JELLYFISH
LIGHTING

All In One Exterior Lighting Solution

One system conveniently covers all of outdoor lighting desires.

Security Lighting
Accent Lighting
Holiday Lighting
Game Day Lighting

With JellyFish Lighting your nightly accent lighting can be transitioned to colored lighting for any occasion with the touch of a button on your smart device.
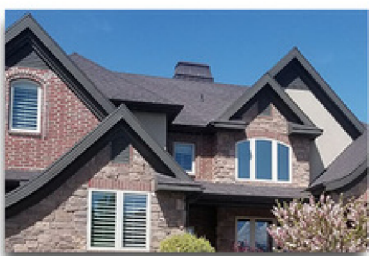

JellyFish Lighting is controlled by its very own Linux based computer. We continually release updates after the intial installtion to keep up with new technological advancments and customer requests.

The lighting system is controlled easily with our free app from any smart device. Within the app, you are able to select programs, change brightness and speed, as well as create and save your own custom colorations to turn on and off throughout the year. You can also save a timer to turn on and off at a specific time or to follow sunrise and sunset throughout the year. Set it and forget it.

JellyFish Lighting is designed to be used every day of the year with accent lighting features to add beauty and security to each home. All accent lighting programs can be adjusted to the perfect hue to match your home. Adding light to any home or business increases safety and deters crime.

Discreet from the Street

This low voltage system uses less than 1 watt of energy per light. Rated at 22,000 hours or 15 years of nightly use, JellyFish Lighting can light up your house for many years to come. We offer over 60 different colors of aluminum, copper, and steel track to blend into your home. JellyFish Lighting is designed to be discreet from the street and dazzling in the dark.
