Jean has had the privilege to be accepted into Mavis Pitilla's 2020 mentorship program and Paul Jacob's 2021 mentorship program.

July 11th – Flame Messages

In this workshop participants will learn to connect with their loved ones in Spirit and will use the flame to create an image. Then they will have the opportunity to practice interpretations of the images. Each image holds a message. We will then use mental mediumship for the interpretations. Participants will give readings to themselves and to others in the class.

July 14th – Blocks to Mediumship

During this class, participants will gain an understanding of the blocks that may occur during mediumship. These blocks can interfere with a reading and/or our development as mediums. The good news is that blocks and interferences can be worked through.

July 15th – Past Life Regression

Trance Medium & Healer Jean Mandeville will lead participants through a series of guided imagery exercises that will release disharmonious energies that no longer serve self, center us, and ultimately restore each individual. Jean's spirit guides will then clear everyone's chakras and auric field. The class will then be led to a divine light and the Akashic Records, which is where all of our soul information/past lifetimes are stored. A record-keeper will bring us an excerpt of life to show us for a particular reason. We can gain understanding of why we are experiencing something in this life that we have brought forward, whether it be a gift, an illness or an unresolved lesson. If there is a need for healing, a shamanic soul retrieval will take place. Shaman feels that when we endure a trauma, we lose a piece of the soul, or some of its energy is left as an imprint in the situation. This energy can be retrieved, and great healing can take place. When the class returns to our present-day reality, all will have a feeling of peace and well-being.

July 16th – Lisa O'Connell-Smith – Vision Boards 10:00AM

Lisa returned home to Spiritualism in 2014 when she walked through the

doors of the Pine Grove Temple. Lisa is the Treasurer and a very active member for both the New London Spiritualist Church and the LAS/PGSC. She is also a trustee on the Connecticut State Spiritualist Association. Lisa is currently studying Spiritualism through the Morris Pratt Institute. She is a Medium and healer. Lisa serves other NSAC churches and is committed to doing what she can to bring Love, Harmony and Peace into her own and others' lives.

In this workshop she intends to present a fun ritual for creating an effective vision board with a whole bunch of inspiration! Plus action steps to take once your vision board is completed. She will make it clear what a vision board is. There is no better time to manifest a new reality than the present moment. No reason to wait for circumstances to be "perfect". You have the power to make changes in this very moment-use that power! Energy flows where attention goes and that is exactly why vision boards work wonders. They act as motivating reminders, keeping our goals at the front of our minds. Vision boards come in all shapes, sizes and complexities, always reflecting the style of the person who created it.

July 16th – East Lyme Day – 3:00PM – 6:00PM

Come by our table for a message from Spirit. The main street of Niantic is closed with vendors of all types setting up their wares. It is an afternoon filled with fun, food and music ending with fireworks on the beach.

Andrew Dee is a natural born psychic, spirit medium, author, teacher and unbelievably, a retired British military officer with many years' experience

traveling the world. Following on from his radio shows and as a presenter with Psychic TV in the UK he is joining us to share his gift. Andrew uses every bit of his previous experience, intuitive abilities and connection with his spiritual guides to inspire his global clients to achieve their life's ambitions. He has trained extensively at The Arthur Findlay College in England with world-renowned tutors and now offers his skills to his own students, both here in the US and UK.

July 18th - Spirit Inspiration

I know there are times when you feel as though the spirit world has deserted you and left you feeling alone, but this is never really the case. Spirits are always around and will often let you know their presence, but equally they will guide you gently through your days without necessarily making themselves known. The spirit world inspires us in many different ways, but we don't always understand why or how. It's important for you to appreciate this if you are at the beginning of a spiritual journey but wish to communicate with Spirit more readily. Spirit communication should be a natural process. The only reason it may not feel this way is because we – or more accurately, our brains – get in the way. We think far too much. Shoulda, Woulda, Coulda. We try to reason, plan, decipher and recall instead of just trying to “be” – be in the moment. Let's take a walk together with spirit and see where they take us on this inspirational trip.

July 21st – The Psychology of Mediumship

When it comes to mediumship, to the uninitiated, it would appear that we, as mediums, simply grab hold of spirit visitors, wring messages out of them and, whilst smiling, pass said messages on to our waiting sitters. What is not obvious is the wealth of work that happens behind the scenes with our wealth of gloriously talented mediums. In terms of information received, we are performing the equivalent of spinning plates, juggling bowling balls whilst standing on one foot and spinning hula hoops on the other foot as well as tending to the needs of our sometimes-bereft clients who may be total newbies or simply worn out by the trials and tribulations of life and yet seeking clarity. Whichever way you look at it, anybody choosing the pathway of mediumship has not opted for an easy ride and many choose not to continue. During this lighthearted but informative talk, Andrew will be taking you on his own journey of mediumistic discovery and some of his light-hearted and not so light-hearted tales of the unexpected. He will see you there!

July 22nd - Understanding Energy and Altered States of Consciousness.

Just as musicians need to constantly practice their musical scales, we mediums need to meditate to get better at what we do – and not very many do this regularly enough. Meditating often, as well as working as a medium – whether that’s for demonstrations of clairvoyance or private one-to-one readings – will help you receive from Spirit or simply calm the mind, But what happens inside our heads when we do meditate? In this workshop, we will be taking a look at altered states of consciousness and what that means for us on a daily basis as well as when we perform mediumship. We will also be looking at where does the monkey mind go during the process, and what we do to get better at what we do?

July 23rd – Brenda Sullivan – Let Your Spirit Soar – 10:00AM – 4:00PM - \$55 – NO DISCOUNT

Brenda Sullivan is an inspirational speaker and healer. She was visited by an Angelic apparition in 1991 after the death of her son. The angel opens a door to a deeper understanding and awareness of the spiritual world and her connection to it as a medium and intuitive. Brenda went on to receive teachings and training from many in the physical and nonphysical realms. In 2022 she began a personal mentorship with Sonia Choquette after completing her Glorious Life course. She happily shares her experience and knowledge so others may deepen the connection to their own spiritual guidance. Brenda is currently serving as the President of the New London Spiritualist Church. Are you tired of the same old same old? Feeling stuck while others around you are moving forward in life? This one-day workshop will help you break free and give you tools to begin living the life you want to live! Having just completed a six-week workshop with Sonia Choquette, Brenda would love to share with you some tips and techniques to start you on your way. Learn to feel the difference between ego and intuition. Work with and be supported by your heavenly helpers, ask for and receive signs that you are not alone. When you decide to work with your guidance, you change the rules that govern your life and allow it to become easier. In this day of activities, we will move about “playing with our guides”, connecting with our ever-present angels and giving and receiving mini messages from our divine support system, Bring a lunch to enjoy on the one-hour break.

July 24th – July 30th - Christopher DeSerio

Chris DeSerio, MA, CHt, started his journey into actively engaging with the

Spirit World as a child catching glimpses of spirits and beings in mirrors and as a preteen feeling them very regularly around him. Fast forward several years and Chris started studying with a handful of notable mediums of which the most influential being Audrey Wiley of the Woodlands Sanctuary in Australia. He continued to develop his abilities then as he does to this day nearly 25 years later in better connecting not only as a psychic, medium, healer, teacher/tutor, and paranormal expert, but in how to better empower himself and his clients regardless of circumstance.

July 25th - Fun with Sand Readings

Adding more of a fun factor to any psychic reading can allow for the energy to flow more smoothly which means more clear information for you as the giver (psychic) and the person for whom you're reading. Beyond that, it's dynamic, engaging, and surprising what you can achieve whether you've already taken a course and have done readings or are totally new to it. And who hasn't enjoyed playing in the sand! This class will have you practice using sand in order to provide information and guidance from the person across from you via your psychic senses (and yes, we all have them and can-do phenomenal things with just a little bit of effort). Again, no prior experience in psychic development is necessary.

July 28th - Letters From Spirit

This workshop is designed to have you learn and practice several ways in which to allow Spirit to come through your writing. Combining Spirit with the written word has the power to bring forward a whole new depth to a topic, as well as separate information and different communicators altogether, than otherwise typically received in the evidence and messages disseminated through mental mediumship. Much like in the physical world, the written word matters and can have a way of captivating your mind and soul more than the spoken word alone, taking you to places new, forgotten, or worth revisiting in this life that is you. thereby offering further insight and change.

That said, both should be appreciated and celebrated, as their combination paints a beautiful picture not achievable when isolated from each other. That truth is letters from Spirit.

July 29th - The Ins and Outs of Table-Tipping

Table-Tipping has been well-noted as a form of reliable spirit communication as far back as the Fox Sisters in 1848. It's a form of physical mediumship, meaning that whoever's in attendance can experience the results of this type of spirit contact through the physical senses of sight, taste, smell, hearing, and feeling versus mostly relying on your or another's psychic senses. As table-tipping is a great tool for receiving information from the Spirit World, and in that has a way of lending itself to different types of communication as well as communicators than, say, mental mediumship, channeling, and trance, what better than to learn the dynamics of running a session with a focus on:

- Types of Table-Tipping
- Running a Session From Opening to Closing Effectively
- Engaging In Multiple Table-Tipping Sessions with Fellow Students
- Better Understanding Factors Influencing Success

Connecting the Dots between This Form of Contact and Mental Mediumship

July 30th - Being One with Spirit: Taking Your Mediumistic Abilities to Next Level in Working with Groups 10:00AM – 4:00PM - \$50.00

This class is intended for those who want to connect with spirit communicators in a more profound manner thereby paving the way for better evidence and clearer messages while working with all size audiences too.

You will be required to stretch your abilities in putting these techniques into practice so as to best benefit in further developing your rapport with Spirit as well as your presentation skills.

Therefore, hands-on application will be stressed with your fellow students.

While the techniques will have more of a focus on working with 2 or more people, much of what's covered has clear applicability to conducting one-on-one sessions, and include:

Setting the Stage For Greater Success:

- Behind the Scenes Self-Preparation For This Specific Work with Spirit
- Preferable Seating Positions For Your Sitters
- Important Points To Cover In Your Overviews with Sitters
