

THE WHITE HOUSE
WASHINGTON

July 12, 2023

Dear Dr. Pomeroy,

Thank you for sending me your kind note of support.

When I was elected President, I promised I would be President for all Americans and that I would work to deliver results for the American people. Everything we've achieved so far is proof that, when we can come together as a Nation, there is nothing that we can't accomplish. There is nothing beyond our capacity. We just have to remember who we are.

While there's more work to do, I'm more confident than ever that the soul of America is vibrant, the future of America is bright, and the promise of America is real and just beginning.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Biden".
