highest standards of quality, using ethical sourcing practices. Our raw materials are 100% virgin grade plastic and food safe stainless steel. All of our raw materials are FDA approved with ROHS & LFGB test certifications. Our Manufacturing Units are compliant with ethical audits by BSCI and technical audits by various customers globally.

Our History

HUMBLE BEGINNINGS

The story of Pinnacle started in 1986 as “Tokyo Plast”. Founder Mr. Velji Shah’s goal was to “empower people to share and connect through food, anywhere and everywhere” – a philosophy which still holds true today!

This ambitious project was initiated by the promoters to cater to the global needs of thermo products after they sensed that there was a void of superior quality products in the market. Our unparalleled product portfolio in this industry includes Homeware and Outdoor Products.

Mr. Velji Shah’s protégé Haresh Shah later renamed the brand to “Pinnacle” in 2007 to pay homage to one of their most successful products and to the company’s commitment to striving for perfection.
