

Moon Circle

Join us twice a month to celebrate the New Moon and Full Moon as we come together to plant our intentions – metaphorical seeds whose growth we nurture in a circle of supportive co-creatrices. We will work with lunar journaling throughout the month (materials provided) and we will share our progress and our dreams, and learn to put our magical best forward as we manifest the positive changes we want to create in our lives and the world at large. We will honor the Wheel of the Year with its solstices, equinoxes and cross quarter holidays as we chart the progression of lunations through the spiritual calendar.

Meeting on the day of the week dedicated to the Moon – that is Monday, from the Old English for Moonday – we come together with sisters from around the country on a conference call. Beginning with a short grounding and an inspiration for the day (tarot card, short poem), we will do two rounds of sharing and listening. The friendships formed in this way can be deep, sweet and longlasting. There is no one who shares your joy and supports you with greater heart quite like a spiritual sister in honor of our most ancient ancestress, the Moon.

Lunar journaling divides each lunation (just shy of a month) into the eight phases of the Moon and links these phases to the lifecycle of the seed. In this way we can keep our steady focus on manifesting the things we want to grow in our lives, and direct our energies towards the actions we need to take to see those changes manifest. Speaking our intentions and progress out loud and witnessing others do the same is a form of personal empowerment that truly enriches our daily lives, even as we go about our normal affairs, with our gratitudes, power of manifestation, focus and energy beautifully held in the nourishing container of our shared Moon Circle.

A lunar practice is a nurturing way to give voice to yourself, gain clarity about your needs and desires, ground you with deeper embodiment as a human on this special Earth mother we call home, and root yourself in your own experience with safety, trust and wellbeing. This is highly recommended for intuitives, empaths, those who seek even greater attunement with the flow of the universe, and those who need to bring higher vibration and wisdom into their daily lives.

This Moon Circle is a safe place led by Tobey White Heart who has years of experience with her own lunar practices, whether that is lunar journaling, full moon ceremonies or leading other women's and wisdom circles. Join us for some sweet sharing and the creation of more love in your life.

Mondays (see attached schedule for 2017) at 5 pm Pacific, and 8 pm Eastern.

Cost \$25 per month. Limit 13.
