About Us

Welcome to Fenestra.

We manufacture and install timber windows for commercial properties from our specialist workshop in Bingley, West Yorkshire.

Using responsibly sourced timber, of the finest quality, we manufacture three styles of timber window with state-of-the-art technology and expert craftsmanship.

We work with end-users, architects, local authorities and building consultants providing cost planning and programme advice, working together to find the right solution.

On receipt of your order, we will manufacture all timber windows to specification with an agreed lead-in period. Our products are quality-checked and delivered to site by our team.

On site, our team of installation experts install all windows supervised by our experienced operations team to ensure that delivery is right first time. We include compliance with all health and safety requirements within our service offer.

Our Workshop

Welcome to our manufacturing facility where innovation meets tradition, and every timber window tells a story of meticulous craftsmanship and unparalleled quality.

At the heart of our operation lies a steadfast commitment to sustainability, reflected in our careful selection of the finest responsibly sourced timber, ensuring both environmental stewardship and uncompromising quality in every product we create.

Here, amidst the hum of cutting-edge machinery, our skilled team bring visions to life, crafting bespoke pieces, classic timber windows, and architectural marvels for heritage buildings.

Our Windows

We pride ourselves on offering an extensive range of high-quality window solutions tailored to meet the diverse needs of our clientele.

Our craftsmanship is showcased by adopting three distinct lines;

The Bespoke range, crafted with meticulous attention to detail and tailored precisely to individual specifications.

The Classic range, combining timeless design with modern functionality.

The Heritage range, inspired by traditional craftsmanship and heritage designs, perfect for preserving the character and charm of period properties.

Our Work

As specialists in timber manufacturing, we take pride in exemplifying our commitment to quality and precision.

Our extensive portfolio includes a multitude of projects, each demonstrating the versatility and timeless appeal of timber.

Among our prestigious collaborations stands our partnership with Historic England, where we've had the honour of contributing to the preservation and restoration of treasured heritage sites.

Our team has helped breathe new life into historic windows, ensuring their integrity and beauty endure for generations to come.

SWITCH The Electric Press

Leeds

The Electric Press Leeds is an iconic grade II listed building originally built in 1840 for the printing firm Chorley and Pickersgill.

The building boasts huge existing arched windows and high ceilings which reveal the stunning industrial heritage of the building.

Our team were selected to remove the existing old timber windows and craft specialist timber replacements for this landmark building.

Approved by Leeds City Council, Switch at The Electric Press will offer contemporary office space spread over three floors.

New Briggate

Leeds

We are proud to partner with Historic England on New Briggate for the High Street Heritage Action Zone which is part of the regeneration of Leeds Grand Quarter for Leeds City Council.

Our dedicated and skilled team undertook a range of significant repairs and refurbishment to this commercial building, including the creation of 45 new timber sash windows manufactured in our own workshop.

Using traditional materials and the latest conservation methods we ensured that the renovation integrates seamlessly with the look of nearby landmarks such as the Grand Arcade and St John's Church.

Westborough

Scarborough

With meticulous care, our team removed the rotten external timber elements.

Selecting the finest sustainably sourced timber at every step of the manufacturing process, we demonstrated our unwavering commitment to excellence.

With precision and expertise, our skilled installers seamlessly integrated the new timber windows, infusing the once-dilapidated structure with renewed charm and functionality.

Timeless craftsmanship meets contemporary retail aesthetics which is a testament to our passion for transforming spaces.

Shawmills

Harrogate

As we embark on this journey of restoration and renewal, we are proud to unveil our ambitious project; the creation of 60 new timber windows for this exquisite barn conversion.

Set against the backdrop of Harrogate's idyllic scenery, this endeavour symbolises our commitment to preserving architectural heritage while embracing modern innovation.

With each window meticulously crafted to complement the rustic charm of the barn, our windows will not only enhance the aesthetic appeal of this conversion but also ensure optimal functionality and energy efficiency.
