Disclaimer: Color chips are produced as accurately as possible; however, actual paint colors may vary from samples and from batch to batch. Paint colors are affected by many factors, including lighting, age, type of finish, type of surface, and adjacent colors. Some colors may require more than one coat for complete coverage. If final color appearance and color matches are critical, paint should be sampled on the surface to be painted. Sherwin Williams and Dunn Edwards assumes no responsibility for variation of color.
