Welcome to 2023

We are proud to highlight one of the many accomplishments of the Biden-Harris administration's first 2 years:

“Record-Breaking 16.3 million People Signed Up for Health Care Coverage in ACA Marketplaces During 2022-2023 Open Enrollment Season. Under their leadership, the national uninsured rate reached an all-time low earlier this year, and the 2023 Marketplace Open Enrollment Period saw the highest number of plan selections of any year since the launch of the ACA Marketplaces ten years ago.”

January 25, 2023

TAKE ACTION NOW

This extraordinary increase in coverage is due to the Inflation Reduction Act which extended the American Rescue Plan's provisions through 2025. **Congresswoman Lauren Underwood's Health Care Affordability Act of 2023** would make this historic expansion of health care coverage and affordability *permanent*. ***View Underwood's Health Care Affordability Act on our website <https://nursesforamerica.net>***

Please email Jack.DiMatteo@mail.house.gov in Rep. Underwood's office and let him know that you support **Congresswoman Lauren Underwood's Health Care Affordability Act of 2023**.

Nurses for America has revised our mission statement

Nurses for America 2023 Mission Statement (nursesforamerica.net)

Nurses for America is a grassroots group of nurses with diverse specialties and expertise advocating for:

- nursing
- health access and equity
- reproductive rights
- democracy

- voting rights
- human rights
- gun control
- Social Security, Medicare, Medicaid
- climate change for a healthy environment
- The Biden/Harris agenda

NFA is working NOW for 2024

"It's never too early to start preparing for the next election." James Carville

The Republican led House wants to undo the Biden-Harris accomplishments. They want to pass legislation such as a nationwide ban on a women's right to abortion, cuts in Medicare and Social Security and a 30% sales tax. They oppose common sense gun measures, defense of voting rights, humane immigration reform, and protection of same sex marriage. They plan to investigate the January 6th Committee, Hunter Biden, the withdrawal from Afghanistan, Dr. Anthony Fauci, the FBI raid on Mar-A-Lago and the source of the COVID virus.

Our current Democratic majority in the United States Senate is the first line of defense against any US House passed legislation. Democrats will be defending 23 of the Senate seats in the 2024 election. Republicans have already launched a digital campaign against the incumbents in Montana, Ohio, and West Virginia : John Tester, Sherrod Brown, and Joe Manchin. Five of these 23 Senate seats are in key swing states: Arizona, Michigan, Nevada, Pennsylvania, and Wisconsin.

During the months to come, Nurses for America will be highlighting some of the Senate races and seeking your support. It's a team effort and we need to expand the Democratic majority in the Senate with candidates that

support our mission.

Nurse Candidates NEEDED to run for office - local, state, and federal

Nurses are needed to inform policy. Think of all the things you do as a nurse and how much you know about what is needed in healthcare. Healing Politics is an educational, non-partisan and non-profit organization in Washington, D.C. The group's mission is to recruit and train nurses and midwives to run for elected office up and down the ballot while building a culture of civic engagement.

If you know of nurses in the local or state democratic party who are considering a run for office, Healing Politics will hold its first info session on February 15, 2023. For more information go
