Meet Your Plant Ally

Astro-Herbal Discovery

An intimate, mystical journey at the intersection of astrology and earth medicine.

We begin with a gentle attunement to your Sun, Moon, and Ascendant — exploring how your cosmic blueprint speaks through your body and emotional patterns. From there, you'll be guided to meet your plant ally — the herb uniquely attuned to your current season of life. Together, we craft a personalized elixir or tincture aligned with your energy and intention.

Part ritual. Part remembrance. 100% personal.
